there's nothing like Bread with milk.

Give the kiddies food that will satisfy their appetites; food that will digest easily; substantial food that will build up their little bodies.

Bread is that kind of food.

Active days! Dreamless Nights! These are nature's priceless gifts to children who eat.

Some electric washers lift and dip the soiled fabrics in a tub of sudsy water—and it is a good method.

Other electric washers rock and toss the soiled fabrics to and fro in sudsy water—and it is a good method.

The A B C Electric
Laundress does both. Rapidly, it alternates these good
methods—and so combines
their advantages.

This Ends Discussion!

If you have been looking at electric washers your mind is muddled concerning whether the lifting and dipping method or the rocking and tossing method is preferable. In fact, both are good. Why not get an A B C Electric Laundress that uses both methods—and so ends discussion?

There will be Sunday school next Sunday at the Barkley church at ten o'clock. There are a number of children in the community who have whooping cough, and this is cutting down the attendance at Sunday school. Those in the community who have had, or who are not afraid of the whooping cough should make a special effort to be present at Sunday school and the church services and help boost this institution which stands for the highest and best things in life.

There will be preaching services next Sunday evening at seven-thirty to which a cordial invitation is extended to every man and woman in the community of this church.

Roll call was answered with current events appropriate to Thanksgiving giving.

Guessing the height, weight and number of seeds in a pumpkin brought forth some very wild guesses. Mrs. Fern Lough won the prize which was a pumpkin.

Two pantomimes, Evangeline, and Betsy Ross Making the Flag, were beautiful in conception and presentation.

Next the guests were asked to make their own Thanksgiving Turkey, a small potato, a carrot, some raisins and toothpicks being furnished for the purpose. Some very artistic birds were produced.

The hostess served dainty refreshments of a Thanksgiving nature, which, with the excellent program, made an afternoon long to be remembered for the pleasure enjoyed.

Our School Betterment program was given to a packed house Tuesday evening. The high school and grade pupils rendered a short program, after which Hon. W. L. Wood gave a very inspiring address on the "School Needs of Indiana." In his remarks Hon. Mr. Wood brought out, with convincing argument, the fact that one way to help in school betterment was the equal distribution of tax money by the state. This has given us something tangible to think about and we hope will have the desired effect.

The box social which followed the program netted about \$50.00. We wish to thank every one present Tuesday evening for the loyal and generous way in which they helped to make our social a success.

We found another spoon on Ole's desk Wednesday morning.

The basketball game ended in a 16 to 12 score in favor of the high school. The Fair Oaks Alumni

THERE is a big difference between Calumet and all other Baking Powders.

First—you see it in the cost. Calumet is sold at a moderate price.

Then—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required.

Next—you notice it in raising quality—in the evenness—lightness and texture of your bakers. They look better—finer grained.

"S-o-m-e Biscuit!"

CALUMET
BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit

4 cups of sifted flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounded tablespoons of butter or lard, $\frac{1}{2}$ cup of milk, $\frac{1}{4}$ cup of water. Then mix in the regular way.
