

PLANES LIFTING F-4 PART; SUSPEND WORK

Submarine Will Be Raised, However,
for Purpose of Ascertaining
Cause of Accident.

WASHINGTON, March 31.—Expenditure of \$20,000 to bring the sunken submarine F-4 to the surface in Honolulu harbor was authorized by Secretary Daniels today after a message had been received from Rear Admiral Moore saying that the hawser attached to the boat had parted and that present equipment was too light to raise her.

HONOLULU, March 31.—Grappling cables attached to a heavy object believed to be the lost submarine F-4 parted late yesterday and work was suspended for the night. The spot was carefully marked and it was announced another attempt would be made to-day to grapple the object.

A huge diving tube which engineers have been hastily constructing was completed last night. It was submerged 35 feet and was left in the harbor until morning in order to test its stability.

The city has been scoured to obtain 700 feet of re-inforced hose to be used as air tubes.

Twenty-one coffins have been delivered at the navy dock for the ill fated crew of the F-4.

WASHINGTON, March 31.—Secretary Daniels was determined today to raise the sunken submarine F-4 in Honolulu harbor no matter what the operation may cost. He wants to learn the cause of the accident so as to avoid similar disasters in the future.

This was made known after advice had been received from Rear Admiral Moore at Honolulu which said that preparations were being made to raise the submarine by the pontoon method. The fact that the admiral reported the submarine evidently was waterlogged and therefore too heavy to be raised by the equipment previously employed, banished the hopes of officials that any of her crew might be found alive. Secretary Daniels said the navy department would send the necessary equipment to Honolulu to raise the ill fated submarine.

BLAZE ON SHIP BRINGS ARREST

records as "Raymond Swoboda, 33 years old, an American subject, profession, financier; destination, Paris."

Trained in Paris.

W. Commissary Dubert, attached to the French service department of the ministry of the interior, undertook the task proved by Swoboda. He found the reports fairly well known in Paris of Helen, circles and had been caught in a bribe several months ago. After a brief stay, he registered under the name of Raymond Swoboda, and professed to be an American of important means who had come from New York on the Touraine. He told the story of the fire in the hotel drawing room where, it is said, Swoboda's manner had aroused some suspicion and the other guests kept aloof from him. He was traced to another hotel in Place de Rivoli, where he was arrested. When his room was searched the police declare a number of letters, written in German, were found, which seemed to point strongly to his guilt.

Mr. Morrison, the broker, when told of Swoboda's arrest, expressed amazement. "I had business relations with Swoboda," he said, "but he always was very honorable in his dealings. I had formerly been employed in a Paris bank and had a wide knowledge of finances."

AMERICAN PASSPORT.

Swoboda Made Arrangements for Trip Day Before Ship Sailed.

NEW YORK, March 31.—The circumstances under which Mr. Swoboda sailed aboard the LaTouraine, February 27, were recalled today at the office of the French line here.

Mr. Swoboda it was said came into the office of the line on February 26 and, presenting what appeared to be an American passport issued by the French consul here, said he wanted to engage passage to Havre. He told the ticket clerk he expected to sell supplies to the French government.

The nature of these supplies, so far as could be recalled, was not stated. Swoboda said he wanted to take abroad samples of the supplies and to do so would prefer to have them shipped with him as excess baggage. The clerk under the impression that the supplies had something to do with the use of gasoline—inferentially a gasoline engine of some sort. Swoboda was sent to the freight agent of the line.

Arbitration Case.

HAZELTON, Pa., March 31.—

That electricians, electricians' helpers, watchmen, fire bosses, stable bosses, engineers and other monthly men in and about the anthracite mines are entitled to a wage advance of ten per cent dating from the amended agreement in effect between operators and their employees since 1912 was decided today by Former United States Judge George Gray, of Wilmington, Del., as umpire for the anthracite conciliation board. The decision sustains the grievance of stable bosses, engineers and fire bosses of the Pancoast-Price Coal Co. of Throop, Lackawanna county, who got a five-and-a-half per

STORM SWEEPS SOUTHWEST.

Snow Falls in the Carolinas, Tennessee and Georgia.

WASHINGTON, March 31.—Another wintry storm swept the southeastern states last night and early today bringing snow over the Carolinas, Tennessee and North Georgia and general rains farther south.

South Carolina was swept by a snow and sleet storm of unusual severity which weather bureau officials said broke all records since 1887.

Snow and sleet fell in Augusta, Ga., and railroad service through North Carolina was demoralized. Asheville reported nearly a foot of snow.

ent wage advance in 1912 when the
miners received ten per cent under the
contract which went into effect that
year.

This means back pay to the extent
of \$300 to some workers. Electricians
and their helpers, watchmen and other
monthly employees of the Delaware,
Lackawanna & Western Coal company
are given a ten per cent advance in a
second decision in which the umpire
rules out the contention of the compa-
ny that the award of 1902 applied only
to those not working on a monthly
basis. The umpire cited frequent ref-

erences to "permanent positions" in
the award and he decrees that the
same conditions apply to the Delaware,
Lackawanna & Western men as to
those at the Pancoast corporation.

Many of the men benefited by the
decisions were not identified with the
mine workers in 1912 and are not now
affiliated with the union.
