Election On Proposed Road in
Union Being Held Today.

The election on the proposed 24
miles of gravel road in Union town-
ship is being held today. No information
concerning the way the vote is
going has been learned. It is said
that the building of the road is being
fought hard by some of the taxpay-
ers, but it is thought the proposal
will carry. One thing is certain and
that is if tourist automobile traffic
is to continue to come through Jas-
per county, the roads in northern Jas-
per must be improved, or the tourists
will take another route and the Jack-
son Highway through the county will
become a thing of the past.

"The Malpractice
Of Statesmanship"

The enormous amount of construc-
tive work to be done in the next few
years, partly because of the war,
partly because of the post-bellum
trade policies of Europe, partly be-
cause of the "malpractice of states-
manship" during the present admin-
istration, has never been cited more
clearly than in Thursday evening's
address by former Senator Beveridge
of Indiana. As an active worker for
social betterment, author of the child
labor program, and many other re-
forms in our economy, Mr. Beveridge
can criticize with good reason the
compromise measures which consti-
tute the Democratic record. His audi-
ence was genuinely delighted with
this congress—but in half-hearted
measures.

"They stole our label," remarked
Mr. Beveridge, "but our goods are not
in the can."

The Wilson apologists have been
demanding constructive criticism. Mr.
Beveridge supplied it in full measure.
He exposed the farcical character of
the so-called constructive measures of
the Wilson administration. He showed
the material of which current pros-
perity is made, "a sectional prosper-
ity wherever the war has directly
reached the source of business, an in-
dustrial inflation, a spotted prosperity
—spotted and stained." He showed
that the vast output of munition be-
comes at the close of war a surplus
product, a bloodclot on industry, a
disaster. He demonstrated a return to
Republican tariff principles is es-
sential to a real, permanent prosper-
ity.

The party which Mr. Beveridge
put out as "ruled by localism,
heading the voice of the demagogue
and the advice of the charlatan," has
been asking for constructive criti-
cism. It got it.

When You Take Cold.
