President Wilson's Engagement To Washington Widow Announced.

President Wilson has not been so busy with the affairs of state during the past few months that he could not do a little courting and he has in that important matter not followed his policy of "wachtful waiting" either, for his engagement has been announced to Mrs. Norman Galt, a Washington widow. Since becoming president less than three years ago Mr. Wilson had lost his wife by death and two daughters by marriage and his life had become one of solitude. A year ago Mrs. Galt was chosen a companion for Miss Margaret Wilson, the president's remaining daughter, and now she is to become the first lady of the land.

WILL CASE CAME TO SUDDEN CLOSE

Kennedy Will Provisions to Be Dis-carded and Settlement Agreed On By All Heirs.

The will of John Kennedy, wealthy land owner who died in Newton county April 19, 1913, was virtually set aside in settlement agreed upon in Rensselaer Tuesday, when the case had been called for trial in the Jasper circuit court.

The will was written in November, 1905, and left to each of the nine children and one grandchild by a deceased son \$50. All of the balance of the estate, both real and personal, had been left to the widow. The children, or part of them, who contended that they had helped to earn the money, believed they should come in at this time for a share in the big estate and they also contended that since the estate was heavily encumbered Mrs. Kennedy was unable to manage it to make it pay out and that it should be divided among them. The action to break the will was brought by Kinder Kennedy, who employed Attorney John A. Dunlap, of Rensselaer, and Attorney Milt Graves of Morocco. They tried to influence Mrs. Kennedy before the action was brought to settle by compromise but she declined to do so and employed H. L. Sammons, who later secured as co-counsel, William Darroch, of Kentland, and E. B. Sellers, of Monticello. All were present Tuesday, prepared for a royal legal contest, but the case was barely started until the compromise plan was set on foot and was carried out, Mrs. Kennedy giving a contract to divide the estate along the lines set out below and all of the heirs agreeing to accept the terms.

There was 1,740 acres in the estate. Of this 680 acres was in one tract 4 miles west and 2 miles north of Morocco. The other land was about half way between Brook and Morocco and is about the best land in Newton county, being valued at \$150 per acre. The estate was mortgaged for about \$60,000. By the terms of settlement Mrs. Kennedy will get 400 acres of the best land with one set of improvements and also the residence property in Morocco, all free of encumbrance. To accomplish this she is empowered to sell the 680-acre ranch and to apply the money to the indebtedness. The other heirs are to receive land and money as follows:

Kinder Kennedy, \$12,000, out of which is to be taken some money which he owes the estate.

Samuel M. Kennedy, Mrs. Bertha Whaley, Mrs. Grace Hunter, Mrs. Ruby Hunter, and Misses Nellie and Freida Kennedy, the latter a minor, each 80 acre of land. Conda Earl Kennedy will get 60 acres of land and \$3,000 except that \$2,000 he owes the estate is to be deducted from the inheritance. Emmet Ellis Kennedy, a grandson 11 years of age, is to receive 40 acres free of encumbrance to be held by a trustee until he is 21 years of age and then deeded to him.

There will be some encumbrance on each eighty acre tract but each of the heirs will be in a position to pay off the mortgage and since Mrs. Kennedy will have 400 acres free of debt it seems that she will be much better off than she was with the large tract so heavily encumbered.

The family have been on strained relations since the provisions of the unreasonable will became known but it is understood that after the settlement was agreed upon all were reunited and happy. It is a fortunate thing for all that a long and expensive legal contest did not ensue.

Smallpox Scare Dwindles With Little Cause for Alarm.

The scare concerning smallpox has about passed away and it is believed now that there will be no further spread. One of the Mariatt children which had been vaccinated and was later sick with a slight fever is now better and the vaccinated arm is "taking." This indicates that there will be no smallpox.

The two daughters of the editor are very much improved and there has been no eruption at all so far and may not be. Another of the little sons of Cal Cain is sick but has only a little fever.

It is believed by the physicians that the crisis for a general spread is about passed.

Mr. and Mrs. S. S. Shedd are planning to leave in a few days for Demopolis, Ala., to spend a month or so with their daughter and husband, Mr. and Mrs. S. E. Sparling.

Miss McLaren to Again Give Reading in Rensselaer.

The Bethany Girls Sunday school class of the Presbyterian church will again have Miss Gay McLaren here for a reading and have selected next Thursday evening, Oct. 14th, as the time for holding it. Last year Miss McLaren read "Daddy Longlegs" so charmingly as to captivate the large audience and to create a demand for another visit. This year Miss McLaren is to read "Peg-o-My-Heart." The announcement will be greeted with pleasure by all who heard her last year and doubtless the audience that attends on this occasion will be very large. Miss McLaren has been traveling under the auspices of a bureau since she was here last year and it is understood that she now receives \$75 a night for her entertainments.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys At Once When Back Hurts or Bladder Bothers.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and can not injure, makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

How Catarrh Is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere. C

Today, Oct. 7th, is James Whitcomb Riley's birthday and in tribute to him The Indianapolis Star devoted its entire front page to him. Poems by Wilbur D. Nesbit, Rudyard Kipling, William Dudley Foulke, Henry Vandyke, Clara Griffith Gazzum, William Venable and Bliss Carman were published and other tributes in prose were also printed. Certainly no name holds such an affectionate place in the hearts of Hoosiers than that of James Whitcomb Riley.
