

## 57 Years Ago

A young man who practiced medicine in a rural district became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce who afterward moved to Buffalo, N. Y. He made up his mind to place some of his medicines before the public, and he put up what he called his "Favorite Prescription," and placed it with the druggists in every state in the Union.

For fifty years Dr. Pierce's Favorite Prescription has sold more largely throughout the United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to. It is now sold by druggists in tablet form as well as liquid.

WEST UNION, ILL.—"Dr. Pierce has my heart's best thanks for what his 'Favorite Prescription' has done for me. I shall always recommend this medicine. Since using it I am much improved in health. I do not have that 'raggy' feeling I had before."—MISS MAUDE BLIZZARD, Route 3.

PHOTOS SENT BY  
TELEPHONE WIRE

Demonstration of Teleostereograph, a French Invention, Proves Success.

## EFFICIENCY SHOWN IN TESTS

Four Pictures Are Sent From New York to St. Louis, the Negatives Being Reproduced With Distinctness.

New York.—The first American demonstration of the teleostereograph, the invention of Edouard Belin of Paris, was held when four photographs were wired between this city and St. Louis. Each of the pictures went the 1,000 miles in about eight minutes, the negatives being reproduced with distinctness.

The tests were between the office of the World and the editorial rooms of the St. Louis Post Dispatch and were conducted by Mr. Belin who came to New York at the invitation of Ralph Pulitzer, proprietor of the World.

Efficiency Is Demonstrated. "The instrument has demonstrated its efficiency and utility," Mr. Pulitzer said after the experiment, "and I am quite satisfied with the tests."

"Do you intend to introduce the teleostereograph in American journalism?" he was asked.

"Well, I am hoping to," he said, "but of course it has not quite reached the practical stage yet."

About seventy-five scientists, wire experts and newspaper men gathered to witness the trial. Mr. Belin and several assistants had the instrument all set up and special wires between the two cities were waiting.

"The transmission," declared A. C. Lescaur, scientific writer, "is simply a matter of preparing a basrelief of the photograph, and then tracing that basrelief with a stylus connected to a telephone transmitter. The latter varies the current flowing over the wire in accordance with the relative height of any point of the basrelief."

EX-FIGHTERS IN  
CIVIL SERVICE

Sixty Thousand Have Passed  
Examinations for Positions  
Under the Government.

## PUT SNAP INTO THE WORK

Amendments to the Law Establish  
Preference for Soldiers—Not Dis-  
qualified by War Wounds—Num-  
ber Increases Steadily.

Washington.—The civil service is undergoing a change, for many former army men are "still in the service" and are injecting some of the old-time war pep into their handling of the mail, keeping records of government insurance; helping to liquidate the nation's war contracts, putting together the results of the 1920 census, opening up and irrigating and draining new government land, clerking in all the various government departments—doing anything that needs to be done around the national household. The number of ex-service men working for the government is increasing steadily, and today numbers 60,000 who have passed the examination and 40,000 who have been certified for appointment. At the present time the actual count is 15,750 ex-service folk now detailed for duty with the government, but with these new appointments the number will be doubled and trebled in the near future.

Like Old Times. "It reminds a person of old times to wander through some government buildings and hear a head clerk shout out the never-to-be-forgotten 'snap to it,'" writes J. W. Rixey Smith. "Many a sedate and settled-for-the-ages government bureau has had its papers and its calm ruffled recently as the thousands of men who did their hitch in the army or the navy walked in under civil service to occupy desks in just about the same manner as they would take trenches. They hurl papers around as if they were throwing Mills bombs, and they chase in and out as if they were always after a German, bitterly lamented one old-timer about to be retired to make way for the new blood.

"Many amendments looking toward civil service jobs for ex-service men and women and their dependents have been added to the civil-service laws. Five such amendments and two executive orders of the President have been instrumental in opening the gates of government service as wide as possible to the ex-service man.

"One amendment establishes preference for all honorably discharged soldiers, sailors and marines, wives of disabled men and widows of service men in appointments to certain positions in the District of Columbia.

"Another amendment provides for the reinstatement of all civil service employees who went to war. Another restores to their places on the civil service eligibility list all those who lost their civil service status by reason

## Marine Exposition in Chicago

Scene in the Marine exposition just held in Chicago. In the center is the steamship Port of Chicago, a one-tenth size model of a combined passenger and cargo ship.

record at any given moment. At the receiving end this current variation is translated into various gradations of light.

"The first step, then, is to prepare the transmitting record or plate. A copper cylinder forms the base of the record—which, incidentally, is of the size and appearance of the old fashioned phonograph records—and its surface is coated with a five per cent shellac solution.

Care of the Print. "Meanwhile a carbon print is made in the conventional photographic manner from the photographic negative to be transmitted, after which the print is wrapped face to face with the shell-

lacked copper cylinder. The cylinder with the print is then placed in hot water, with the result that the gelatin of the print adheres to the cylinder in accordance with its own degree of blackness, while the unexposed gelatine is washed away with the paper.

"In this manner a coating of uneven thickness is formed on the cylinder, or a photographic basrelief."

Crazy Surgeon Kills  
Woman Under Knife

Berlin.—The remarkable case of a doctor going insane during an operation is reported from Schwerin. Councillor Surgeon Gebhard, while performing a minor operation on a woman, suddenly was seized with the hallucination he was in a clinic dissecting a cadaver. Doctor Gebhard accordingly cut up the woman, who died on the table.

On another occasion he cut off a soldier's arm and then failed to take measures to prevent the soldier from bleeding to death.

Doctor Gebhard now is in a Berlin sanatorium.

## REBUILD THEIR RAZED HOME

French Family of 16 Capture Prize of  
15,000 Francs Offered by  
Norman Davis.

Lens, France.—The Duborepere family of the little village of Metern, near here, has been awarded the prize of 15,000 francs, given by Norman Davis of Washington through Mme. Jusserand, wife of the French ambassador, for the family which should rebuild its destroyed house in the devastated region without the assistance of carpenters, masons and other expert building workers.

The material was furnished by the David fund through the Secours d'Urgence and in three months the house was finished.

The Duborepere family consists of father, mother and 16 children, all living.

Experts say the house is worth over 50,000 francs. The material cost 15,000.

## The Lure of Pickhandle Wine.

Charleston, W. Va.—Although "dry" officers are active, moonshining apparently is on the increase. In the northern part of West Virginia many raids have been made. The net result of the hauls is 31,000 gallons of mash, 631 gallons of moonshine, 500 quarts of other whisky and 3,000 gallons of pickhandle wine. All the raids were made during the month ending Oct. 15. But prison sentences don't seem to scare off the "shiners," though the federal court has been unusually severe and out of forty-five cases tried forty-three of the defendants were convicted.

Seven-Ounce Hen Pet  
of Pacific Coast Boy

Oregon City.—Eugene Kitzmiller, aged seven, son of Mr. and Mrs. J. P. Kitzmiller of this city, is probably the owner of the smallest hen for her age in the state of Oregon. She is of a black-breasted red game breed, weighing seven ounces. She is six months and seven days old and struts around the yard with the big Rhode Island reds as if she owned the entire poultry yard.

## "Miss Jones in the House?"

Lexington, Ky.—Because a girl was not "paged" when her mother was reported dying, all theaters, including the movies, must page people when the request is made.

## ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trademark of Bayer Manufacture of Monaceticacidester of Salicylicacid.—Adv.

## Reliance.

"I place my faith in the United States Constitution," remarked Senator Sorghum.

"Yet you must admit that there are disorders in our social system."

"Nothing serious. With a strong constitution your system is bound to come out all right."

If You Need a Medicine  
You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

## Close Scrutiny.

"How does Bibbles regard the one-piece bathing suit?"

"When worn by a shapely member of the fair sex he regards it with the closest attention."—Birmingham Age-Herald.

## Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented convenient, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Adv.

## His Business.

"Is he a man of good habits?"

"He has to be; he makes riding ones for ladies."

The constant effort to keep the desire alive increases the capacity to realize the vision.
