

KAISER TO TRY TO TAKE PARIS

Reported Successes in East Result in Transfer of Men to West Front.

BILLION DOLLAR INDEMNITY TO BE DEMANDED OF FRENCH

Plans for Occupation Drawn Up Before Battle of Marne, Declares Copenhagen Correspondent of Times.

LONDON, Oct. 15.—7:40 a. m.—“Germans arriving here,” says the Copenhagen correspondent of the Times, “state that owing to the failure of the Russians to make progress against the Germans, the Germans have decided to transfer immediately considerable masses of troops from the eastern to the western fronts for an advance on Paris.”

“This transfer probably already has begun, as ordinary train traffic is delayed forty-eight hours.”

From the same source, the correspondent says he learns that there is a large amount of sickness among the German troops.

“The plans for the occupation of Paris drawn up by the Germans before the battle of the Marne,” continues the correspondent, “contemplate a demand for an indemnity of a billion dollars and unless the entire sum was paid within a fortnight, property of equal value was to have been taken to Berlin, including art works and libraries, and retained there until full satisfaction on the indemnity was made.”

Increasing. England is taking note of these reports by sending to the front three of her most important medical men as an advisory body to co-operate with the regular medical staff in preventing epidemics.

A correspondent in Italy reports that the war fever in that country is abating, even the most determined anti-Austrians now agreeing that no belligerent move should be made before next spring.

Turkey continues in a truculent mood, and trouble already may have begun in the Black sea, where heavy firing has been heard, and where it is believed that the famous German cruisers Goeben and Breslau, which have been sold to Turkey, may have been engaging the Russian fleet.

Ottend is now virtually a deserted city with its docks still crowded with terror-stricken refugees, intent on only getting as far as possible from the scenes of the suffering.

The repatriation of the Belgian fugitives promises to become a serious problem, both in England and in Holland, and the countries may call upon the U. S. to assist in this work.

Further detachments of Canadian troops are landing today.

RUMANIA STILL NEUTRAL

BERLIN (via London), Oct. 14.—The Rumanian envoy to Switzerland, it is said, declared in Berne Tuesday that it was untrue that Rumania had been influenced by the alleged efforts of the triple entente to draw her into the war. The envoy characterized rumors to that effect as mere intrigue with the object of influencing the course of the Rumanian government, whose policy was fixed long ago and would not be deviated from.

WASHINGTON, Oct. 15.—Adjournment of the Mexican convention at Aguas Calientes, last night, without acting upon the proposed resignation of General Carranza as first chief, pending the arrival of additional delegates representing Zapata, was announced today in official dispatches to the state department from Consular Agents Carothers and Kanova. October 20 was tentatively agreed upon as the date for reconvening.

AGUAS CALIENTES, Mex., Oct. 15.—Unofficial reports of the results of the peace conference here yesterday say that a successor to General Carranza for the presidency of Mexico is to be named soon. WASHINGTON, Oct. 15.—Acting Secretary Lansing said today the state department had no confirmation of published reports that the resignation of General Carranza had been presented to or accepted by the Mexican convention at Aguas Calientes. The latest message from Special Agent Kanova, received by the department, was dated yesterday afternoon and reported that Gen. LANDSLIDE TIES UP TRAFFIC IN PANAMA

Many Ships Are Unable to Pass Through Canal As Result of Trouble At Culebra.

PANAMA, Oct. 15.—A serious landslide in the Culebra cut at a late hour last night interrupted completely all traffic through the Panama canal. Several ships in the canal have been unable to complete their passage.

The reports indicate that there were earth movements on both sides into the channel from the slopes of Gold and Contractors hills, which are virtually opposite each other.

Col. Goethals and others are this morning making an examination of the extent of the damages.

It is said that traffic through the canal probably will be interrupted for some time.

NO ALARM CAUSED.

Canal Officials Say Result Will Be Only Good.

WASHINGTON, Oct. 15.—News of the landslide into Culebra cut caused no alarm at the Isthmian canal commission offices. While regretting the temporary closure of the canal, the officials say this slide will have its compensations from an engineering point of view, because it will hasten the final subsidence of the mobile material in the cut, thereby insuring the permanence of the waterway.
