There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a person many years disabled by cataract it is a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Cataract to be a curable disease, and the treatment requires constitutional treatment. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It acts internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and get it for free.
