

Ford

THE UNIVERSAL CAR

Buy Your FORDSON NOW

We repeat, BUY NOW, or at least arrange to insure delivery next spring. There will be a serious shortage of FORDSON Tractors. The factory will build one hundred thousand in 1921 and the dealers can sell twice that many. The Central Sales Co. has been working its territory intensively and KNOWS that it will not be able to supply the demand next spring unless the prospective buyers get in early and literally steal the machines from other territories that are not so wide awake. The regular allotment is too small to supply even a small demand. And you farmers who are losing your tractor enthusiasm because of the slump in prices should take a little time off to talk over the situation with us. We can show you that there is a BIG SAVING in power farming with the FORDSON and Associated implements even though prices are declining. We have data compiled by our farmer owners and ourselves on our own farm that proves this assertion. Once you own a FORDSON you will never be without one. Prices guaranteed against reduction until next June.

Remember we charge no notary fee on Ford License Certificates.
