Tires are often sold the  
same way politics are.

The last people to wake  
up to what they are getting  
are the people who pay the  
bills.

The bills are getting too  
big these days in both cases.  
And the man who is feeling  
it most with respect to tires  
is the man who owns a  
moderate-price car.

The idea that the small car  
owner doesn't need a good  
tire is rapidly going the way  
of all mistaken ideas.

He needs it more than  
anyone else. It's part of our  
job, as we view it, to see  
that he gets it.

Our tire service starts with  
good tires—U. S. Tires. All  
sizes made to a single stand-  
ard of quality—none graded  
down to the price of the car  
they will go on.

U. S. perfected the first  
straight side automobile tire  
—the first pneumatic truck  
tire.

The U. S. guarantee is for  
the life of the tire, and not  
for a limited mileage.

When we recommend and  
sell U. S. Tires we do so in  
the interest of greater tire  
economy. It is our experi-  
ence that that is the best  
way to build up a sound and  
sizable business.
