

The Evening Republican.

No. 40.

RENSSELAER, INDIANA, SATURDAY, FEBRUARY 14, 1920.

VOL. XXIII.

THE HOOSIER KITCHEN CABINET The Hoosier Is First Choice the Country Over

In choosing the Hoosier as permanent equipment in our Domestic Science Department, our School Board is simply following the decision of hundreds of other schools, colleges and universities all over the country.

The Hoosier is now used in all the leading universities. It has become the standard equipment for Domestic Science Departments because it is planned throughout from top to bottom by Domestic Science experts.

For years these experts in the science of cooking and house-keeping have been working on the perfection of design and arrangement of the Hoosier.

They have gotten it to a point where it will save the maximum number of steps for the woman who uses it—and this perfection has enabled us to give this broad guarantee to every owner—“Your money back if you are not delighted.”

These six vitally important features cannot be duplicated—many of them are patented:

- 1—All-metal flour bin with glass front.
- 2—Gear-driven shaker flour sifter.
- 3—Revolving spice rack.
- 4—Ingenious, big capacity sugar bin.
- 5—Big, broad cupboard space with plenty of room to work—not hampered with partitions.
- 6—Doors with handy trays that hold small utensils or the new roll doors without extra cost.

Come to our store tomorrow and sit in front of the Hoosier. You may use each one of these features and see how they will save miles of steps for you in your own home. We'll be glad to tell you of our easy terms that will enable you to buy the Hoosier now if you wish. But remember! Call at once—you'll not be obligated if you do not wish to buy now.

W. J. WRIGHT
RENSSELAER, INDIANA

E. G. Sternberg and J. J. Lawler of Chicago are in town today.

Edd J. Randle went to Hoopes-ton and Watska, Ill., today.

Mrs. W. F. Lyman and daughter went to Greenville today where she was called by the sickness of her father.

Mrs. R. H. Harrold returned to her home at Huntington after a visit with her brother J. P. Ham-mond and sister, Mrs. M. I. Adams.

After all the ground hog may be better posted than we thought he was. The weather man seems to be governed by the prophesy of this quadruped.

The Fair Oaks high school lost to the Lowel high school basket ball team Friday night, the score being 14 to 18. These teams were composed of girls and those from Fair Oaks were: Ruby Gynyon, Ann Hal-leck, Gladys Hammerton, Anna Er-win, Mildred Rude, and Dorcus Karr. The team was accompanied by Principal A. C. Campbell.

The Van Rensselaer club ban-quet will be held Monday evening at the Methodist church and prom-ises to be a pleasant affair. Many of the members have signified their intention of being present, but there are quite a number who have as yet failed to notify the commit-tee in charge of the affair as to their intentions, and the latter re-quest that they do so at once, that proper preparations can be made. A colored orchestra of Indianapolis, will furnish the music and a pleas-ing toast program has been arrang-ed for.

MATINEE—2:15 NIGHT—7:00

—TONIGHT—

DAINTY--ADORABLE
MAY ALLISON

—in—

FAIR AND WARMER

She had never mixed a cocktail. Never. Nor tasted one. And then one night Jack went to lodge—at least he said he did—and Blany found somebody else's cellar-ette. Such a thing as a perfect husband? Of course. And they're terrible. You can't find fault with them. Laura Bartlett knew that Billy was just the maddening kind. It was the outlandish goodness in Billy that started all the complica-tions in "Fair and Warmer," the funniest of Avery Hopwood's farces, in which May Allison is starring.

The play that made the Weather famous.

A sunny comedy with showers of laughter.

The farce with the Elevator. Cocktail and the sky the limit of joy. A comedy with a cocktail, complication and a kick.

RENSSELAER BAGS OVERTIME THRILLER FROM MEDARYVILLE

In a game that had a setting that would cast shame upon any tense situation ever conjured by the fertile brain of a writer of Dick Mer-rivell tales, the Rensselaer basket-ball five beat the sturdy Medary-ville quintette into submission at the high school gym Friday night only after five minutes of extra play. Time and time again the spectators were brought to their feet by a brilliant shot by some keen eyed marksmen, and the arena was a bedlam of noise from start to finish. Never was swifter, more accurate passing displayed by a local high school five than was that manufactured by the locals last night. They went at their work with a grim determination, and it was the deadly precision in their team play that ultimately dis-counted the extreme advantage which the visitors had in brawn.

The first period closed with Rens-selaer leading by the slender mar-gin of 11 to 9. A short time be-fore the close of the stanza the visitors were leading by a one-point margin after having trailed during the early part of the half.

In the second chapter the count mounted to 17 to 13 in favor of the locals. Medaryville by a wonderful spurt caught the flying Red and Black, knotting the count on a sen-sational shot. Rensselaer soon af-ter manufactured a four point lead, Medaryville again rose to the emer-gency and knotted the count, slip-ping into a two-point lead a short time later by a well-executed play. Rensselaer rallied and tied the count at 23 all. It was Larsh's bas-ket that a few seconds later sent Rensselaer into the lead; again Medaryville overcame the lead—and a moment later the whistle, an-nouncing the end of the game, sounded with the teams deadlocked.

The teams agreed on five min-utes of extra play.

It was during these five minutes that the local quintette showed their worth under fire. They were cool and collected, deliberate and con-fident, and it was their bold front that upset the visitors.

It was Tilton, injected into the fray well along in the final period that led his mates from the wilder-ness with an overhand shot that spelled victory. A short time later he repeated his feat and the fol-lowers of the home five breathed easier. Medaryville collected a point on a free cast and Crooks ended the scoring for the evening with a field goal, leaving the final score 31 to 26.

Every man on the home five was a satellite. Grow at back guard offered an impenetrable defense. Captain Collins was the pivot about which his aides worked and he rung up many points during the forty-five minute session. Larsh, Crooks and Tilton made many sensational shots. Brown worked the floor well and stopped the leather on several occasions as it was headed for the inside of the hoop.

The Medaryville team is com-posed of big-sturdy youths with great physical endurance, but not approaching the Rensselaer five when it comes to clever basket ball.

HOLDEN GREEN HOUSE TO ENLARGE

The demand for Holden flowers has become so heavy that Mr. Hol-den has decided to erect another green house which will more than double the present capacity.

Mr. Holden will have the assist-ance of Floyd Robinson, who has taken an interest in the floral busi-ness with him.

Since giving his entire attention to his floral business Mr. Holden has met with splendid success. He has a large business in the city and has many calls for flowers from neighboring towns.

BE FAIR WITH THE PRINTER.

The Republican gives a great amount of space and printer's ink in boosting for Rensselaer. We are glad to do this but we think some of our friends forget that we must pay for our paper, our help and our ink, for very often when they have money to spend they fail to find either our office or our tele-phone number.

TEMPERATURE.

The following is the temperature for the twenty-four hours ending at 7 a. m. on the date indicated:

	Max.	Min.
February 13	36	22
February 14	42	13

8 PER-CENT
Non-taxable

THE "MATTER WITH AMERICA"

(Fargo, S. D. Forum).

"What's the matter with Amer-ica these days?"

Too many diamonds, not enough alarm clocks.

Too many silk shirts, not enough blue flannel ones.

Too many pointed-toed shoes, and not enough squared-toed ones.

Too many serge suits and not enough overalls.

Too much décollete and not enough aprons.

Too many satin upholstered lim-ousines and not enough cows.

Too many consumers and not enough producers.

Too much oil stock and not enough saving accounts.

Too much envy of the results of hard work and too little desire to emulate it.

Too many desiring short cuts to wealth and too few willing to pay the price.

Too much of the spirit of "get while the getting is good" and not enough of the old-fashioned Chris-tianity.

Too much discontent that vents itself in mere complaining and too little real effort to remedy condi-tions.

Too much class consciousness and too little common democracy and love of humanity.

COUNTY EDUCATIONAL NOTES.

The Jasper County Board of Edu-cation voted unanimously to fix the minimum wage for class "A" teach-ers at \$3.50 per day. The State Department asks that the minimum wage be \$3.92 per day. Benton county voted to pay its beginners the \$3.92. It must be understood that the law fixes the minimum at \$2.83. Counties are beginning to bid against each other for the in-experienced. Experienced teachers are seeking other fields and can hardly be gotten at the price trust-ees are able to pay. Undoubtedly it would take no dreamer to judge rather accurately who is paying the price in this underpaid profession. School trustees are bidding against themselves for mere children to teach the on-coming generation its finest lessons in citizenship. With all due respect for the ability of the beginning teacher yet it seems fair to ask a plain question: Are they qualified to do the biggest job before the American people today? About twenty-five seniors from the various high schools in Jasper county took the teachers' examination January 31. It is true that none were able to pass the examination but our grading standards must be lowered if we are to turn this big-gest of all jobs to them. Possibly it would not take a dreamer to judge rather accurately who is pay-ing the price when the requirements are lowered. This problem has been agitating the federal author-ities to such an extent that legisla-tion from Washington will soon be framed so that teachers can be placed on the government pay roll for a portion of their salaries so that our boys and girls can be edu-cated by a permanent teaching per-sonnel rather than by those who just experiment on our young until they make good and then go on to a better paid work. State Superin-tendent Hines is using every power under his control to awaken the slumbering public to the school sit-uation in Indiana. Last week was Teachers' Week in Indiana. Jasper county was not officially notified to put on the campaign for public en-lightenment as the county superin-tendent was unable on account of sickness to give the matter atten-tion. But at this hour the fair minded person who reads these notes can form a fair and unbiased opinion upon the facts as herein presented.

The fire company was called to the home of Firman Thompson on N. Weston street about four o'clock Friday afternoon. A spark falling on the roof burned a hole about two feet square before the arrival of the fire company. It was the sixth successive fire to originate in such a manner in the city, and it is the belief of Chief Montgomery that the frequent runs of the company is due to the poor quality of coal now being mined, there be-ing so much dust in it which stops up the chimneys. Reports indicate that such conditions exist quite generally over the state.

Jasper Wright went to Roselawn this morning.

E. K. Godshell went to Lafayette today to visit his daughter, Mrs. George Peters.

B. D. McColly and son, Harry, arrived home Friday evening after an absence of about a month spent in the south. They were at New Orleans, La., Memphis, Tenn., Little Rock, Ark., Springfield, Mo., and other important southern cities.

WASHINGTON NEWS

Robert Lansing secretary of state has resigned. This action follows a rebuke given to him by President Wilson for "usurping power" in calling cabinet meetings, but in reality the sequel to many differ-ences between the two foreign af-fair matters.

Early agreement on the league of nations covenant based on the Lodge reservations is believed to be pre-saged by the weakening today of the senate Democrats in the support of Democratic senators, including Sen-ator Hitchcock, signed a "round robin" proclaiming their accept-ance not only of the substance but the form of the compromise reser-vation to article X, which, Mr. Wil-son has pronounced "unfortunate in form."

There is to be no surrender on universal training by the leaders in both houses of congress of the fight for adequate national defense. Sen-ator Wadsworth and Representa-tive Kahn announced today that the universal training sections would be kept in the army reorgan-ization bill until forced out by a record vote in the senate and house.

THE SOCIAL WHIRL.

The Van Rensselaer Club's annual banquet is to be held next Monday evening. This is one of the big events in local entertainment.

Every member should make spe-cial effort to get somebody to keep the kids and be there.

The house committee says reser-vations for plates have been slower than usual. This may be on ac-count of so many members being detained at home near sick beds. If so, we hope their beds get bet-ter.

It may be on account some think this year's toasts will be of too dry humor. True you can't get good talk from a man filled up on tea—but the toastmaster was admitted to the bar years ago. Perhaps he's saved something.

It may be account some heard the keeper of a "hollow nut" had been asked to sing in his soft and mellow voice. (So soft and mel-low it's rotten).

Whatever the cause of your de-lay, get Mr. Tuteur on the line and tell him you'll be there double.

The best scenery aint always the best farm land any more than the best looking girl makes the best housekeeper or the classiest look-ing car makes the safest invest-ment.

However the Franklin aint so hard to look at.

THOMPSON & KIRK.

Ed Medland and L. E. Miller went to Logansport Saturday after-noon to spend the week-end with their folk.

WEATHER.

Fair and much colder tonight. Sunday fair.

"Sahara"

GOWNS TO CHALLENGE ANY WOMAN
WHO EVER LIVED.

Lady of the Peacocks

The Total Effect of the Picture is Fine. The final summing of the efforts of C. Gardner Sullivan, author; Al-lan Dwan, director, and the brilliant cast headed by Matt Moore is a re-markably good production. Louise Glaum is excellently cast in the role of the butterfly woman to whom masculine admiration is the breath of life. Matt Moore is strongest in his moments as the drug-crazed white man in the beggar quarter of Cairo. The settings in the Palace of the Dawn, Cairo, are nothing short of wonderful. "SAHARA" IS MAGNIFICENTLY PRODUCED. BIG IN ALL ITS PHASES. A POWERFUL STORY, WITH SAHARAN AND CAIRO SETTINGS, MAKES "SAHARA" A PHOTO-PLAY MARVEL OF BEAUTY.
