ROWLES & PARKER.

A. S. LaRue, who has been managing the store at Greenfield which himself and brother traded for recently, was home over Sunday and Monday. He has been in Indianapolis several times recently and says that business there is at a standstill and that he hears reports from all over the state to the effect that business is generally very dull. Traveling men report sales backward. The very warm early fall has had the effect of deferring purchases that come with the first cool weather. The agricultural sections have not suffered so much, owing to the good crops of last year, and the very good prices that have prevailed, but the manufacturing centers are hard hit and unless the European war has the effect of restoring fires in the furnaces the ensuing winter will be a very severe one.

Monogram Flour is guaranteed equal to any and better than most flours, regardless of price. We have plenty of old wheat flour in stock, \$1.50 per sack.

ROWLES & PARKER.

Two young men, who might be called tramps, were in Rensselaer Monday, looking for work. They were brothers and came here after working for a short time in the harvest fields of North Dakota. They report conditions very bad there and say that they tried to find work in all the cities from there here but found thousands of men out of employment. The older one said: "Mister, I'm an Irishman and was raised to believe that the democratic party was the poor man's party. It is, that is if he wants lots of company in his poverty. I voted for Wilson, but God forgive me, if I ever get to vote again I'll vote the republican ticket. I never imagined such distress as I have seen with my own eyes during the past three weeks. I don't know your politics, Mister, but if you're a democrat, change them and vote the republican ticket." The young men canvassed Rensselaer in an effort to secure work, but found nothing to do.

Hammond high school lost to the Bowen Independents last Saturday 25 to 0. The Bowen team outweighed the high school lads 20 pounds to the man. East Chicago the same day defeated Crown Point 64 to 0.

Mrs. S. E. Sparling who has been visiting her parents, Mr. and Mrs. S. S. Shedd, for several weeks, expects to leave for her home near Demopolis, Ala., Thursday of this week. Mrs. Sparling spent last week visiting her brother, Arthur Shedd and other relatives in Chicago.

Fowler is making plans to have an organized baseball team next year. It is proposed to form an organization of businessmen, build an athletic field and hire a cracker-jack team. Possibly a league will be formed with teams at the following towns: Fowler, Boswell, Oxford, Hoopston, Attica, Williamsport and Sheldon. Rensselaer ought to get in on this league.

The Republican was informed last week by George Kaufman that he had just started to work with his team after an idleness of three weeks. He was offered two or three hauling jobs at \$3 per day but refused to work his team for that price, although he reported that a number of others were doing so. Every reader of this paper knows that men can not support their families on \$3 per day and feed a team at the high prices of feed. Teamsters should have \$4.50 or \$5.00 per day. Horses are to be shod, wagons repaired and many incidents besides the feed and the labor in the care of the animals in addition to the day's labor with the team. Labor receives from \$2 to \$2.50 per day, either is small enough, but when a team is thrown in at anything less than \$4.50 and we believe it should be \$5, the man is going to have a hard time getting through. Rents, to pay, food to provide, clothing for the family and something for pleasure. It is not fair to expect a man with a team to work for such wages and it is hoped the time will come when employers meet this proposition fairly.

Who Picked Shot Out Of Chicken Thief's Back?

A rumor comes from Remington that a chicken thief visited the hen roost of Henry Beeks, a farmer living a mile and a half south of that town last Thursday night and that Mr. Beeks took a shot at him with his shotgun. The man is said to have been known to Mr. Beeks. Rumor had it that the man was brought to Rensselaer to have the shot picked out of his anatomy. The Republican was unable to find any doctor who acknowledged that he did the picking.

Two young men who seem to understand their business are here doing some good work in tree surgery. Rotten parts of trees are dug out, the cavity filled with cement, exposed parts covered with zinc and the cement and zinc covered with pitch. They operated on several trees at the Comer House this week and the work is as neat as can be. They will probably remain here for some time, as they are having lots of calls.

A little band of the genuine brown-skinned, greasy gypsies

went through town Monday afternoon. Marshal Shesler properly saw to it that they did not stop long, although two of the women passed through the streets and offered to tell the fortunes of a few. The law provides that these people can not even camp along the roadside and these nomads are apt to and should receive a cold reception, for they are filthy, immoral and often are thieves.
