## CHICAGO BOARD OF TRADE.

<b>CHICAGO, Oct. 14.—Wheat</b> advanced in price today, owing to higher quotations at Liverpool and because of continued falling off in northwestern receipts on both sides of the Canadian line. The start, which ranged from 1/4 @ 1/2 higher, was followed by other moderate gains.	
The close was strong at 1 1/4c to 2 1/4c above last night.	
Corn values hardened on account of wet weather and as a result of wheat strength. After opening 1/4c up the market seemed inclined to hold to the top level.	
The close was steady at 1/4c to 1/2c net advance.	
Belief that the stock of land in Chicago would show a decrease for the first half of October gave the provision market a lift.	
The decrease was estimated at being at the rate of 2,000 tierces a day.
