How to Banish Wrinkles Quick'y

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or baggy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off.

As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Her take one ounce of pure poud, saxolite, which she can purchase any drug store, and dissolve it in half pint of witch hazel. Apply the face every day. The result is surprising—and instantaneous after the very first application. Wrinkles are less in evidence a face has a comfortable smile or firmness that is most delightful.
