W. L. Wood, of Parr, returned yesterday from Cadiz, in southeastern Ohio, where he was called about a week ago to attend the funeral of his aunt, Mrs. Mary Mahan, aged 75 years. T. W. Grant, who solicited money last week to care for the body of Harley Brown, the Ladoga young man who lost his life while bumping from Chicago to his home, used only such sum as was necessary to combine with the money Brown's old and decrepit uncle brought here, to have the body shipped back to Ladoga. Mr. Grant refunded the money pro rata on the following basis. To all who had given \$1 he refunded 50 cents, to those who had given 50 cents he refunded 25 cents and retained all from the 25 cent contributors. He then had left \$1.80, which he turned over to the board of associated charities. We feel sure that Mr. Grant's disposition of this matter will meet the approval of all those who had contributed to the fund.

Bogus Salvation Army People Here Last Saturday.

A couple clad in Salvation Army regalia arrived in Rensselaer Saturday and conducted a "service" on the street corners, securing a shower of dimes. He prayed long and loud and the woman took up a collection. A little later he was sitting on a bench a little further up the street while she was continuing a canvass for money and he let a pint bottle of whiskey slip out of his pocket and it broke on the walk in the center of quite a crowd. They at once set up a derisive laugh and he said: "It wasn't mine, it wasn't mine, but, of course, it would do no good to explain."

Those who were present convinced him by a number of remarks and quite a little hooting that explanations would doubtless do no good and the man and his companion hastened to the depot and made their departure. It requires a low order of depravity, of course, to assume religion in order to make begging possible, but there are many who are willing to do it, and it is said that the regalia of various religious organizations like the Salvation Army can be purchased at the second hand stores by beggars. This incident convinces The Republican that it is right in encouraging charitably inclined people that their offerings will do a great deal more good if given to the home or foreign missionary societies of the local churches. Let us figure a bit in further support of this conviction. Suppose two duly authorized solicitors were to come to Rensselaer. They would be at the expense of car fare in reaching here, of daily expenses amounting to about \$2 each and it is very doubtful if they would collect enough so that fifty per cent would be reported to headquarters, where fifty per cent of the remainder would probably be required to pay overhead charges. When contributed to the local organizations every cent goes for the purposes designed.

It is not proper to encourage begging and Rensselaer should establish the name of refusing aid to all manner of money solicitors unless they have the endorsement of the local board of associated charities.

Whiskey and Women Cause Of Lafayette Man's Suicide.

Mason J. Crosby, of Lafayette, using strychnine to end his earthly career at 1:30 o'clock this Tuesday morning. He left a wife and two children and the sorry record of having thought more of whiskey and a woman by the name of Maud Noble, who worked at the Gilman Dairy Lunch than he did of his family. Monday Mrs. Crosby and the two children called at the place where the Noble woman was employed and Mrs. Crosby begged of her not to receive the attentions of her husband. She promised not to and when he came to the restaurant she told him that she was through with him. He bought the strychnine and went to her apartment, where he waited until she made her appearance and then drank the poison and was soon dead.
