First Methodist Sunday School of
Brazil Entertains W. C. T. U.
Delegates.

By Special Correspondent.
BRAZIL, Ind., Oct. 12.—More than 2,500 members of the First M. E. Sunday school attended the great demonstration which was arranged by Superintendent Carpenter for the entertainment of the delegates to the state W. C. T. U. convention. It is estimated that at least a thousand visitors were present and that over 3,500 people crowded into the big church yesterday.

The men's bible class started off their fall and winter campaign with an automobile parade, about 30 machines decorated in bunting taking part in the parade. Mrs. Vayhinger, state president of the W. C. T. U., and Miss Christine Tingle, of Liverpool, made short talks to the bible class.

In the great demonstration at the close of the school all of the departments marched through the audience waving flags and banners. Mrs. Vayhinger was presented with a beautiful silk flag bearing the inscription, "By this sign we conquer."

The Sunday school session was followed by a mass meeting which was addressed by the great temperance orator, John James A. Tate, of Shelbyville, Tenn., who predicted the end of the liquor traffic in the near future.

The annual diamond medal contest of the W. C. T. U. was held at the First Christian church, Saturday night under the direction of Mrs. Julia Overman, of Marion, Ind. Mrs. J. Morgan White, of Indianapolis, a former Brazil woman, was awarded the diamond medal. The judges were Rev. Leon Dunca, R. H. Morrish and Mrs. Orpha James, of this city, and Mrs. Stickleman and Mrs. Betty Adams, visiting delegates.

Monday Morning's Session Proves a Stormy One.

By Special Correspondent.

Several resolutions were laid over until this evening but most of the resolutions were finally passed for ultimate adoption after a lengthy discussion.

The resolutions acted upon favorably reaffirm their belief in national prohibition; declares against impure reading and advertising in the press; against war and militarism in the schools; commending President Wilson and Secretary Bryan for their course in the Mexican situation, and commending President Wilson for his determination in the European war; in favor of reading the Bible in the public schools; in favor of equal suffrage; American flag or women's faces in advertising liquors or tobacco.

The election of delegates to the national convention went over until this evening.

Barber Is Injured.

By Special Correspondent.

WHAT PEOPLE SAY.

"Jim" Powers—Manager Smith of the Grand shows how policy can boom a business. It has been some time since the Grand looked on such an audience as greeted Hitchcock. The people are certainly supporting the new management of the Grand in its efforts to offer first class attractions."

Tom Kehoe—This buy a bale of cotton movement is all right, but when are they going to start to buy a bale of hay movement?

Mayor Roberts—If the Grand Army posts would permit it, it would be a fine plan to establish a farmers' club in the Memorial hall on Ohio street. I was in Seymour the other day. They have just opened a new Farmers' club there in a handsome building which looks like a library or some such institution. The building was donated by the Blish estate as a memorial to Captain Meedy W. Shields, the father of Ewing Shields, a well known Seymour citizen. The building contains a dining room, a large sanitary and modern kitchen, a library room, rest rooms and nursery. Any bona fide farmer, of Jefferson county is entitled to membership.

FOUR ESCAPE IN JAIL DELIVERY AT PARIS

Sheriff Calls Charges to Breakfast and Finds Some of Them Missing.

By Special Correspondent.
PARIS, Ill., Oct. 12.—When Sheriff Epperson called his charge to breakfast this morning four failed to respond. Investigation proved a jail delivery had been accomplished sometime during the night.

Chauncy R. Mullins, Frank Harris, George McAllister and Harry Bayers, all of whom had been held to the grand jury for various offenses, were missing. The men had not been locked in their cells but allowed the run of the corridors. In some manner unknown they had been furnished with saws with which bars had been removed from a window on the south side of the building. Through the aperture the men had made their way to freedom.

Harris is the man who was arrested in Terre Haute for burglarizing the Taftinger store.

The singular part of the affair is that the men in dropping from the window were in plain view of the street and an alley through which police officers pass many times through the night.

It is possible confederates on the outside signalled when the coat was clear. No trace of the fugitives has been found.

Prepare For Carnival.

PARIS, Ill., Oct. 12.—The local lodge of Knights of Pythias are busily preparing for the carnival and home coming which will open tomorrow morning. A little hitch occurred this morning. The company had prepared to pitch one of its tents in a manner which would completely blockade one of the principal streets. The work was stopped by the chief of police and arranged in a manner which complied with the law.

PARIS, Ill., Oct. 12.—It is understood the committee of eleven which has been investigating the water situation will

report in favor of a second dam to be erected in a deep ravine half a mile east of the present lake. The location is a fine one and will impound a much larger volume of water than the old location. The cost of the improvement is roughly estimated at \$100,000.

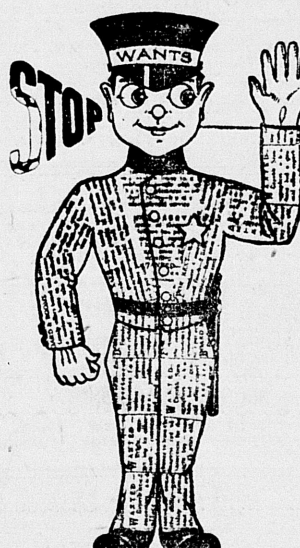

Woman Is Injured.

A FACT IN PHYSICS IS SAVING LIVES

We offer to the medical profession and humanity this new and profound FACT IN PHYSICS—influence the renal tract with an agent that opposes renal and hepatic degeneration, and urinary will, in many cases, within twenty days begin to show diminishing albuminuria in Bright's Disease and decreasing Glycosuria in Diabetes. Simple as it is, this means that these diseases are now being cured.

The presence of albumen or sugar (as the case may be) is a PHYSICAL FACT and its disappearance is a FACT IN PHYSICS.

Who is there big enough to question the reality of a FACT IN PHYSICS that is being daily demonstrated by the weights and measures of analytical chemistry?

Fulton's Renal Compound is the agent used in Bright's Disease and Fulton's Diabetic Compound in Diabetes. They do not conflict with the usual treatment—can simply be added for the new purpose above. There then begins to be hope in these diseases heretofore supposed incurable. Recoveries have been reported in several thousand cases.

Baur's Pharmacy, 705 Wabash avenue, is local agent. Ask for pamphlet or write John J. Fulton Co., San Francisco.
