The Brunswick

GRAMMOPHONES RECORDS

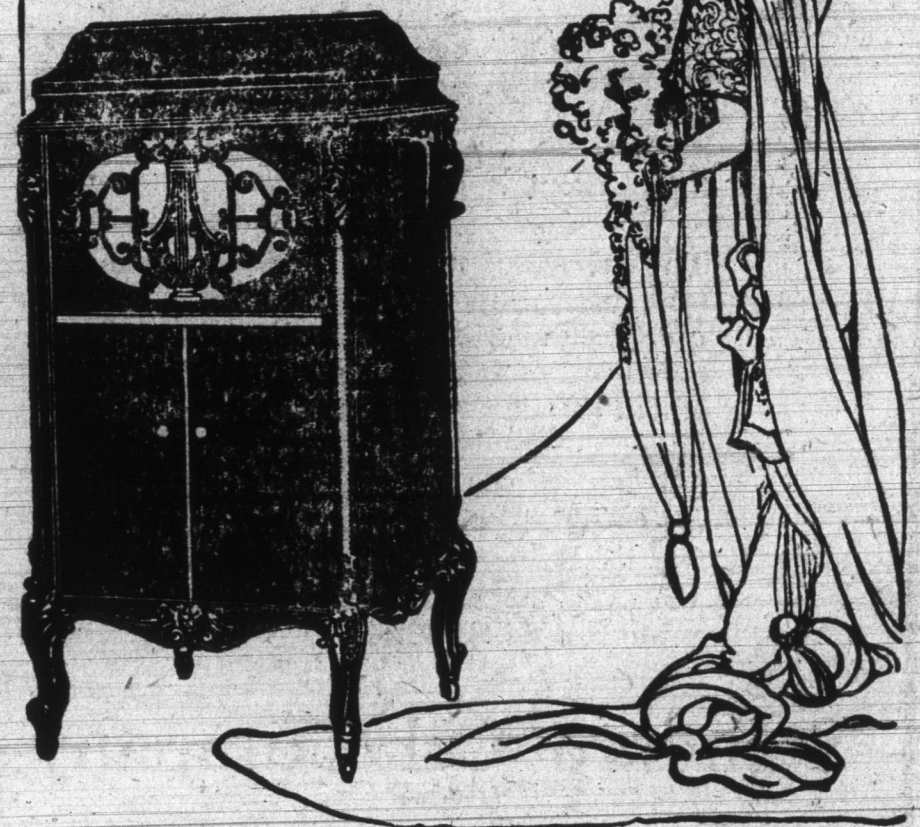

The Most Acceptable Wedding Gift

There is no worthier gift for the bride than The Brunswick. Nothing is so certain to bring cheer into her new home. Its grace and beauty of design and its matchless tone have made it a standard by which to judge all phonographs.

The Brunswick Method of Tone Reproduction caused a sensation in musical circles. It has revolutionized tone reproduction and projection. Harsh, metallic sounds have been eliminated; all records, regardless of make, can be played with a new quality of tone on The Brunswick.

We shall be glad to play this great instrument for you — to demonstrate the Ukona all-record reproducer and the new all-wood Tone Amplifier. One hearing will convince you this is the final-type phonograph.
