

VOTE FOR

(25) EMMET M. LARUE.....X.....

On the Republican Ticket

The only objection raised to the candidacy of LaRue is the widely circulated propaganda: "HE'S TOO YOUNG." LaRue, according to the Constitution of the United States, is old enough to be U. S. Senator. Would you consider him too young to hold judicial office?

Is old age the determining factor of a man's fitness for the bench?

What of:

Knowledge of the Law.
Analytical Mind.
Strength of Character.
Fairness and Sense of Justice.
Unquestionable Integrity

There is no claim he does not have these qualifications. He is 30 years old, had four years in law schools of Colorado and Indiana Universities, eight years in practice of law, making in all 12 years' legal experience. He is the only ex-service candidate for Judge in both Jasper and Newton counties, having served in the infantry in our war against Germany.

Although LaRue is asking for consideration solely upon his qualifications and fitness for office of judge, we feel that the fact that he served in the army should be held to operate in his favor.

THE INTERCHURCH DRIVE

Thirty co-operating Protestant denominations began a financial drive yesterday and will conclude next Sunday. An attempt will be made to pledge \$386,777,572. This is the financial aim of the interchurch world movement, which is described as one of the churches, by the churches and for the churches. "Its object is to enable the Protestant churches of the United States to contribute their due share toward the evangelism of the world by means of co-operation," says an official announcement. Under its Constitution the movement can not have anything to do with any movement to promote organic union among the churches. For the present those who are behind this campaign are content to let each denomination exercise control over its own policy. But there is a feeling that while the churches may retain their individuality, they can work in harmony to reach the goal to which all aspire.

The \$386,777,572 will be spent on home and foreign missions, education, Sunday schools, ministerial salaries and pensions, and hospitals and homes. The average annual wage paid ministers is \$997, so it is small wonder young men are not entering the ministry. They may be consecrated to the cause, but they can not live without means.

The appeal is being made to non-church members on a business basis. An eastern authority recently declared that the greatest factor in business life today is religion and that the business man's real security is the righteousness of the people of his community. People who have made advancement have been Christian in faith. One medical missionary in India or China may be the means of saving thousands of lives in America by checking a disease at its source. The interchurch world drive appeals to church members because they believe in religion. It may appeal to the non-church member because he will decide it is good business.—Indianapolis News.

Torrington ELECTRIC VACUUM CLEANER

Afternoons for Mistress and Maid

The servant who asks for afternoons off wants a little relaxation, and she asks for it. How about the woman who has no servant? Whom can she ask for her afternoons off?

Both mistress and maid can have more afternoons and not be too tired to enjoy them, if there is a TORRINGTON Electric Vacuum Cleaner in the house.

The reason you don't own a TORRINGTON Cleaner is because you have thought of it as a sweeping machine. It is ever so much more than that. A Torrington is a leisure-bringer. You buy afternoons of freedom when you buy a Torrington. How much are 350 afternoons a year with a clean, bright, dustless house, and no weariness, worth to you?

Surely they are worth a few monthly payments, and less than a dollar a year for electricity.

Next time you are working to clean your house when you would rather be doing something else, stop for a minute, call up Worland Bros. and ask them to send a TORRINGTON Cleaner around and demonstrate it. Have them show you how perfectly the brush helps

the suction to remove both surface litter and trodden-in dirt.

There's no excuse for wasting your afternoons and your energies doing work the TORRINGTON Cleaner will do in a few minutes. If you can think of a single reason for not owning a Torrington, or a single excuse for waiting any longer before making the first payment and getting one—buy another broom and say good-bye to many a pleasant afternoon.
