

## WINDOW TRIMMERS ARE ASSURED OF SUCCESS

Donations By Merchants for Fair At K. of C. Hall Are Very Encouraging.

With the merchants responding liberally with donations for the fair to be given by the Terre Haute association of window trimmers at the Knights of Columbus hall Nov. 16-21, the members of the association said Saturday that the event has been assured success. The fair will be given for the purpose of raising money for carrying on the work of preparing for next year's United Fashion Shows, and the merchants have felt so gratified from the results of this year's show that they have responded voluntarily with contributions.

"We expect to make the fair one of the biggest affairs of its kind ever held in Terre Haute," said J. H. DeWitt, president of the association. "The boys worked hard for the success of the show, and we want to give them a bigger display next year. This year the show was a venture; next year it will be an established institution. We had to work on a limited amount of money, and we made a success. With more money next year we expect to nearly double the crowds."

All of the goods to be offered at the fair will be donated by the merchants. Beautiful prizes will be given away each night, and on the closing night a diamond cluster ring will be given away. There will be dancing each night for the crowds.

**JOY RIDES AND TAXI BILLS**  
WIND UP IN \$5,000 LAWSUIT  
Traveling Man Says He Was Held All Night in a Local Garage.

One of the briefest complaints ever filed in the local courts in which damages were sought was that of John H. Cunningham filed Saturday morning against James Snoddy and the Royal Taxicab company for \$5,000 damages, in which it was claimed that the defendant unlawfully deprived the plaintiff of his personal liberty for five hours on October 4. The complaint contains ten typewritten lines. Attorney F. S. Rawley is plaintiff's attorney. It is claimed by Cunningham that the taxicab people took him to their office in an attempt to collect a bill in excess of one he admitted owing, and kept him there until 5 o'clock in the morning before releasing him. Cunningham is a traveling salesman. The taxicab company charged that Cunningham had rented taxicabs and refused to pay the bills. Cunningham claims that two of the company's chauffeurs grabbed him and took him to the office of the taxicab company and held him all night.

Cunningham also charges that when he refused to pay the bill he was threatened by Attorney Sydney Oynett and says a police officer threatened to run him out of town."

**By Timely Use of Lydia E. Pinkham's Vegetable Compound.**

### Mrs. Sowers' Own Statement.

Hodgdon, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## CURIOSITY IS NOT A SCIENCE, SAYS KAPLAN

Rabbi Says It is But the Key Which Opens the Door, and is Necessary to Development.

The regular services at Temple Israel were held at 10:30 o'clock Saturday morning, with a large congregation present. Rabbi Jacob H. Kaplan spoke on "Curiosity Is Not Science," using as his text Genesis 3:9-10: "Where art thou? And he said, I heard Thy voice in the garden and I was afraid, because I was naked." Dr. Kaplan said:

"We are all wandering about in the Garden of Eden, seeking what we can find. Many are the forbidden fruits in this garden of life, but the search must go on or we shall be ignorant.

"The child must learn, but the search is dangerous. Youth, in his larger field, has more dangers and more forbidden fruits in this search for life and the greater are the dangers and the more numerous the forbidden fruit that might hurl him from his eminence of character into the abyss of oblivion. Yet each one must seek and must find the tree of life in the midst of the trees of forbidden fruit.

Student Unafraid of God.

"Curiosity, however, is not science. Curiosity is but the key that opens the door. The intention and the purpose, if they be unselfish and noble, contribute to the scientific spirit.

"The seeking spirit is a combination of self- and not-self. Self-seeking alone is curiosity and sin. Seeking self for the not-self, that is the scientific spirit. The curious is always afraid when surprised by God. I heard Thy voice and I was afraid."

"The student, in the scientific search is not afraid of God's voice; he is glad to hear it. The artist's and the anatomist's nude figures do not make them afraid. The purpose is art and science. Without curiosity there can hardly be any developing of the scientific spirit, but curiosity alone is not science."

Friday evening Dr. Kaplan spoke on "Religion and Science, Two Modes of Interpreting the Universe." In this address he said:

"Science deals with cause and effect. Religion deals with feeling, emotion and love. The Prophet Amos discovered the scientific fact that God is just. Hosea accepted the discovery of Amos but made a new discovery, namely, that God is love in addition to justice. One is not a more exact discovery than the other, but they are of different kinds."
