Traveling by Wheelbarrow.
"I must hasten on to Ping-Ying. This trip of 45 miles was to be undertaken, to our huge delight, in wheelbarrows, but in two days, with a Chinese inn for the night, Bishop Scott and I were on one barrow, Lancaster followed on the second, the luggage in a third. We did it luxuriously, with three men to each barrow—one in front, one behind on the handles, and a third with a rope in front of all.

"Are there springs to the barrow? Certainly not; it would be no fun if there were. Bumps? Of course. On the first day we calculated we had 25,000 of them; the best were caused by drops of six inches or more from one stone to another. I got quite used to them, and found I could sleep stretched luxuriously on my mattress."—Bishop Montgomery in Mission Field.

How He Averted a Duel.
The following is told of former Senator Joe Blackburn of Kentucky: In the days of his youth the Kentuckian was asked by a friend to second him in a duel. He consented, and at sunrise the parties met at the appointed place. Now, it was this Kentuckian's duty to say the last words tramping the terms of the duel. But, although he faithfully performed this duty, the duel never took place. A murmur of "Why not?" invariably goes around whenever this story is told, whereupon the answer is as follows:
"For the very simple reason. When Joe finished speaking it was too dark for a duel."—Harper's Magazine.

Saving Trouble.
The husband of a fashionable woman, whose gowns are at once the admiration and despair of her feminine acquaintances, was discussing the cost of living with a friend at the Union League the other night.
"By the way," ventured the friend, "—er—don't you have a good deal of trouble keeping your wife dressed in the height of style?"
The woman's husband smiled and then shook his head, emphatically.
"Oh, no," he said, "nothing to speak of. Nothing—nothing to the trouble I'd have if I didn't."

COFFEE HEART
Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows:
"I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial.

"My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble.

"Postum proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, has disappeared and I never have a return of it except when I dine or lunch away from home and drink the old kind of coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stimulation." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial proves an eye opener to many.

WASHBOARD OF REAL VALUE

Will Lighten the Labors of the Worker Whose Aim is That of Clean Linen.

Another invention to lighten the labors of the washwoman has been made. This is a washboard designed by an Ohio man and its advantage over the old style washboard lies in the fact that the front, or rubbing surface, is curved outwardly, thereby resulting in a great saving of "elbow grease" on the part of the user.

The board is made of a single sheet of metal, with its edges slitted and a shelf over the top.

The body portion, or rubbing portion, is convex, and roughened so that even a light pressure on clothing passed over it will give all the results of hard rubbing over the ordinary flat washboard with its corrugations. The outward curve of the new board fills out wet garments much better than a flat surface would do, and a wider surface of the garments is affected than on the old style board.

HUNGARIAN SOUR CREAM SOUP

How to Make It of Dried Lima Beans —Sweet Potato Pone Is a Delicacy of the South.

A way of utilizing the dried lima beans which are one of our resources in winter is in the form of a sour cream soup, after the Hungarian fashion. Soak a pint of the beans over night, cook until soft, and mash through a sieve not too fine. Add enough water to make a quart of liquor when you have strained it. Season with salt, pepper, or paprika, if liked, and stir in a cup of sour cream. It is very good and makes a nice way of using up the cream which is so regrettable a leftover in the eye of the economical housewife.

A southern delicacy is sweet potato pone, which should be better known in the north than it is. It is a substitute for Yorkshire pudding, and something more on its own account. Two large yams are to be pared and grated, mixed with half a pint of molasses, the latter having a pinch of soda dissolved in it, a pinch of salt, two tablespoonfuls of melted butter, a tablespoonful of flour and just a little ground spice. This is thoroughly mixed and is poured into a hot greased pan and baked very slowly until well done and quite brown. It can be eaten hot or cold.

Some time in preparing spinach try it in this way: Prepare as usual, but heap up each portion on a square of nicely made toast. On each little mound of the green slip a buttered egg. The eggs are prepared thus: Heat your omelet pan and melt therein a tablespoonful of butter. Slip in an egg and cook until the white is firm. Turn just once. Add butter, if necessary, to keep the egg from sticking.

Before serving the combination pour some good beef gravy around the toast.

Expert Cake Making.

To make cake delicious to taste—light, fine-grained, and delicate of crust—good sweet butter, strictly fresh eggs, the finest of granulated or powdered sugar, and the best of pastry flour are absolutely necessary. The operator, too, should be quick, accurate, and dainty in her work. As a rule the slow-motioned, careless and untidy worker does not succeed in making anything more than a very ordinary cake.—Harper's Bazar.

Beef Stew.

Put in a kettle strips of pickled pork and ribs of beef, two onions, a bay leaf, carrot, clove of garlic, one brandy glass each of whiskey and white wine, a pint of water. Season with salt, pepper and paprika. Put cover on, cook slowly until done.

To Restore Scorched Linen.

Boil well half a pint of vinegar, half an ounce of soap, two ounces of Fuller's earth and the juice of a few onions. Spread this over the linen wherever it is scorched and leave it to dry; when dry wash the garment, and the scorch will have disappeared.

Muffins.

One cup milk, two cups flour, two eggs, one-half cup butter melted, two teaspoons baking powder, a pinch of salt; add butter last. Makes one dozen muffins.

Moths.

Powdered borax is excellent for keeping moths out of clothing and does not have the disagreeable odor of moth balls.

Cardinal Gibbons, the highest authority of the Roman Catholic church in America, has expressed his approval of Tuberculosis day, which is to be observed by the churches of the United States on or about April 30, and of the general organized anti-tuberculosis campaign, according to a report of an interview made public by the National Association for the Study and Prevention of Tuberculosis.

The interview was granted by his eminence to H. Wirt Steele, executive secretary of the Maryland Association for the Prevention and Relief of Tuberculosis, and Dr. Charles O'Donovan, one of the leading physicians of Baltimore. The cardinal expressed his entire sympathy with the plan of the Tuberculosis day movement and endorsed the program both of the Maryland association and of the national association.

SCALES ALL OVER HER BODY

"About three years ago I was affected by white scales on my knees and elbows. I consulted a doctor who treated me for ringworm. I saw no change and consulted a specialist and he claimed I had psoriasis. I continued treatments under him for about six months until I saw scales breaking out all over my body save my face. My scalp was affected, and my hair began to fall. I then changed doctors to no avail. I went to two hospitals and each wanted to make a study of the case and seemed unable to cure it or assure me of a cure. I tried several patent medicines and was finally advised by a friend who has used Cuticura on her children since their birth, to purchase the Cuticura Remedies. I purchased a cake of Soap, the Ointment and the Resolvent. After the first application the itching was allayed.

"I am still using the Soap and Ointment and now feel that none other is good enough for my skin. The psoriasis has disappeared and I everywhere feel better. My hands were so disfigured before using the Cuticura Remedies that I had to wear gloves all the time. Now my body and hands are looking fine." (Signed) Miss Sara Burnett, 2135 Fitzwater St., Philadelphia, Pa., Sept. 30, 1910.
