

HARD COAL BASE BURNERS HAVE ALWAYS BEEN MADE WRONG.

A Street Demonstration of the Most Wonderful Stove Made

For Burning Hard Coal, by Mr. J. B. Howard, the Inventor, who will Prove the Above Statement to You.

Demonstrations will take place Friday Afternoon and Evening, Oct. 28th IN FRONT OF E. D. RHOADES & SON'S HARDWARE STORE, ON THE STREET.

MR. HOWARD says: I will demonstrate the Searchlight Utility in front of E. D. Rhoades & Son's store, burning all sizes of hard coal—chestnut, stove size and egg, and reducing it to gas. I guarantee this wonderful stove to give a steady heat day and night. If the J. B. Howard Combustion Damper (patented) is set before going to bed, not one degree variation in temperature will be noticed when you get up in morning, even with temperature outdoors from 10 to 20 degrees below zero. I will deposit the sum of \$5,000.00 with E. D. RHOADES & SON of this city, said amount to be paid to any manufacturer or dealer in stoves who will produce a hard-coal base burner Oct. 28, 1910, that will burn all the ingredients of anthracite coal, such as Carbon Monoxide, commonly called poisonous gases, or will heat the same amount of space, at the same cost, the Searchlight Utility does.

Mr. Howard is also the Inventor of the HOT BLAST AIR TIGHT FLORENCE as well as the SEARCHLIGHT UTILITY RETURN FLUE FLOOR HEATER.

YOU DIDN'T KNOW THAT BASE BURNERS WERE ALWAYS MADE WRONG, DID YOU?

It is a fact, nevertheless. They are constructed contrary to all rules governing the science of heating and radiation. During the past fifty years only the outward appearance of the Base Burner has been changed. The slight changes to the interior construction has not increased the radiating capacity more than two per cent. It will pay you greatly to attend these demonstrations by Mr. Howard, as he will talk upon all points of the stove making industry.

The Searchlight Utility is the Only Heating Device on the face of the earth that burns coal and maintains a steady, even heat throughout the night, including stove, base burner, furnace, steam or hot water boilers.

The Searchlight Utility Will Heat Three Times the Space, has twice the life, and will take a ton less of hard coal, when the same amount of space and heat is taken into consideration, than any Base Burner made.

7,591 Square Inches of Radiating Surface. The Searchlight has four times more direct radiating surface than the base burner.

The Searchlight Rolling Top does away with the swing top, which not only makes a great deal of noise, but covers up a large amount of heating surface.

The Searchlight Utility is a Furnace on the Parlor Floor. The J. B. Howard Combustion is a gas producer in a stove.

NO DIRT, NO GAS, NO CINDERS—ASHES FINE AS POWDER.

The J. B. Howard Combustion (patented), and used exclusively in the Searchlight Utility for burning anthracite coal, burns the carbon monoxide or poisonous gases, which were never consumed or utilized in the history of burning anthracite coal.

No Fine Ashes Settling Over the Stove and Furniture When Shaking. The dust flue, leading up from the ash pit, disposes of the fine ashes when the grate is shaken, through the interior of the stove and up the chimney.

As a Fire Keeper it is a Wonder. It will hold fire seven days and seven nights with one firing and will do the same work twenty-five years from now.

We guarantee the Fire-Pot to Last Twenty-Five Years. The Fire-Pot is so constructed that the heat is radiated to the floor for a space of five feet around the stove. Remember the base burner heats under the stove and is a cat warmer, not a floor heater in the proper sense.

The Most Economical Hard Coal Stove on Earth. Why? Because it burns all the poisonous gases that never were utilized in the history of the burning of anthracite coal. It is not the original cost of a stove, but the cost to operate it that counts. The Searchlight Utility is an investment that will pay for itself in a short time.

The J. B. Howard Combustion has made the Hot Blast Florence famous for burning soft coal and will make the Searchlight Utility Return Flue Floor Heater famous for burning hard coal.

The \$5,000 offer in the above ad includes the HOT BLAST AIR TIGHT FLORENCE and if any stove dealer or any stove manufacturer can produce, or will produce a stove to burn soft coal outside of the HOT BLAST AIR TIGHT FLORENCE construction, that will burn the smoke from the moment the fire is started, he is at liberty to claim the \$5,000 offered above.

E. D. RHOADES & SON
Rensselaer, Indiana

Mr. Howard will not only demonstrate the SEARCHLIGHT UTILITY RETURN FLUE FLOOR HEATER and the HOT BLAST AIR TIGHT FLORENCE, but he will expose the deception that has been practiced upon the public by the stove manufacturers and the stove dealers on this base-burner question, and the smoke and gas consuming question.

Robert E. Peary, the Arctic explorer, Thursday advanced to the rank of captain in the corps of civil engineers of the navy by reason of the retirement on account of age of Captain U. S. G. White. Peary's leave of absence expires within a few days, but it has not been decided at the navy department what his assignment will be.

Bail was refused John F. Deitz, Mrs. Deitz and their son Leslie Thursday by Judge Wiskham at Eau Claire, Wis. They arrived in charge of Sheriff Madden and Deputy Ackley from Hayward Thursday and were taken directly to the court house in Eau Claire. The date for a further hearing was set for next Wednesday at Hayward.

Li Hung's Costly Tea.
Li Hung Chang, when entertaining, used tea worth \$50 a pound. In comparison, what priceless value has Dr. King's New Health Tea, that cures constipation, kidney trouble, backache, indigestion, dyspepsia, and fills you with new health, strength and vigor. But it's only 25c at A. F. Long's.

You get your sale bills when YOU want them. When ordered at The Republican office.

Calling cards at the Republican.

NEWS IN PARAGRAPHS.

Otto Hunt, of Kirklint, Ind., 27 years old, was seriously injured internally in a game of football at Wabash Thursday with the Wabash Athletic club.

Ethel Taylor, aged 19, at Terre Haute Thursday tried to cut out a pain in her head with a hatchet. A commission has been appointed to inquire into her sanity.

The population of the state of Arizona is 204,354 according to statistics of the thirteenth census made public Thursday. This is an increase of \$1,423 or 66.2 per cent over the 1900 census.

The stork has left a baby at the residence of Henry Blakely, of Marion, Ill., a Chicago & Eastern Illinois railroad conductor, which weighs scarcely a pound and a quarter. The infant appears to be in perfect health and is expected to live.

John Mullendore, of Franklin, Ind., has filed suit against his mother-in-law, Mrs. Laura Cutsinger, demanding judgment in the sum of \$10,000, charging her with alienating the affections of his wife, Willie May, who recently sued him for divorce.

Floyd Richardson, assistant road foreman of engines on the Panhandle, tells of a fast run by passenger train No. 19 between Logansport and Chicago. The train, composed of nine standard coaches, attained seventy-two miles an hour from North Judson to Kouts.

Sheriff White and Court Bailiff John Hayes, of Noblesville, emptied 5,000 bottles of beer into White river, near that city, Thursday. This stock was the accumulation of raids on the houses of Harry Calvert and William Franklin at Sheridan. The men are now serving sentences in jail.

The fly is destroying thousands of acres of wheat in northern Indiana counties. Dispatches state that reports received from the northern tier of counties indicate that the crop will be a total failure the coming year, the destruction being complete unless there is a cold wave within a few days to destroy the eggs.

Seventy-seven men heroically gave their lives in their efforts to subdue the disastrous forest fires which raged in the west during the latter part of August. A fund is being raised by the members of the forest service for the purpose of providing the graves, upon forest administration sites, with permanent memorials.

The announcement received Thursday morning that the recent census gives Columbus, Ind., but 8,313 inhabitants met with much disfavor and charges are made that the enumeration was not thoroughly taken. So dissatisfied are many of the residents that arrangements are already going forward for a recount. It is believed that the city has 10,000 population.

Application for Divorce Filed By Mrs. Lillie Josephine Davis.

Mrs. Lillie Josephine Davis brought suit for divorce from her husband, Edward Daniel Davis. She states in the complaint that they were married March 3, 1908, and that from June of that year until February of the next they were not living together as he did not provide for her. They then went to live together again and continued to live together until June 27th of this year, when she charges that he deserted her. She also alleges cruelty. A son was born to them Dec. 17, 1909. He is named David D. Davis. She asks the restoration of her maiden name, Lillie Alter, and also the custody of the child.

Babeck Not Informed About Tariff on Structural Steel.

Fowler Leader.
Among the things the Jasper County Democrat prints about Congressman Babeck is the following:
"Voted for increase of duty on structural steel, adding to the extortion of the 'Steel Trust.'"
That must be another typographical error for which Mr. Peterson is not responsible. The duty on structural steel was cut in two in the middle by the Aldrich law. Mr. Crumpacker voted for lower duties.

Rummage Sale.

The Presbyterian ladies will hold their annual rummage sale on Friday and Saturday, Oct. 28 and 29, in the room first door north of B. K. Zimmerman's tailor shop, formerly occupied by Scott Bros. Many useful articles of household use and wearing apparel will be on sale at almost your own price. The ladies also solicit articles for this sale and those having anything they wish to donate will please let the Presbyterian ladies know.

Notice to Automobile Drivers.

The practice of reckless automobile driving must be stopped. It is dangerous, especially to school children. As the sworn officer of the law I shall make arrests of all persons seen violating the speed limit within the city. This notice should prove sufficient to violators and it is hoped they will abide by the warning.

GEORGE MUSTARD, Marshal.

Box Social and Ice Cream Supper.

A box social and ice cream supper will be given at Union Center school house, ten miles north and west from Rensselaer, on the evening of Friday, October 28th. All are cordially invited.

GRACE PEYTON.

A specific for pain—Dr. Thomas' Eclectic Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

Scheme of Democrats to Secure a Convert Failed.

Marion township democrats held a convention last Saturday to nominate a township ticket and placed Lyman Zea up for constable. The scheme was to try to make a democrat out of Lyman the same as was done with John Carmichael by nominating him for city council. Lyman would not fall for such practices, however, and when he learned of the act he at once served notice on the democrats that he would not stand for it and he also informed the county clerk that his name must not appear on the democratic ticket. Mr. Zea was a constable for several years, elected as a republican and could have had the nomination again if he had wanted it. The democrats are doing some funny stunts to secure converts but men like Lyman Zea can not be fooled by such tactics.

The Brook Reporter copies from the Chicago Journal an argument against the re-election of Congressman Crumpacker, and calls the Journal a non-partisan paper. Readers here know that the Chicago Journal is the most ardent democratic paper in Chicago. And at the same time the most irresponsible, for its articles are all written with that strange bias that does not present any argument but falsifies everything to prejudice its readers to oppose republican candidates. With the Brook Reporter copying articles against Congressman Crumpacker from the Chicago Journal and the Jasper County Democrat copying articles from the Brook Reporter and calling it a republican paper, the straits the Peterson supporters are in is apparent. Stonehill did not reply to the questions asked by the Republican, charging that his opposition to Mr. Crumpacker was based upon his failure to procure the postoffice. Stonehill rattles like a bean in a boot.

Robert Parker Miles is one of the first lecturers of the country. His word pictures are gems. His lecture abounds in wit, humor and pathos, brilliant flashes of eloquence and inspiring illustrations.—Denver (Colo.) Republican. At M. E. church, Tuesday evening, Oct. 25th.

"I have been somewhat costive, but Doan's Regulets gave just the results desired. They act mildly and regulate the bowels perfectly."—George B. Krause, 306 Walnut Ave., Altoona, Pa.

Robert Parker Miles delivered his lecture, "Tallow Dips," and fairly captured his large audience. He was easily the best number of the lecture course.—Paris (Ill.) Daily Gazette. At M. E. church, Tuesday evening, Oct. 25th.

Honey Wanted.

I can use a limited amount of honey to supply my trade and will pay cash for comb honey.
