### THE HUMAN DYNAMO FROM ILLINOIS

The following excerpts are taken from an account appearing in the Danville, Ill., Morning Press, of a meeting held by the Elks lodge in that city. The Mr. Meyers referred to is our own "Dutch" Meyers.

"Frank P. Meyers, dubbed the 'human dynamo from Illinois' while attending the National Shoe Retailers Association, of which he is secretary and treasurer, will be in charge of the publicity, and the members of the lodge know they have made no mistake in selecting him." (The Elks are preparing for a convention which is to be held in that city soon.)

"Frank P. Meyers again added laurels to his reputation as an orator and, during his address, urged united activity toward securing an increase in the number of members of the premier business men's organization of the city. Two thousand members, he declared, should be the number of members instead of 700, the present membership."

### STARVING ORPHANS MUST BE SAVED

America true to her altruistic spirit is not willing that the orphans of Armenia, Syria, and all that country known as the Near East should starve or suffer for the necessities of life. In that country where the cruel Turk has ruthlessly murdered the people and destroyed their property, there are 800,000 orphaned children who are looking to America for the bare necessities of life.

America accepts her responsibility and it has come down to Jasper county to accept her share. She has been asked to take as a minimum share, thirty (30) orphans to feed for a year at a cost of five dollars (\$5.00) per month. Jasper county accepts her responsibility and is asking every fraternal, social, literary and kindred organization of the county to accept a share by taking up the matter in the organization.

The officers who see this statement, will at once take the responsibility to present the matter to his society and start the raising of the fund. If some one outside month. It is believed the smallest organization can feed one orphan for a year. The number of orphans taken should begin to be reported next week. Get your organization in with the first. Report the success to Mrs. J. I. Gwin immediately.

## CHANDLER SIX

Famous For Its Marvelous Motor

## If You Don't Want to Wait Next Spring, Order Now

LAST year's production of the Chandler Six was of record volume and this year's production will double it; but if you don't want to wait for your new Chandler next spring, we would suggest that you order it now.

This year's automobile shows have attracted crowds greater than ever before, partly perhaps because hundreds of thousands of Americans were unable to secure new cars last year. And these great crowds of motor enthusiasts have found no better value in the whole exhibit of six cylinder cars than that which Chandler offers.

Chandler leads so distinctly in the medium-priced fine car field because it does offer such splendid value; because of its really marvelous motor developed through seven years of production in the Chandler plant and seven years' service on the road in the hands of a host of owners; because of its sturdy, dependable mechanical construction throughout the entire chassis; and because of its attractive and comfortable body.

Compare them all, all the sizes, then pick out yours. It will be a Chandler if you ask Chandler owners.
