

TASTE TAKEN OUT OF CASTOR OIL BY NEW PROCESS

Remarkable Method Perfected By
Laboratory Experts of Spencer
Kellogg & Sons, Inc.

When the doctor says "take castor oil" you need no longer shudder. By a new scientific process all the disagreeable features have been removed from this famous old remedy. Chemists of Spencer Kellogg & Sons, Inc., have perfected a remarkable process by which all nauseating taste is eliminated from castor oil. Nothing is removed except the taste. Strength and purity remain the same—a 100% pure castor oil. Kellogg's Tasteless Castor Oil settles the question of the best laxative. No pills or drugs are so prompt and thorough as nature's pure remedy, castor oil. That's why doctors always prescribe it. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c, and 65c.—(Adv't.)

Keeps
Your
Stove
Shining Bright

Gives a brilliant glossy shine that does not rub off or dust off—that anneals to the iron—that lasts four times as long as any other.

Black Silk Stove Polish

is in a class by itself. It's more carefully made and made from better materials. Try it on your parlor stove, your cook stove or your gas range. If you don't find it the best polish you ever used, your hardware or grocery dealer is authorized to refund your money.

The New Farm Hand-Gasoline Power

THE average ownership of automobiles for 1919 was one car to every 14 persons in the United States. But in making this average, the states outside the Middle West (including the states of the east, with their congested city traffic) showed but one car for every 19 persons.

The states served by the Standard Oil Company (Indiana) such as Kansas, showing one automobile for every 8.9 persons; Iowa with a car for every 7.8 persons, or South Dakota, with a machine for every 8.3 persons—raised the national average.

The people of the Middle West—pre-eminently the farming section of the nation—own about one-half the motor cars of the country. The major portion—almost 65% of these Middle Western cars are farmer-owned. Investigation has further proved that over 75% of the Middle Western farmers bought their cars, not for pleasure, but for business.

Gasoline-power is the new hired hand on the farm. To maintain the continuous operation of this power is one of the leading services rendered by the Standard Oil Company (Indiana).

To increase the nation's food-supply, the farmer must depend upon his gasoline supply. Some one must continually anticipate production difficulties, overcome transportation delays, so that his tractor and his truck and his car may operate whenever the plowing, cultivating, seeding, harvesting, housing or marketing of his crops must be done.

It was to insure dependability in supply of petroleum products to the consumer as well as to lower their prices, that the Standard Oil Company (Indiana) built up its "cycle of service", carrying its products from the refinery direct to the consumer. All savings effected through this efficiency in organization are passed on by the Standard Oil Company (Indiana) to the consumers of its products.

Oct. 7.—Thursday. 8581—Frank E. Lewis vs. Estate Benj. J. Gifford. 8582—Clifton J. Hobbs vs. Estate Benj. J. Gifford.

Oct. 8.—Friday. 9209—Arthur W. Walker vs. Edward Zugbaum, et al.

MOROCCO VS. KANKAKEE.

Outweighed probably fifteen pounds to the man and playing before a hostile crowd that had waged heavily against them, Morocco's independent football team swept the famous Co. L. team of Kankakee off their feet Sunday at the latter place and left them thankful they were not beaten.

The score was 7 to 7. Morocco made it plain in the first quarter that she was out to win and her light line held time after time for downs. Ability of the front line to side-step interference and swing onto the man with the ball kept Kankakee from gaining through the line and when they opened up with forward passes, Capt. Purkey pulled one down and ran 50 yards for Morocco's touchdown.

Somebody kicked goal. The game then turned to a kick and pass contest with everything breaking Morocco's way until Kankakee intercepted a pass and was downed in the shadow of their own goal. Morocco held for three downs when the whistle blew for the end of the third period.

Kankakee came back strong and scored a touchdown. A goal kick tied the score and the fourth quarter was a battle royal in which neither team could break the tie. Either of these teams would make a good drawing card for the Rensselaer Independents.

Dentistry in all its branches practiced here. We make plates of all kinds, gold, aluminum, rubber, etc. Office opposite court house square. Phone 24-D.

Nobody thinks anything now of going away on a trip

THE railroads were partly responsible. But it wasn't until the automobile reached its present state of development that the old barriers against travel were finally broken down.

II

More people own automobiles today than ever thought of owning a horse and buggy in the old days.

That's because the cost of motoring has been brought within reach of the average citizen's pocketbook.

We look upon it as part of our job to keep it there. If it weren't for the trade of the man with the medium priced car there wouldn't be

much in this tire business for us.

III

The less a man has to spend on motoring, the more important it is that his tires should be of first quality.

Any tire is not good enough for the small car owner. He wants a tire that will give him just as much for his money in the small size as the big car man gets for his money in the large size.

IV

In thinking over what kind of tires we would represent in this community we tried to put ourselves in the place of the car owner. And we believe we hit it exactly when we selected U. S. Tires.
