Management of Home Coming Plan
and Carry Out Novel Entertainment.

By Special Correspondent.

PARIS, Ill., Oct. 17.—The managers of the home coming staged a Mardi Gras performance last evening. It was pouring rain, but for all that the streets were filled with masked figures. Some of the costumes were unique, to say the least. After extracting all the fun possible from the surroundings the set was marshaled and led by the carnival band, marched twice around the square.

The judges decided that Miss Jessie Curl, attired as "Sis Hopkins," and Carl McKinney, who represented a "copper" of the Broadway squad, were entitled to the prizes.

The festivities for the night closed with a grand masked ball given under the auspices of the Knights of Pythias.

CLINTON POLICE TAKE MAN WHO HAS IMAGINARY PURSUERS

Victim of Liquor Thought to Be Tem-
porarily Insane, and Will Be
Watched.

By Special Correspondent.

CLINTON, Ind., Oct. 17.—Business began to pick up in police circles in a hurry yesterday morning when two drunks were gathered in and placed in a cell in the city jail. One of the fellows, whose name the police were unable to learn tried to pull off a wild west stunt while the other one was believed to be temporarily insane. He was picked up by a policeman who found him running down the alley near the jail, yelling and begging imaginary pursuers not to kill him and yelled for the policeman to save him as he fell into the officer's arms. He then declared that a gang of men had been following him and that they would get him unless he was given official protection. He is a stranger to Clinton officers and they do not know where he came from. His condition is a pitiful one and he will be watched closely pending further developments.

TRADE MUSEUM IN PANAMA.

United States to Erect Trade Build-
ing Building on Isthmus.

PANAMA, Oct. 17.—The erection in Panama of a permanent building by the United States, which would house a bureau of information and commercial museum, to draw the attention of South American countries to American manufactures and industries, is meeting with much encouragement from the officials of the Panamanian government and merchants of the country. They view the proposal in the light of an effort to bring Panama forward as a general purchasing and trading point in Central America.

A site for the proposed building has been placed at the disposal of the United States, and tentatively accepted by William Jennings Price, American minister to Panama. The ground forms part of the site upon which is now being constructed the national exposition to commemorate the discovery of the Panama ocean by Balboa and also the opening of the Panama canal.

ging a Merry Battle.

BICKNELL, Ind., Oct. 17.—The republican county commissioners, who usurped the right to allow the democratic county trustees to serve as inspectors of election boards, according to law, have received a hard jolt from this section of Knox county by the progressives, who have selected men from their own ranks to fill the places of judge, clerk and sheriff in this city. Word comes here that the same move will be made in other townships and towns in this county by the progressives, who are at dagger's point with the republicans in this section.
