

How Many Women Are Like This?

Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudgery; no time to be sick; tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out," and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength.

Then they should remember that there is no remedy like **Lydia E. Pinkham's Vegetable Compound**—the experience of these two women establishes that fact:

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells that would unfit me entirely for my household work. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my household and family without any trouble or a day's pain. I am ready and thankful to swear by your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."—Mrs. H. Koenig, 617 Ellis Blvd., Cedar Rapids, Iowa.

Sandusky, Ohio.—"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk. One day my aunt came to see me and told me about your medicine—said it cured her of the same thing. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own housework, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."—Mrs. PAUL PARSONS, 1325 Stone St., Sandusky, Ohio.

Stock Raising in Western Canada

is as profitable as grain growing. Successes as wonderful as those from growing wheat, oats, barley, and flax have been made in raising horses, cattle, sheep and hogs. Bright, sunny climate, nutritious grasses, good water, enormous fodder crops—these spell success to the farmer and stock raiser. And remember, you can buy as easy terms.

Farm Land at \$15 to \$30 An Acre

—land equal to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—grazing land convenient to good grain farms at proportionately low prices. These lands have every rural convenience; good schools, churches, roads, telephones, etc., close to live towns and good markets.

If you want to get back to the farm, or to farm on a larger scale than is possible under your present conditions, investigate what Western Canada has to offer you.

HOME TOWN HELPS

GENERAL CLEANUP IN ORDER

Patriotic Advertising Is No Longer an Excuse for the Presence of Unsightly Billboards.

Now that the orgy of war advertising is ended, where does it all leave YOU—as the posters said—and your future contributions to the maintenance of the advertiser's paradise? You gladly saw patriotism written all over the beautiful buildings and places of the city—even though this writing was a kind of scribbling, so incongruous were the papers and films. Beauty was for the moment nothing—nothing unless it, too, served. But now!

Are we to be equally content to see Piffle's Pickles emblazoned where we testified our intention to save food and thus help win the war? Will not chewing gum and chicle be more than ever an impertinence when inflated to the dimensions of our fatherland, the liberty of the world and the sacrifices of our sons?

Some have feared that the riot of outdoor war advertising would debase our taste and make the public still more heedless of the incongruousness and ugliness of the advertising nuisance. We think not. In spite of everything, the war advertising truly expressed us. We looked at it and read it—and liked some of it—because it did. It expressed us best when it was most beautiful. And although much of it was small in scale, it never was too big to express the great ideas. But now, will not the apotheosis of the insignificant seem more than ever cheap and tawdry? If so, the blatant advertisement has lost some of its advertising value. If it could only lose it all, if people would not patronize what is offensively advertised, it would disappear.—Bulletin of the Municipal Art Society of New York.

PLANTS ON CITY LAMP-POSTS

Authorities of Allentown, Pa., Turn Usually Unsightly Objects Into Things of Beauty.

Turning the street lamp-posts into things of beauty is the object of the authorities of Allentown, Pa.

In that city every lamp-post wears a hanging-garden effect from spring until late autumn. The flowers and decorative leaf-bearing plants are planted in urn-shaped globes which encircle the lamp-posts some distance below the light.

The city fathers who thought of and adopted the flowering lamp-post idea made a thorough job of beauti-

fying the town by removing all of the overhead telephone and telegraph wires—at least, in the principal streets.

But Allentown can boast of use as well as beauty. It is the county seat of a farming section which ranks as one of the leading potato producers of the country.—Popular Science Monthly.

All Should Own Homes.

From the national standpoint, it is most desirable that every citizen should own his home. The proper education of the child needs the sanctity of the home and the future of our country depends upon the average citizen doing his or her duty "to train up a child in the way he should go, and when he is old he will not depart from it."

Building and loan associations should be formed in all cities where they do not already exist, as they are most useful in assisting men to acquire a home through the monthly installment plan.—Exchange.

For Large and Small Cities.

There should be a definite park policy and an appropriation sufficient to open up one new small park or recreation ground each year. Density of population grows in sections, and property values rise accordingly.

A forehanded small park policy will follow the trail of population density with an eagle's eye. The toilers and their usually large brood of children should have these city breathing spots at their doors.—Chicago Journal.

BOSCHEE'S SYRUP.

A cold is probably the most common of all disorders and when neglected is apt to be most dangerous. Statistics show that more than three times as many people died from influenza last year, as were killed in the greatest war the world has ever known. For the last fifty-three years Boschee's Syrup has been used for coughs, bronchitis, colds, throat irritation and especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning. Made in America and used in the homes of thousands of families all over the civilized world. Sold everywhere.—Adv.

NEW FRONTIERS VERY REAL

Nothing of an "Imaginary Line" About the Borders of the New European States.

Frontiers used to be "imaginary lines" or marks on a map. The miles and miles of new frontiers in Europe are not "imaginary" and not confined to maps. You can walk right up and touch them.

Out there in central and eastern Europe, frontiers are fine-tooth combs, that delay trains for hours at every crossing point. Some of the new frontiers are "flying walls" of soldiers with fixed bayonets. Others are guarded fences.

Travelers without exceptional credentials go through searching examinations, often bodily "friskings."

Soldiers armed to the teeth guard the trains and passengers during examinations and customs inspections, to see that nobody gets out or in without the official papers.

Roads at frontier points are also guarded by soldiers who preside over striped gates that go up and down like the crossing gates of American railways.

Passports and visas in the new countries are made as difficult as possible. Business men are held up weeks, as a rule. The official idea seems to be to keep everybody that's in the country in, and to bar everybody else out.

Knavery has limits, foolishness none.

Not Tied.

A small boy of Columbus was out riding with his mother one day recently, when he saw several pumpkins in a field. He wished to stop the machine and get one, but the mother explained that this would not do, that the pumpkins on the vine were the property of the man who owned the field, and that in due time he would gather them for winter use. The boy was convinced, and said no more until he happened to see a pumpkin attached to a vine, lying at the side of the road. "Well, mother," he said, "I guess we can have that one. It isn't tied."—Indianapolis News.

Slightly Embarrassed.

A good story was told to me the other day by Miss Marie Lohr concerning a maid who, quite unexpectedly, expressed a wish to "give notice." Somewhat surprised, Miss Lohr asked, "Is there any reason?" Then, seeing that the girl hesitated and looked confused, she added, "Something private, perhaps?" "No, ma'am," was the answer, "it ain't no private, it's a sergeant. He's been denobbed."—New York Times.
