## An Unusual Combination

Not often do you find a store offering the **Correct Millinery Styles** coupled with **Moderate Prices**. Usually where you find one the other is absent.

If a millinery store has Hats which are truly chic and up-to-the-minute they generally sell them on a large margin of profit, and if it is a store where low prices are in evidence, you ordinarily find the prevailing vogues a second consideration.

We have proven that it is possible to couple really good Millinery styles with **Moderate Prices**.

Our mammoth stock of the latest creations in Millinery embraces all that is new and stylish, yet our prices are away below the average.

One of the reasons why we can do this is because we are an absolutely one-price millinery store. We do not depend upon the liberal customers of the early season to pay for our losses during the "Sale Season."
