NOTE TO MY CUSTOMERS.

Today, October 1st, 1920, I start to run my business on a 30 days' cash basis.

That means all.

While I have a very large percent of customers, whom I consider nearer than just customers, they are very near friends and have never abused their privilege, always responded when called upon, yet I have a small percent of others who did not respond when they should and under the old system it made it very hard to handle my bills. Often those whose bills were not due would come to my rescue, but some pay no attention and I have at this time 600 accounts not paid.

Music Lovers Choose the BRUNSWICK

MUSIC lovers choose The Brunswick Phonograph to play their favorite records, for it plays all records at their best.

The Brunswick Method of Reproduction makes this possible. It consists of two outstanding, exclusive features—The Brunswick Ultona and The Brunswick Tone Amplifier.

The Ultona

The Ultona is a scientific creation which enables one to play all records with faithful regard for the requirements of each make. It is not in any sense a combination contrivance, but involves a fundamental principle of sound reproduction.

Nor is the Ultona a complex mechanism. By a slight turn of the hand it is adapted to any make record, instantly supplying the correct position on the record, the proper needle and diaphragm and the

precise pressure or weight necessary to play that particular record.

The Tone Amplifier

The Brunswick Tone Amplifier is another improvement of fundamental importance. As the name implies, it *amplifies* the tone, making it richer, sweeter, truer.

This vibrant tone chamber, constructed entirely of moulded hollywood, free from metal, provides the requisite resiliency that unfolds and projects true tone. Like a fine violin or the sounding board of a piano, it complies with the approved laws of acoustics.

Hear The Brunswick Before You Buy

One hearing of this remarkable instrument is enough to convince the most critical music lover that here is the final type phonograph. Come in today for demonstration.

WILL R. WOOD HERE WEDNESDAY

OUR CONGRESSMAN TO ADDRESS VOTERS AT PRINCESS THEATRE WEDNESDAY EVE

Republican County Chairman Moses Leopold announces that he has secured Will R. Wood, Congressman of the Tenth Indiana Congressional district, for a speaking date in this city the evening of Wednesday, October 6. Congressman Wood will address the voters at the Princess theatre.

Mr. Wood is the senior member of the Indiana delegation in the lower house of congress, and his ability as a member of that body insures him the solid support of the Republican party at the coming election, as well as many democratic votes, and there is no doubt but that the splendid service he has rendered the people of this district will return him an easy winner on November 2.

A ladies' quartette of Huntington will sing campaign songs during the evening. This quartette has attained state-wide prominence thru their exceptional ability as entertainers.

Will R. Wood is recognized as one of the most valuable members of the congressional body and he has served his constituents faithfully in every instance.

Mr. Wood is a very forceful talker, a straight-from-the-shoulder speaker and thoroughly acquainted with every problem that faces the present day voter, and every voter who can possibly do so should be present at the Princess on Wednesday evening to hear the Congressman's message.

The case of Collision vs. Collision, in which the plaintiff, Edna Collision, asks for divorce and alimony in the sum of \$150,000, continues to occupy the attention of the court. The defense has not yet taken the stand and it is probable that the case will be continued to the November term.
