## BUCK PRIVATE FIGHTS GENERAL

JAS. W. BECKMAN ISSUES  
PAMPHLET AGAINST GENERAL WOOD.

J. W. Beckman, son of Mr. and Mrs. J. C. Beckman, has issued the following pamphlet which he is sending to the boys who wore khaki. Mr. Beckman has been very active in an effort to punish some of the officers in the Great War for alleged brutality and has been before the congressional committee in Washington where he made a very bitter attack upon General Pershing and other officers.

We are pleased to give his article publicity, but feel that he has not been able to connect General Wood with his grievance.

The following is his article:  
**SOLDIERS OF THE A. E. F.**—

You've got the chance now you waited for in France.

Generals who regarded you as a dog over there now want your vote. When it comes to voting for them, they are not putting up the familiar signs, "For Officers Only," "Out of Bounds to all Enlisted Men."

No. For Power is in our hands Now!

United, we will use it!

Hardly a year has passed since the good old days of officer aristocracy over there, protected by a censorship which concealed more than military information.

We waited long for our chance. It's here now, and as we stood together over there, we will stand together here. As we fought there to have the democracy of the world we will vote to save American democracy here!

We will see that the White House and the government at Washington are not "Out of Bounds to All Enlisted Men," nor "Reserved for Officers only."

Weren't they the good old days! But it's different now. We're in America again, where class and kings don't go!

The Pershing-Hard-Boiled Smith travesties on justice and honor are seared indelibly in our minds.

And General Wood, on the witness stand, upheld the court-martial system which make them possible notwithstanding the fact that the court-martial system of our Army is the one which that tyrant George III. used in the days of the Revolution.

England has long since discarded it for one of law and justice. France, too, has a just court-martial system; but Wood and Pershing stand with George III!

Regardless of party, every last one of us soldiers must fight the nomination and election of Wood, Pershing or any other general on either ticket.

A victory for Wood or Pershing means the end of all hope for military reform. It means going back to the obnoxious system we had to endure in France.

It shall not be!

I don't need to remind you of it; but what we all must do is to talk and write against Wood or Pershing's nominations by either party. It is up to us to wage the fight for democracy in America by informing those who do not know that militarism and prussianism are one and the same thing, and that Wood and Pershing mean both! We must warn American voters who were not in the Army that the officer class as it is constituted today embodies the same spirit that obsessed the officer class in Germany, where they pushed citizens off the sidewalks or struck them with swords if it suited their autocratic pleasure.

You, as a comrade in the fight for the world's freedom, are requested to talk against the support of these or any other generals.

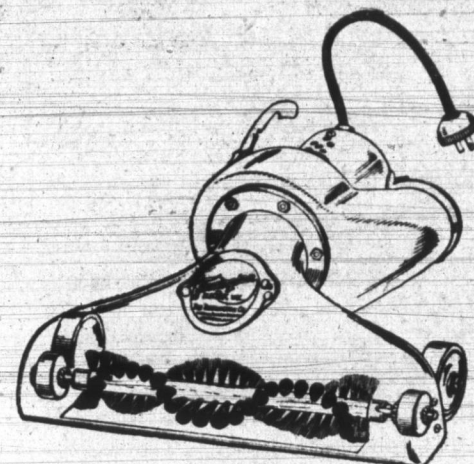

Warn the people of the danger of militarism with its caste system if a military man should be elected. It would mean providing thousands of soft jobs for officers and subjecting the civilian population to the military, as was done in Germany, under the guise of universal military training or service. If we need a bigger army, let us put an end to this stupendous scheme for graft and give the benefit to the soldiers who enlist, so that those who choose to serve in our army will be paid what they should be paid and treated as the soldiers of a great democracy should be treated—on their merits and not on a basis of caste, that unjust and tyrannical relic of autocracy.

Remember, the fight for democracy was only half won on the battlefield of Europe. The victory lies in the ballot box and in Congress and the White House.

You did your duty over there.

## THE FAILURE OF OTHERS SHOULD NOT DISCOURGE

ANOTHER INSTANCE WHERE  
TRUTONA BRINGS SUCCESS  
AFTER THE FAILURES OF  
MANY.

Terre Haute, Ind., March 18.—Here is another example of the now almost common occurrence where Trutona has brought relief to a man or woman where many other medicines have failed. It is the case of Mrs. Stanley Katzman, 1714 North Fifth Street, Terre Haute.

"For two years," Mrs. Katzman said, "I have had a poor appetite and it seemed that I couldn't eat anything without experiencing a pain in the pit of my stomach. I would become short of breath at times, something like choking spells. Gas often formed in my stomach causing me to feel bloated and to belch. About twice a week I would suffer from a swimming sensation in my head and I could always count on having a headache after one of these spells."

"I certainly feel much better after taking one bottle of Trutona. My appetite has improved and now I can eat without suffering. I'm not short of breath anymore, neither do I have the choking spells. The gas formations have ceased to annoy me and the bloating and the belching have stopped. Trutona has also relieved considerably the dizzy feeling in my head and the former headaches as well. Trutona has helped me remarkably and I do not hesitate in recommending it."

Trutona is now being introduced and explained in Rensselaer at Larsh & Hopkins' drug store.

## PROSPERING IN PULASKI.

In renewing his subscription to the Republican F. M. Haskell writes as follows:

Winamac, March 17, 1920.  
We are getting along fine. Have had pretty cold weather, but I did not get out any more than I had to.

We have quite a good deal of stock, and that takes quite a little time and, of course, I had to cut wood some.

We are all well and ready for three meals a day and that is pretty good, is it not?

Tell my friends that I find a few Democrats and a lot of Republicans and we will be there this fall with Wood or Johnson.

Will close with best wishes to you and all your friends.

Yours very truly,  
F. M. HASKELL AND FAMILY.
