## The New Edison

The Phonograph With a Soul.

When you buy a phonograph insist on one in Period design. All Edison machines are of Period design. The furniture that you buy from now on will be in some Period. Why not have the phonograph to match?

### A WORD ABOUT PRICES

In 1914, as you can ascertain through practically any investment banker, the Edison Laboratories were selling phonographs on a narrower margin of profit than the other manufacturers. Since 1914, the price of the New Edison has advanced less than 15 per cent—and a portion of this is war tax.

"Edison stood the gaff" to keep his favorite invention within the reach of everyone.

You can see Angelica's point of view: she wanted a real, live, reckless man, and the she was immensely fond of Reggie and even went to the extreme of marrying him, his name tells the story. And you can understand, too, how Reggie regarded the thing: he knew he wasn't wild; he was so shy with the ladies that he even spoke of the limbs of the table. Yet he had no intention of letting a little thing like a good reputation come between him and Angelica. A conference with the editor of "The Town Tattler," the society scandal paper, and in a week Reggie's name was linked in devilish innuendo with that of many

## LOSERS BANQUET AGAIN READY H. S. WINNERS FOR SERVICES

SENIORS AND JUNIORS ARE FEASTED BY FRESHMEN AND SOPHOMORES.

A most delightful school function was enjoyed by the high school pupils, faculty and school board at the gymnasium in the high school building Friday evening.

At the beginning of the school year a contest was had by the classes in securing the athletic dues. The two classes making complete returns first were to be banqueted by the two classes making reports last. In this contest the seniors and juniors won over the freshmen and sophomores.

The banquet was so elegantly served by the lower classmen assisted by members of the faculty that the honors won by the upper classmen in the contest was equalled by the lower classmen in the menu and the catering at the feast enjoyed by more than two hundred of the student body.

In keeping with the banquet there was a programme consisting of toasts by members of the student body, faculty and board, with Superintendent Dean as the master of the occasion. A number not scheduled to speak were called upon and made decided hits with the banquet-teers in their witty remarks. Instrumental music furnished by Inez Kiplinger, piano; Harold Sharp, saxophone and Dana Todd, violin, was enjoyed by all.

The topic discussed by all who spoke was "School Spirit." The school has thus far enjoyed a most pleasant and profitable session with student body and faculty working earnestly and in harmony.

### KELLNER WINS IN SUPREME COURT

The Indiana Appellate Court has affirmed the decision of the lower court in the case of Virginia Carolina Chemical Co. vs. Conrad Kellner et al.

This case was filed in the Jasper circuit court and venued to the Newton county circuit. The trial there resulted in a verdict for Kellner and was appealed by the chemical company.

The chemical company had shipped a car load of fertilizer to Kellner et al, but had made the shipment too late and the quality of the fertilizer was not up to standard. Kellner et al offered the company a reasonable settlement but the chemical company refused to accept and the suit resulted.

### GRAND JURY

### INDICTS TWO

ROBERT J. LUK AND RAMSON LEWIS ARE FACING CHARGE OF PERJURY.

Sheriff True D. Woodworth, accompanied by B. D. McCollum, went to Danville, Ill., Tuesday for the purpose of placing under arrest on a charge of perjury Robert J. Luk and Ramson Lewis, residents of that city. However, upon their arrival they found that Luk was out of the city. Lewis was placed under arrest and on the following day came to this city with Luk, and the latter was also placed under arrest.

The charge filed against them is the result of a grand jury investigation of testimony given by them in the recent Collison vs. Collison divorce trial here in which the plaintiff, Mrs. Collison, was awarded alimony in the sum of \$66,000.

Luk and Lewis are charged with having given testimony to the effect that they saw Mrs. Collison at a dance at Urbana, Ill., on a certain night, but during the trial Mrs. Collison produced evidence showing that she was in Kansas City, Mo., on the night mentioned.

The bond of each of the men was placed at \$1,000, which they supplied. Their case will come before the court during the February term.
