Which Shall It Be?

DO YOU intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You know that old stove eats up a lot of fuel each year. You know you have trouble in getting it to bake just right, in fact, you have to bake every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic Malleable and Charcoal Iron Range

YOU make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALEABLE AND CHARCOAL IRON—fitted together practically air-tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—and see why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

Don't be discouraged if you are not one of the 100 to get a Tango Hoop Souvenir. You will get a MAJESTIC PUZZLE CARD. Something for all the boys and girls.

Don't fail to get one of these Tango Hoops. It's a new and wonderful toy—amuses the old as well as the young. The Hoop dances forward, hesitates and returns to the operator. Children, it's great, and will be the talk of the town.

Be sure to have your answers ready to hand in at our store TUESDAY AFTERNOON, between 3 and 5. They must be written answers—OTHERWISE YOU WILL NOT get a souvenir.

Special

All during this week a special demonstration direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—show you why the MAJESTIC is the best range on earth at any price.

Come, If You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—KNOW how the top is heated—KNOW why the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. COME.

SULLIVAN'S OLDEST WOMEN CELEBRATE

One Birthday is The One Hundred and Fifth While Other is Ninety-Fourth.

By Special Correspondent.

SULLIVAN, Ind., Oct. 13.—The two oldest women in Sullivan county have celebrated their birthday anniversaries during the last week. Mrs. Eleanor Combes, known as the oldest living white woman in Indiana, reached the unusually old age of 105, and in her honor, a family reunion was held at the home of her son, Wiley Gambill. She is the mother of eleven children and has fifty-seven grand children, 147 great grandchildren and seventeen great great grandchildren.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More

A Physician's Advice

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by good druggists everywhere and every package contains a guarantee of weight increase or money back.

Caution:—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

CALLS AVIATOR KING OF MODERN BATTLES

Army Airman Attributes Allies' Victories to Work of Reconnaissance.

LONDON, Oct. 13.—A Paris dispatch to the London Daily News says:

"The aviator is king of modern battles," with pardonable pride asserts an aviator who has taken part in aerial reconnaissance in Alsace, in Belgium, and more recently in the battles of the Marne and the Aisne. He is now enjoying a few days' rest in Paris.

"Thanks to the aviator," he says, "we have won our victories, and it will be thanks to him that in a few days we will be able to hunt the Germans out of France. In my opinion, sufficient has not been said of the important part aviation has played in this war. It is true that at first we were a bit taken by surprise. The Germans had marvelously organized their aerial army in silence. They have more aviators than we expected, and have excellent craft. Consequently, they were able at the start to count on splendid scouting service. They were over our positions at night, and at dawn their artillery showed by deadly work how careful and accurate had been the reconnaissance.

"Then we put into action our admirable army of the air. It was not long before it rendered exceptional service to the headquarters staff. It played a decisive role in the battle of the Marne. At the present moment it is a precious auxiliary—one might almost say indispensable adjunct to the victorious march of our troops.

"I have been instructed to make reconnaissance on many occasions, both in the east and the north. In spite of the intense fire of the enemy I have been able to report the situation of the German troops, note their movements, estimate their numbers and importance, and I am convinced that I have been able to be of great service.

"When the war is over one of the finest pages in history will tell of the role of the aviator."

All the above applies to the aeroplane. The airman who gives his experiences asserts that the dirigible airship has not proved a success. It is at the mercy of any squadron of aeroplanes, and he does not believe it has any military future.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by Dr. J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

APPLY SULPHUR LIKE A COLD CREAM WHEN SKIN BREAKS OUT SAYS SULPHUR WILL END ITCHING ECZEMA

In the treatment of the various forms of disfiguring, itching and burning Eczema such as Acne, Ringworm, Salt Rheum, there is nothing known that can take the place of bold-sulphur. It effects such prompt relief, even in the aggravated Eczema, that it is a never-ending source of amazement to physicians.

For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parasiticidal, but antipruritic and antiseptic, for invaluable in overcoming the inflammatory affections of the skin. While not always establishing permanent cure, yet in every instance instantly stops the agonizing itches, soothes the irritation and heals inflamed, raw skin right up and on years later before any Eruption again appears.

Those troubled should obtain any good pharmacist an ounce of sulphur and apply it directly upon abrasion like an ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome.
