HOOSIER

— the Kitchen Cabinet that saves miles of steps

THERE'S MORE SUNSHINE IN LIFE WITH A HOOSIER TO SAVE WORK.

Isn't it a fact that kitchen slavery "gets on your nerves" quite often? Haven't you envied the seeming ease with which men accomplish their daily tasks? Why, then, do you not follow the example of successful men and surround yourself with time and labor saving methods?

HIGH SCHOOL TEAM NO MATCH FOR ST. JOE

The Romney, Ind., high school basketball team met the St. Joseph five on the college court Sunday afternoon and were badly defeated by a score of 58 to 4. The collegians excelled the high school lads in every way, although the latter carried the greater avoidous.

Heinie's men shot baskets from all angles and the attempts of the opposition to cage the leather were pitiful. St. Joe had the ball practically every minute and their perfect team play baffled the visitors.

St. Joe will go to Brook Tuesday evening for a game with the Brook high school five.

FEDERAL HAND LIFTED AT 12:01

\$20,000,000,000 PROPERTIES ARE AGAIN UNDER PRIVATE OWNERSHIP.

Washington, Feb. 29.—America's rail transportation systems operated as one great public utility since December 28, 1917, again will be divided among their 230 respective corporate owners when the government releases control at midnight.

Director General Hines, as the agent of the president, will hand over the properties and equipment, valued at approximately \$20,000,000,000 to their old direction, free, except for the jurisdiction retained by the government in the new railroad reorganization bill, which document President Wilson signed Saturday.

While all arrangement for formal restoration of the carriers to their owners were completed yesterday by M. Hines' instructions went out today to operating representatives of the railroad administration informing them that they would "report to the proper officials of the corporations which resume control at 12:01 a. m., March 1."

Of the gigantic organization created by former Director General McAdoo as war time expedient, only a small part will remain. Regional officials, federal managers, and treasurers and many high officials comprising the director general's staff, will cease to function as such at the designated hour. Some of these have gone back to their former places as officials of the corporations while others have entered into new lines of endeavor.

Mr. Hines will continue in his present capacity until about May 1. Although without any railroads to direct, he still faces the settlement of literally thousands of claims, contracts and grievances.

Only 147 of the 230 compensation contracts with the corporations actually were signed during government control and the remainder will continue to be subject of negotiations. Damage claims have arisen of which many still are pending. Labor has several thousand cases before the government wage boards and Mr. Hines has assured the labor spokesmen these will be concluded. Some will require the payment of retroactive wages if decided in favor of the workers, and others will mean the establishment of interpretation of agreements which labor, of course will refuse to have altered by the corporations. Many affect general labor policies and represent vitally important questions from the labor view.

The reply given by President Wilson to labor's objections to the reorganization bill will be considered tomorrow by the railroad union chiefs. All union executives who are here will be called into conference for the purpose of agreeing on a public expression of railroad labor's attitude.

There was no indication tonight as to sentiment among the leaders who had read the president's statement in answer to their request that he withhold his approval from the bill.

EXECUTIVES ANNOUNCED

H. C. MAY TO BE GENERAL
MANAGER—CHANGE MADE
IN DIVISION CHIEFS.

Announcement was made Saturday that when the Chicago, Indianapolis & Louisville railroad (the Monon) goes back to private ownership Monday, March 1, the following officials will assume their respective duties in the management of the road: H. R. Kurrie, president, headquarters in Chicago; Fred Zimmerman, vice president, Chicago; F. S. Wynn, secretary and assistant treasurer, New York; Byron Cassell, treasurer and assistant secretary, Chicago; H. R. Mardorf, assistant treasurer, Chicago; H. T. Evans, auditor, Chicago; H. C. May, general manager, Lafayette; A. S. Kent, chief engineer, Chicago; C. C. Hine, general attorney, Chicago; E. J. Cockrell, general passenger agent, Chicago; E. P. Vernia, general freight agent, Chicago; J. H. Liebenthal, purchasing agent, Chicago.

General superintendent, William H. Fogg, Lafayette; superintendent of motive power, W. A. Callison, Lafayette; engineer of maintenance of way, Anton Anderson, Lafayette; superintendent southern division, J. R. Stemm, Lafayette; superintendent northern division, F. E. Lewis, Lafayette; trainmaster districts 4 and 6, southern division, P. Ferguson, Lafayette; trainmaster district 5, 6, 7 and 8, southern division, J. H. Cole, Bloomington; trainmaster northern division of the Monon, E. F. (Dick) Thomson, with headquarters in this city.

The changes that Lafayette is most interested in are those having to do with officials who make their headquarters here. Mr. May who is to resume the office of general manager, will have his headquarters here instead of in Chicago as heretofore. During the government operation of the road Mr. May has been federal manager with offices in Chicago. The change in division superintendents takes J. R. Stemm from the northern to the southern division, F. E. Lewis succeeding him in the northern division. It is said David J. Clark, who is now serving as superintendent of the southern division, will get some equally remunerative office—Lafayette Journal.
