## Rensselaer Lost Second Ball Game in Winona League Race.

Howard Clark arrived home this Friday morning from Winona. He stated that the Rensselaer boys lost their second game played Thursday, to Muncie, that Winona had withdrawn from the league, leaving only the three teams and that he thought Rensselaer did not have a chance to win, owing to the older and larger boys that constituted the opposing teams. He thought two other boys would reach home tomorrow, considering the circus a greater attraction than the camp.

Mrs. J. M. Barnes, of Terre Haute, arrived last evening to visit Mrs. W. C. Babcock.

Master Marion Clarke went to Edinburg, Ind., this morning, accompanying his aunt, Miss Cora Clarke, to her home.

Mr. and Mrs. F. E. Wert returned this morning to Michigan City after a visit here with George Tullis and family.

We had a fine, refreshing rain last night, probably measuring about a half inch, and resulting in much good to pasture, lawns and corn. Today has been cloudy and clear alternately and more rain seems impending.

A murder occurred at Clymers station, nor far from Delphi, Thursday morning. A farm tenant named L. G. Pippinger was murdered by Samuel Michaels, who owned the farm on which Pippinger lived. Bad blood had existed for some time between the men. Michaels claims that Pippinger attacked him with a pitchfork and is said to have several wounds, one passing through his right forearm. Michaels was arrested shortly after the shooting and is confined in the Delphi jail. Both Michaels and Pippinger were well-to-do men and regarded very highly in the community in which they lived.

The circus will be here tomorrow, arriving early in the morning from Monticello, where it is exhibiting today. Those who get up early will be able to see the unloading, which is a sight really worth making an effort to see. The circus will exhibit on the ball grounds, the east end. The general admission is 50 cents. An extra charge will be made for the reserved seats, facing the middle ring. Have the correct change for your tickets, or at least keep your eye on the ticket seller and don't leave the place until you are sure he has given you the correct change. There will be plenty of room for all, and you will not have to buy 75 cent seats, in case some of the ticket sellers offer them at that price, as was done once before. The show is a good one, worth your attendance, but you should take every precaution against being defrauded.

George Robinson and family who have been here from Connorsville since before the 4th expect to return home within a week of two. George was injured the second of July last year falling while working as a line-man for the electric light company. The twelfth vertebra of his back was broken, resulting in the paralysis of his right leg and leaving him so badly crippled that physicians thought he could not live. For months he was confined to his bed, but finally he began to improve and his present condition lends great encouragement to himself, his family and friends. Since coming here he has made three or four trips up town on crutches and his right leg which the doctors had told him would always be useless he is now able to move and to bear his weight upon. George is an example of the gospel of cheerfulness and determination and his improvement was largely brought about by his confidence and his smiles. His back was broken and the twist in it can be plainly felt. Following his accident he ran down in weight to less than a hundred pounds, but now he is back to near his old weight, 240 pounds.

## Hicks Forecasts Cold

Weather For August.

Contrary to expectations, the Rev. Irl Hicks says that August will be full of cool weather with the usual number of storms, earthquakes, etc. He starts the months with a reactionary storm period commencing on the 2nd and lasting until the 5th. From the 8th to the 11th will be extraordinary period accompanied by wind and electrical storms. Immediately following these storms will be decidedly cool weather which will last for several days.

Local rains are billed on the 15th. The entrance of the earth's autumnal equinox begins the 17th and violent thunderstorms may be expected about the 20th. From the 22nd to 25th big tidal waves may be expected in the gulf regions and the great storms in the south at this time will cause boreal winds from the north and a change to unseasonable cool weather in the middle states.

This cool weather will last until the last of the month when a regular storm period is due. The month of August will be a dry month. Sufficiency of rain fall generally is not predicted.

## Young Ladies Return From Six Weeks' Trip In West.

Misses Jennie and Alice Eib returned this Friday morning from a visit of six weeks spent in North Dakota and Minnesota. At Cummings, N. Dak., they visited their sister, Mrs. George Wright. The country at that point had not suffered so much from drouth, as it had farther north and west and they were expecting to harvest a fair crop. The same condition existed at Balaton, Minn., where they visited Mr. and Mrs. Floyd Fuller. They had an enjoyable visit.

Watermelons, gem melons, Arizona cantiloupes, the first of the season, and fresh tomatoes at C. C. Starr & Co's.

## Monon Prover Easy For Francesville Baseball Team.

Baseball rivalry has been at a high pitch for some time between Francesville and Monon and culminated Thursday afternoon in a championship contest held on the Monticello grounds, with neutral umpires. An agreement was signed binding the two towns to use only players residing in the respective towns and naming the players from which the teams were to be selected. The partisans of the two teams went to Monticello in great force, being estimated that 100 Francesville fans and two hundred from Monon journeyed to Monticello to witness the game and to participate in the rooting.

Nothing occurred to mar the sportsmanship of the contest. The rooting was constant and shafts of wit passed between the partisans of the teams but they were friendly and amusing. The girls constituted the chief noise makers and the ruling of the umpires were drowned in a medley of singing and megaphones and shouts. Although Francesville took the lead in the first inning and increased it as the game waned and when the final result showed that Francesville had made 16 to Monon's three, it might be said that Monon had her boots on when she fell. To all appearances Francesville had really much the better team, but the excitement may have been more than the nerves of the Monon boys.

## WEATHER FORECAST.

Showers this afternoon and tonight, cooler in northwest portion. Saturday partly cloudy.

## Tefft Young Men Have A Lively Runaway Accident.

James Bobsteen and Lon Nees, young men living near Tefft, the former being employed by Trustee Shirer, were injured in a runaway accident Thursday evening. They were driving Bobsteen's team hitched to a buggy and the horses became unmanageable. The young men were thrown out of the buggy and Bobsteen suffered some severe bruises on his face. The buggy was wrecked. Indications were that the young men had made a prolonged visit at Burroughs' Camp.

could stand and thus account for the frequent errors they made.

As it was Francesville went home with the bacon, the coin, the pennant and the delight of victory, but they bore their success modestly and did not rub it in to their defeated rivals after the contest. Monon is half a mind to try it over again, in which case the game may be played in Rensselaer.
