

BACK ACHING?

That "bad back" is probably due to weak kidneys, a trouble that often follows grip, cold, or overwork. It shows in constant, dull, throbbing backache, or sharp twinges when stooping or lifting. You have headaches, too, dizzy spells, a tired, nervous feeling and irregular kidney action. Don't neglect it. Use Doan's Kidney Pills. Thousands have saved themselves serious kidney ills by timely use of Doan's. Ask your neighbor!

An Illinois Case

E. H. Halbert, prop. of barber shop, W. Bridgeport, Ill., says: "I was down and out with kidney trouble. My nerves were all unstrung and I was weak. I had to give up work and take to my bed. I remained there two months, hardly able to move hand or foot. I had night sweats and lost flesh. Nothing helped me until I took Doan's Kidney Pills. It wasn't long before Doan's put my kidneys in good shape and I was back to work again, in good health."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

A WELL-KNOWN INSTITUTION.

Probably no institution in America is more widely known than Doctor Pierce's Invalids' Hotel in Buffalo, N. Y. Although established many years ago it is today a modern sanitarium, having all the latest facilities for the correct diagnosis of diseases and their successful treatment through medicine or surgery.

It was Dr. Pierce, its founder, who over 50 years ago gave to the world that wonderful stomach tonic and blood purifier, "Golden Medical Discovery," and that famous non-alcoholic medicine for women, "Favorite Prescription."

In his early professional career, Dr. Pierce realized that every family, but especially those who live remote from a physician, should have at hand an instructive book that would teach them something about First Aid, Physiology, Anatomy, Hygiene; how to recognize different diseases, how to care for the sick, what to do in case of accident or sudden sickness, etc., so he published that great book, the "Medical Adviser," an up-to-date edition of which can be procured by sending 50 cents to Doctor Pierce's Invalids' Hotel in Buffalo, N. Y.

Later, Dr. Pierce added another link to his chain of good works by establishing a bureau of correspondence to which any one can write for medical advice, without any expense whatever, and if necessary, medicines especially prepared in Doctor Pierce's Laboratory will be sent by parcel post or express for use at home, at a reasonable cost. Thus those who have symptoms of disease need not suffer mental agony fearing that they have some serious ailment, but can have a diagnosis made free by a physician of high professional standing. Write to Dr. Pierce relating your symptoms if you need medical advice for any chronic disease. All letters regarded as confidential.

The signing of "Chief" Meyers, former catcher with the New York Giants, means that the New Haven club probably will have the only Indian battery in organized baseball next season. "Chief" Bender, veteran hurler, was recently signed as manager of the team and will take his regular turn on the mound. On the days he pitches Meyers is almost sure to be behind the plate.

VETERAN IS OPPOSED TO SHORTER CONTEST

Coach Jim Rice Believes Four Miles Better Test.

Reduction in Length of Collegiate Race Would Eliminate All Opportunity for Strategy and Brain Work by the Coxswain.

One of those who are opposed to shortening the annual collegiate race on the Hudson river at Poughkeepsie is Jim Rice, rowing coach of Columbia university. He believes four miles is a better test for the colleges and is not so exhausting to the men.

Rice is opposed to the reduction in the length of the varsity race, despite the unanimous verdict of the stewards at their meeting for the shorter contest. The Columbia coach for many years led the opposition to this move, and still maintains that it will not result in less physical strain on the oarsmen. He contends that the tendency of all crews will be to hit a high stroke from the first gun and maintain the clip throughout the race. There will be none of the old strategy and no oppor-

tunity for brain work by either the coxswain or stroke.

To prove his point that a fast three-mile race will be more wearing than the four-mile distance, Rice cites the case of Columbia and Cornell several years ago, when, after each crew had "cooked" the other by a continuous spurt, Syracuse came to the fore and carried off first honors. Under the three-mile conditions, says Rice, every crew will be "cooked" and at the end of the race will be more exhausted and worn than in the longer distance. A longer, instead of a shorter, training period will be necessary in his opinion.

The only beneficial result he sees will be the likelihood of more crews entering the annual classic. Wisconsin, which three years ago notified the stewards that it would enter a crew in a three-mile distance only, is expected to take part in the 1920 regatta, and Rice looks also for entries from the Pacific coast, which formerly sent one and, sometimes, two representatives.

Water on the Knee.

A certain man of rather a waggish disposition, contends that his wife has no imagination. At dinner one night he chanced to mention a tragic circumstance, which he had read in the evening paper on his way home. A passenger on a transatlantic steamer had fallen overboard in mid-ocean, and had never been seen again.

"Was he drowned?" asked the wife. "Oh, no," answered the husband, "but he sprained his ankle; I believe!"

Never the Same After That.

As I was making a bed one Monday morning a friend came to see me. She walked right in and not seeing me, said: "Are you at home?" I said: "Oh, yes, I never go visiting Monday morning." When I thought how it sounded, I was awfully embarrassed, and she never acted the same toward me.—Exchange.
