The Indianapolis Trade Journal names last week as a record breaker in dull trade. It attributes the condition, to some extent, to the bad weather, but admits that there is but little encouragement to hope for better conditions until a crop is raised upon which the farmers can get some money. The Trade Journal intimates there is a demand for some legislation in the interest of business. The Journal is non-political and non-partisan, but it seems to regret that it is so, as there is such a fine opportunity to go after some political ideas that now prevail. The Journal need not worry. The people have made up their minds to go after the Grover Cleveland political policy now prevailing and it will be knocked over the ropes in the first round.

THE REPUBLICAN was in receipt Monday of an electotype containing a picture and a write-up of Hon. W. R. McKeen, one of the Republican candidates for U. S. Senator. Much of the matter was unobjectionable, but the article took a very decided stand in favor of Mr. McKeen's candidacy. We do not know how many

papers will be led to insert the above article on account of its already being in type, but we should think very few. We do not believe the boiler plate method of campaigning is a good one. It is liable to lose a man more friends than it gains. M. W. Carr, of Indianapolis, editor of the Pen, who sent out the above, says it will be followed by articles concerning other candidates later. If said candidates who are to come later cannot be boomed except by boiler plate methods they had better remain unboomed.

THE Chicago News quotes Rule 19 of Chapter 2 of Mr. McKinley's "Book on Politics" to sustain the proposition that when one candidate has taken a majority of the tricks, and has four aces and a pocketful of trumps left, it is not according to Hoyle for the other candidates to play partners.

REPORTS are already beginning to come in from over the State of prominent Democrats who have renounced their allegiance to that party and will hereafter vote and work with the Republican party. There are also a large number of private who have come over and still there's more to follow when the campaign opens up. These hard times and no settled or fixed policies or principles among the leaders have done the business for the Democracy.

A few days since in passing a business room, a number of little boys from 10 to 15 years of age, were observed smoking cigarettes. They had, no doubt, obtained the cigarettes unlawfully, as there is a strict law against selling or giving cigarettes to youths of such tender years. Let the violator of the law be punished. Parents and teachers cannot dwell too strongly on the evil effects of the cigarette habit. It has, and is now ruining thousands of young men and boys. The opium or other drugs which the cigarette contains, stupefies the brain and deadens ambition and vigor. The habit means ruin for a young man who keeps it up until he becomes what is known as a cigarette fiend.

Racing at Indianapolis This Year.
The Indianapolis Driving Club will give two race meetings this year. The first will be running races for the last week in May, at which \$10,000 will be distributed. The other will be the trotting and pacing races, August 17 to 22, inclusive, where \$40,000 will be hung up. Indianapolis is now in the running circuit composed of Terre Haute, Columbus, O., Saginaw and Elkhart. In trotting and pacing she is a member of the Grand circuit, composed of Chicago, Detroit, Cleveland and Ft. Wayne. There will be no better racing in the United States.

Prosperous Farmers.

Yankton Press and Dakotian. In Yankton County, South Dakota, there are at least one thousand farmers who came here poor as the proverbial turkey of Job, and who to-day count their worldly possessions by thousands. Many of them started in with a house built of sod, and almost empty handed so far as horses and cattle go. To-day they occupy fine dwelling houses, have large barns, fine horses, cattle, hogs and sheep, granaries filled with grain, fruit orchards, and money in hand. We mention this to show that South Dakota farmers are the prosperous class. Prosperity is the rule—not the exception. With fair prices for grain and live stock, they would be rolling in wealth. Prices, however, have nothing to do with the fertility of the soil and the favorable character of the climate. These natural advantages are here to stay and assure prosperity to the farming classes.
