## Backache Means Dying Kidneys

A Remarkable Treatment That Saves the Kidneys. How You May Cure Yourself Quickly and Thoroughly.

With the progress of science comes one remarkable treatment for kidney diseases. It has been so thoroughly tested and its results have proven so revolutionary that a well-known firm in Michigan has undertaken its distribution into every part of the country. Those who suffer from kidney trouble and the diseases resulting from it will be pleased to know that every package of this treatment is thoroughly guaranteed. This should assure at least a positive cure to every sufferer.

Every man and woman should know that backache is usually a well-defined symptom of advancing kidney disease which may end fatally unless treated in time; that rheumatism and bladder trouble are caused from nothing more nor less than kidneys that do not filter the poison from the blood; that dropsy, Bright's disease, diabetes and bladder-stones are caused by bad kidneys.

Once they are made to work properly, these diseases should quickly disappear.

This is done by the new treatment, Dr. Derby's Kidney Pills.

We urge everyone who has pain in the small of the back, profuse or scanty urination, pains in the bladder, cloudy or foul urine, not to fail to get a package today of Dr. Derby's Kidney Pills, and direct the address to the Department, Senator Stevenson of Washington, written from Olympia: "There is no question about the efficacy of Dr. Derby's Pure Kidney Pills in curing kidney and bladder trouble. I know without a shadow of a doubt that

Dr. Derby's Kidney Pills are now sold at all drug stores, 25 and 50 cents, or direct from Derby Medicine Co., Eaton Rapids, Mich. If you would like to try them first, ask your druggist for a free sample package. Then buy a package; you will not regret it.

Accompanied by her brother, William Kennedy, she went to the hospital to-day.

George Putts went to Logansport this morning, having been called back by railroad officials, presumably to resume firing on the Pennsylvania. He had an accident a few days ago that came almost finishing him. He had a shotgun shell, loaded with powder only. It was swollen a little and the breech of the gun would not go shut, but George pulled the trigger anyway. The shell splintered and came out of the breech end of the gun. Three pieces lodged in his left breast, one in his chin and another tore a small gash in his right cheek just below the eye. He was lucky it was no worse.
