CRANE COMPANY FILES \$20,000,000 MORTGAGE

Protects Issue of Gold Bonds to Take Up Obligations and Make Improvements in Property.

One of the largest mortgages ever filed in Vigo county was given to County Recorder Frank Hoernemann for record Saturday, that of the Crane Co., of Chicago, in the sum of \$20,000,000 to the Central Trust Co., of New York, James N. Wallace, of New York, and Brackenridge Jones, of St. Louis, as trustees, protecting an issue of gold bonds bearing 5 1/2 per cent interest, issued to take up certain obligations of the company and providing for improvements to its property.

The bonds are thirty year issues, and the mortgage protecting them covers all the real estate owned by the company in twenty-two states and one province in Canada, British Columbia, the company owning property in Vancouver. The mortgage names the owners of the company in Terre Haute, a specific description of the property being given in the printed document, which covers 110 printed pages.

It was the largest document of the kind ever filed with Recorder Hoernemann, and he took a half day off to

read and compare the document filed with a copy that was furnished him as having been filed for record in St. Louis, where one of the trustees resides, and in Chicago. A copy of the mortgage will be filed in every county where the company has real estate holdings.

BULL MOOSERS COUNT NOSES FOR ELECTION

Toner Predicts Indiana Progressive Vote Will Go Over 200,000 Mark Next Month.

INDIANAPOLIS, Ind., Oct. 17.—That the finish of the campaign in Indiana will be between the progressives under the leadership of Albert J. Beveridge, their nominee for United States senate and the democrats was the substance of a statement made today by Edward C. Toner, chairman of the progressive state committee. Toner maintains that he has reports which show beyond question that the republican campaign has collapsed and that the fight is between the progressives and the democrats as it was at the start several months ago.

This claim on the part of Toner is not recognized by the republican leaders and as a matter of course they are trying to shoot it full of holes. "They say that the progressives are not going to poll as many votes as they did in 1912 and that they have practically no organization for the coming election. However, Toner's statement is borne out by others who have been making a careful investigation of the situation in Indiana and who find the

progressives are much better organized than they were in 1912.

The progressives have their county ticket in every county this year and have also nominated tickets in three-fourths of the townships of the state which naturally gives them a much better organization than ever before. Two years ago they had in the neighborhood of 170,000 voters with practically no organization and no representation on the election boards.

Beveridge and his associates in the progressive campaign have claimed all along that fully 40,000 votes that were cast for Beveridge and Roosevelt in 1912 were not counted for the reason that in at least one-half the counties republicans controlled the election machine.

According to the progressive leaders at least 200,000 votes were cast two years ago and they are confident that at least that many will be cast this year.

In Ft. Wayne, Evansville and other larger cities of the state it appears that the republicans are not going to do as well as they are claiming as the registration shows their vote has fallen off a lot since 1912.

CONTRACTOR RUSHING WORK ON SUGAR CREEK HIGHWAY

Lays First Reinforced Concrete Road in Vigo County Outside of City of Terre Haute.

The first reinforced concrete road to be built in Vigo county outside the city of Terre Haute is the Fred Orth road in Otter Creek township, running from Markle's mill, at Forest park, west to Ellsworth, work on which is progressing to the satisfaction of the county commissioners and County Surveyor Herbert C. Anderson. The road has been completed from Ellsworth east to the railroad crossing, and on Thursday concreting began at Markle's mill west to meet the other portion of the road.

The road is being built according to the very latest specifications for the construction of concrete roadways which have proved so popular and substantial in other communities. The roadway is to be 18 feet in width, with gradings four feet in width on both sides of the concrete. The work on the Orth road is being done by John Niehoff, of Gary, to whom the contract was sub-let by W. H. Harris & Co., the original contractors. It is expected that the road will be completed within the next two weeks. The concrete is being laid in the proportions of one part cement, two parts sand, and three parts gravel, the sand and gravel being washed before use, in accordance with the specifications prepared by County Surveyor Anderson.

Ask "Her" Opinion

There's a "her" in every young man's life, and her opinion of the clothes question is just as important as her opinion on other intimate matters of living.

Bring her down town soon, if you are thinking of buying clothes, and let us show you the latest Fall models.

Her quick eye and comprehending glance will immediately notice the difference between Myers Bros' Clothes and other clothes.

She knows what good tailoring is.

She knows what good fabrics are.

She knows whether a suit "becomes" you or not.

Ask her opinion and invite her with you the next time you spend money for clothes; or at least, ask her to look in our show windows and pass her opinion on the garments displayed.

HOW HE QUIT TOBACCO

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a recent letter he writes: "I have no desire for tobacco any more. I feel like a new man."

Any one desiring a copy of this book on tobacco habit, smoking and chewing, can get it free, postpaid, by writing to Edward J. Woods, 28N. Station, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages you gain by quitting poisoning yourself.
