ACCEPTS CALL FOR DePAUW

THE REV. FRANCIS J. McCONNELL, PASTOR OF THE NEW YORK AVENUE METHODIST CHURCH, PROBABLY WILL BE HEAD OF THE METHODIST SCHOOL TO SUCCEED BISHOP HUGHES.

THE ANNOUNCEMENT LAST NIGHT

Committee Which Tended Position To Eastern Man Receives Telegram Announcing That he Will Accept—Meeting of the Trustees, October 31, Will be Called in Greencastle, When Final Election Will be Held.

The Rev. Francis J. McConnell, Ph. D., pastor of the New York Avenue Methodist Episcopal Church, Brooklyn, N. Y., has accepted a call to the presidency of DePauw University, Greencastle, Ind. The call was tendered him by a subcommittee, which will recommend his election to a larger committee as well as to the board of trustees.

The announcement was made yesterday in Indianapolis by Hugh Dougherty, president of the Marion Trust Company, who, as the head of the Methodist institution's trustees, served as chairman of the subcommittee. He has called a meeting of the larger committee appointed to select a successor to Bishop Edwin Holt Hughes for Tuesday, October 20, when formal recommendation to the board of trustees in favor of Dr. McConnell will most probably be made. The meeting will be held in the president's office of the Marion Trust Company.

If the larger committee approves the report, Mr. Dougherty will issue a call for a trustees' meeting, which probably will be held in Greencastle, October 31, when the final election of the new president will be held. It is planned to dedicate DePauw's new Carnegie library in connection with the event. All of the Methodist bishops of the United States, who are to be in session in Indianapolis at

that time, will attend the ceremonies at Greencastle.

The subcommittee, which offered the school's highest office to the Brooklyn pastor, includes Hugh Dougherty, Dr. C. E. Bacon and Dr. Deloss Wood, all of Indianapolis. They will make their report to the larger committee, which includes, besides the three, ex-Governor W. T. Durbin, Anderson; William Newkirk, Connorsville; Harry Whitcomb, Shelbyville; Dr. G. F. Keiper, Lafayette; Dr. C. E. Wade, Ft. Wayne; N. T. DePauw, New Albany; Walter Talley, Terre Haute; Marvin Campbell, South Bend; E. G. Eberhart, Mishawaka, Ind.; and Dr. W. D. Parr, Kokomo.

The larger committee will in all probability accept its smaller committee's recommendation, so that the formal election of Dr. McConnell will take place, as expected in Greencastle, when all of the trustees will gather at the call of President Dougherty.

As Mr. Dougherty's guest, Dr. McConnell was in Indianapolis Friday, October 9, when the subcommittee practically closed its arrangements with the prospective president. Ex-Governor Durbin attended the meeting, having been invited to meet the Eastern pastor. After returning to his home Dr. McConnell wired Mr. Dougherty he was ready to accept the call pending the action of the larger committee and the trustees.

When his father was pastor of the Roberts Park M. E. Church, about twenty years ago, Dr. McConnell attended the Indianapolis public schools. He entered the academy of the Ohio State University, attended Phillips Andover and was graduated from Ohio Wesleyan with an A. B. degree in '94. He received an S. T. B. degree from Boston University in '97 as well as his Ph. D. in '99. Since entering the Methodist ministry he has served pastorates at West Chelmsford, Mass.; Newton Upper Falls, Mass.; Harvard Street, Cambridge, Mass.; and New York Avenue, Brooklyn. He wrote a book, "Divine Immanence," published in 1906. His family includes a wife and three children. He is 37 years of age. Dr. McConnell is a personal friend of DePauw's ex-president, Bishop E. H. Hughes. Mr. Dougherty has recommendations from all parts of the country which lead him to believe

Cleve McAvoy of Cloverdale, was arrested at the interurban station last night and locked up for intoxication. The angered man slipped up behind McAvoy and hit him on the head with a brick, badly cutting his head and scalp. McAvoy was so badly injured that a physician was called to dress his wounds.

The prisoner this morning declared that the whisky and drugs given him by the physician while the wound was being dressed was the cause of his intoxicated condition when he arrived here last night on his way home to Cloverdale. The man was released on a suspended sentence this morning and allowed to go to his home.

HEAR OHIO CONGRESSMAN

Assembly Room Well Filled by Democrats Who Listen to John J. Lentz's Exposition of the Political Questions.

CLEAR AND FORCEFUL SPEAKER

In spite of the fact that it was an afternoon speech and that many people who wished to hear him could not come, Congressman John J. Lentz, of Ohio, drew a good crowd this afternoon. Mr. Lentz is a man of good appearance upon the platform, and has the ability to make points clearly and forcefully. He discussed the political issues from the Democratic point of view for more than an hour, and the intense interest on the part of the audience showed that his oratory was effective.

He spoke of the tariff and the chief issues of the campaign, and coming as he did directly after Maxwell last night, the discussion of these things was particularly timely. Mr. Maxwell started many toward the Democratic camp, and Mr. Lentz gave them added impetus. It was a clear and forceful exposition and very convincing.

DEATH OF JOHN EARP

John Earp, aged 77 years, one of Putnam County's oldest citizens, and for many years a prominent Greencastle business man, died suddenly this morning at his home in the north part of town. Mr. Earp had been in failing health for some time and was unable to be out, but his death was not expected. About 5 o'clock this morning he was found by his wife, who alone survives him, lifeless on the floor, where he had fallen against a stove, supposedly just after getting up. Mr. Earp was the first agent of the Big Four Road here and held that position for more than twenty years. He was for a time employed in the old Putnam County bank on the west side and later purchased a hardware store on the west side, in the building now occupied by Charley Kelley. He retired from this business a few years ago.

BIG CROWD TO HERE BRYAN

People of Putnam County Welcome the News That the Great Commoner is to Address Them—One of the Largest Crowds Which Has Been in Town in Years Will be Here.

WILL SPEAK FOR 30 MINUTES

The people of Putnam County welcome the news that Hon. W. J. Bryan, the Great Commoner, is to address them. Since the announcement of the coming of Mr. Bryan in the Herald yesterday, hundreds have called up the Herald office from the county and town, asking full particulars of the speaking. On the streets everyone is talking of the approaching event. One of the biggest crowds which has been in Greencastle in years will be here to see and hear the great man.

Mr. Bryan will speak from a platform to be erected on Sunset Hill. His train, which is scheduled to leave Chicago early Tuesday morning over the Monon, will arrive here at 1 o'clock. The train will stop just west of Sunset Hill and Mr. Bryan will step from his train onto the speakers stand. Col. C. C. Matson has been chosen to introduce him to the people.

R. D. Sullivan, Congressman from Tennessee, will address the crowd until the arrival of Mr. Bryan. The Roachdale band will furnish music during the day. Mr. Bryan will not speak at Roachdale as was announced in Indianapolis papers. His address here will be of 30 minutes' duration and will be the only one he will deliver in Putnam County.

GOOD CROWD FOR MAXWELL

Assembly Room Well Filled to Hear Republican Candidate for Congress From the Fifth District Discuss Current Issues.

SPEECH ON HACKNEYED LINES

Howard Maxwell, Republican candidate for Congress from the Fifth District spoke to a good crowd at the assembly room in the court house last night. The college Republican Club was present and a number of people from the city, both men and women.

Mr. Maxwell's speech was a creditable effort. It was along hackneyed lines, however, and showed no originality, having been compiled entirely from the Republican campaign book, with the addition of the later thought of attacking Bryan directly. He sprang the worn-out idea that bank guarantee meant irresponsible banking. He did not tell how, but left that to the credulity of his audience. He did not tell his audience that the stockholders were liable for their stock and an equal amount of their property, and the breaking of

any bank would mean the ruin of all the stockholders and officers, not an alluring view for bank breakers. He did not state that the Republican ideal of postal savings banks would injure the local banks by removing currency from the local neighborhood and collecting it in the larger business centers. He declared that Bryan stood for a 53 cent dollar, which is not true since Bryan is not now advocating the silver issue any more than those Republicans who stood solid for that issue with the late President McKinley. He also showed the average Republican carelessness for facts in regard to the tariff. He attempted to show that present high prices for farm products were due to Republican tariff, when as a matter of fact it will be remembered that under the administration of Harrison prices were lower than under Cleveland's second administration. And again that during a portion of the Cleveland administration prices were higher than at the present time.

But why go into these details. The speech gave nothing but that all are familiar with, and said the old facts in no new or startling way.

TICKETS ON SALE MONDAY

Monday afternoon at 2 o'clock students of the university and citizens of the city will be given an opportunity to purchase tickets for one of the best lecture courses that DePauw has had in recent years.

The course will open on the last day of this month with Signor Victor's Venetian Band. This one attraction in itself is worth half the price of admission. Victor has a band that is easily the equal of Banda Rosa and one that has a prestige from coast to coast. This attraction is costly and can be relied upon as an entertainment of great merit in the musical line.

The remainder of the course is on a par with the first number. Champ Clark, who closes the course in March, is now one of the biggest men in the National House of Representatives and an orator known the country over. These two numbers alone will sell the course not to mention the four other excellent numbers.

GROGER DRIVER HELD UP

FRANK HALL, DRIVER FOR THE SACKETT STORE, IS ATTACKED BY MAN AT THE WALNUT CREEK BRIDGE, JUST WEST OF TOWN — MAN IS SCARED AWAY BY APPROACHING BUGGY.

HALL PUT UP A STIFF FIGHT

Robber Asked to Be Allowed to Ride To Town and When he Got Into The Wagon Clinched With the Driver—Men Tumble From the Wagon and Horse Runs Away.

What is believed to have been an attempted hold-up occurred late yesterday afternoon at the covered bridge over Walnut Creek just west of town. Frank Hall, driver for the Sackett Grocery Store, was the intended victim. Hall, however, put up stiff fight with the robber and managed to throw him off. The approach of a buggy scared the robber and he ran.

Hall had been to deliver some groceries near Fern. It was late when he reached the bridge on his way home. As Hall drove into the bridge a man standing by the road asked if he could ride to town. Hall told him he could.

The man jumped into the rear end of the wagon and walking to the front grabbed Hall from behind. Hall grappled with the man and both tumbled from the wagon. The horse, taking fright, ran away. As Hall and the man continued to tussle the approach of a buggy was heard. At the approach of the buggy the robber broke loose from Hall and ran down the creek. Hall walked to town and told the officers of the occurrence. The officers immediately drove to the scene but could find no trace of the holdup man.

Holdup Man on the Campus.

The police were called to the college campus last night by a student who telephoned that he had been followed by a man, whom he believed, intended to hold him up. The student said the fellow had acted very queerly and that he had followed him for some distance. The alleged holdup man is described as tall and slender. The police could get no trace of the man.

WOOL-PLATED CLOTHES

A counterfeit gold-plated dollar looks good—for a little while.

But when the gold wears off the fraud shows through.

Same way about wool-plated clothing.

A good deal of clothing is made of shoddy material—wool on the outside, cotton on the inside.

That's wool-plating—but you don't want it.

It looks all right in the store—takes an expert to tell the difference between it and the better kind.

But if you get a wool-plated—or an imitation wool-suit or overcoat, you'll know the difference all right, but then it's too late.

DEPAUW'S POLITICS.

An article that this morning appeared in the Indianapolis Star, from the no longer reliable pen of Louis Ludlow, purports to show the position of DePauw University on state politics. The article is a mixture of things true and not true. It is quite true that DePauw University is for temperance. It is probably equally true that DePauw was unanimous for county option as a method of securing temperance in Greencastle. It is also, probably, quite true that Dr. Gobin and Col. Weaver will vote for James Watson, although knowing, as the Star's article insinuates, what Watson's character, both as a man and a politician is. Both these gentlemen are Republicans and have, so far as we know, never seen any Republican act that deserved criticism. Their stand, therefore, is natural. Of more importance is that statement supposed to come from Dr. Stephenson and Dr. Blanchard. Dr. Stephenson declares that he will support Watson. It is implied that other members of the faculty will also support Watson although they have at times been Democratic. If this is so, then some have changed their minds within the last twenty-four hours. But suppose the political faith of the faculty of DePauw university has been stated correctly, still there is one element of untruth in Ludlow's article that we can not pass. It is stated that these faculty members propose to vote for Watson in order to preserve the county option law. This is not necessary. In the first place no Democrat for whom they have the chance to vote proposes to repeal the county option law. Second, Senator Hemenway himself declares that repeal is impossible unless the Republican senate proves traitor. We, therefore, do not believe Ludlow has given the reason for the faculty vote for Watson, for we are sure the faculty thinks more deeply than the surface of things, and has not been altogether carried off its feet by the shallow oratory of Watson. What the true reason is we can not say at this time, but it is not fear of a backward step in temperance from the Democratic party.

DEMOCRATIC NEWS

Is Just a Sample.

The following exposure of the regard for truth of the Indianapolis Star should set many to thinking:

Of all the political "slush" that has been sprung this year an Indianapolis and a Terre Haute paper will win in a walk as the result of articles telling of the great gains the Socialist party was going to make in Linton and Greene Counties.

It is true that a number of Republicans have announced that they would not vote the Republican ticket this year. An attempt was made to "line them up," but without any success, and for fear that they will go into the Democratic camp an effort is now being made to get them to vote the Socialist ticket. The Socialists will make a gain here and several reasons are given for it. First, a majority of the Frenchmen, and Linton has many, will vote the Socialist ticket; next they have several strong candidates for the township officers, and the greatest factor is that a number of Republicans will vote the ticket because they are against Taft and do not want to vote for Bryan.

A big reward will be paid by the Airdome management for proof of any demonstration that has occurred at that place of amusement as described by the writer over the flashing of the picture of Eugene Debs. As a matter of fact the crowd goes wild when Bryan's picture is shown, while Debs receives a greater applause than Taft.

Speaking by pictures of Debs covering the city, the statement is false and it is very seldom that a picture of the Terre Haute candidate is seen. At a pool room, where the proprietor is a socialist, a three sheet picture of Debs is hanging and it is the only picture displayed in the business section.

When the article appeared the Republicans admitted that it was "what they wanted," the Socialists to waste their votes on Debs. The same writer stated that Bryan was not strong in this district. There is plenty of money, at odds, that he carries the district by a larger majority than he did in 1906. The Democrats of the Second Congressional District, were never in a better shape and the article was to make the Democratic headquarters feel alarmed over the Second District when they should be devoting their attention to other parts of the state.

Chaney's defeat is conceded by Republicans and it is now a question of how many hundred will be beaten. The "staff correspondent" who is reported to have written the articles in question did not come to Linton. —Brazil Democrat.

Industrial Monopoly.

The people ought to realize that they are face to face with a serious condition. Within recent months they must have seen that their own control—such control that is as the public ought to exert—over the transportation system of the country is fast slipping away from them. There has been more railroad mileage absorbed by a few wealthy men—by Harriman in particular—in the last two years than in any previous twenty-five year period in our history. Consider the triumphal march of Harriman! Two years ago when the President turned on him it was thought that he was out of the game. Now he is the most powerful railroad influence in the world. He controls \$1,000,000,000 of railroad capital, and is operating lines from ocean to ocean—several of them. With the exception of the Hill roads, Harriman is practically the master west of the Mississippi. Having made himself supreme there, he turned his attention to the East. As Mr. Lewis showed in The News of Tuesday, this man controls the Baltimore & Ohio, the Norfolk & Western, the Illinois Central, the Georgia Central, the Wabash Pittsburg terminals, the Alton, the Clover-Leaf and the Erie. Just what is the nature of his relation to some of these properties will not be known—till after the election! But that he is master of most of them, and influential in all of them is indisputable. Last of all he broke into the Rock Island only a few days ago, when he advanced money to that company. Practically everything except the Hill roads in the Northwest, the Vanderbilt lines and the Pennsylvania is now under the control of Harriman. The Rockefeller-Harriman combination, Morgan and Hill are today the masters of our transportation system. And these men, let us not forget, are to be "permitted" to increase rates 10 per cent after the election.

What has happened in the railroad

business has happened in the steel industry. Here we have another billion-dollar concern which is the master of the steel industry. Many of the wisest business men believe that this giant trust has, by its policy of keeping up prices, done much to retard the longed-for improvement in commercial conditions. Prices have been kept at a figure so high as to discourage building operations and railroad extensions and improvements. This has curtailed the demand for labor, reduced the capacity of laboring men to consume, and so affected the business of thousands and hundreds of thousands of men all over the country. The trust, instead of putting prices low enough to stimulate the demand, reduces its output, and closes its mills, thus throwing the burden of supporting the idle workmen on the communities in which they reside. In Wheeling, for instance, from 4,000 to 5,000 men have been idle for more than a year. The trust has preferred a comparatively small business at high prices to a large business at low—and yet remunerative prices. So we have an imperial industrialism which is quite indifferent to the general welfare, but which, according to the standpatters, the Government must care for. We believe that the straightest path to the cure of such conditions lies through the reform of the tariff, and a general withdrawal of all special privileges on which these men have fattened. It does not seem to us that it is a good time to talk about protection and prosperity. For the steel trust is protected, and yet it has done much by its methods to delay the return of prosperity.

For our part, we regard the situation as serious. The people will have to deal with it in some way, and at an early day, and this without regard to who is elected President. The problem is one involving the prevention of the concentration of power in the hands of a half dozen men by which they are able to control the transportation business of the country—a business on which the prosperity of every one depends. We must find some way to check this consolidation of manufacturing interests in a few hands, if we wish to give the laboring men a chance for employment. These latter may well consider whether it is to their interest to strengthen the railroad monopoly and the industrial trust, whether it is to their interest to favor a continuance of those high duties under which the trusts have been built up. The situation is full of peril. It is time that the eyes of the people were opened to the danger which threatens them.—Indianapolis News.

UNEARTHING A SCOUNDREL

It turns out that the man who has caused intimating letters to be put in the hands of employees of many large shops is one M. M. Mulhall. He has worked under the name of the "Workmen's Protective Association," which is the name he signed to all of his "scare" letters. On being run to earth he said he was working under the instructions of the Republican national committee.

It appears also that he has been on close terms with the Republican state committee and the Republican county committee at Indianapolis. From other evidence it is also clear that he is a tool of VanCleave of the National Manufacturers' Association. Mulhall's headquarters in Indianapolis adjoined the office of the "Employers' Association," which provides "strike breakers," that is, men to take the places of striking workmen.

Chairman Ruckelshaus of the Republican county committee at Indianapolis, speaking of Mulhall and his work, said:

"I understand he represents the Republican national committee and that he has his own line of work to do. The first I heard of him was when Fred Sims, acting chairman of the state committee, told me about him. I understand that Mulhall has been doing some very effective work."

"Very effective work" along the coercive line seemed to please the Republican managers, but it did not please the labor organizations and other fair-minded citizens. The Indianapolis labor organizations held a meeting and denounced Mulhall and his nefarious work and ordered 50,000 circulars printed for distribution among the workmen of the city, showing him up. The unearthing of Mulhall and his scheme will turn thousands of votes from the Republican party, for which he was working.

A DELIBERATE UNTRUTH.

Roosevelt, Taft, Hughes and others have said that the Democratic party has done nothing against the trusts. This statement is not true. The Democratic party has done practically all that has been done against the trusts. Roosevelt has talked about the trusts, but he has not only done nothing to suppress the old ones, but has allowed hundreds of new ones to be formed during his administration. On the other hand the Democratic party wherever it has been in control, has passed and enforced laws to curb these commercial pirates. The Democrats have had no control of the national government for twelve years, but in every state where they have been in power the trusts have been forced to obey the laws made to stop their aggressions. Roosevelt, Taft, Hughes and the rest know that this is so. They purposely and deliberately misstate the truth.

THE SECRET CONTRIBUTIONS OF 1904.

(From the Commoner.)

Prior to election day in 1904 Democrats learned that representatives of the special interests were providing the Republican party with campaign funds. Mr. Roosevelt hotly denied the accusation, denouncing the Democrat who made it as a liar.

Later it developed that E. H. Harriman had collected \$260,000. This money came from Standard Oil officials and others, the detailed contributions being as follows:

Edward H. Harriman.....	\$50,000
H. McK. Twombly (representing Vanderbilts).....	25,000
Chauncey M. Depew, personal.....	25,000
James Hazen Hyde.....	25,000
Equitable Life.....	25,000
J. Pierpont Morgan.....	10,000
George W. Perkins (New York Life Insurance Co.).....	10,000
H. H. Rogers, J. D. Archbold, William Rockefeller (Standard Oil Co.).....	30,000
Cornelius N. Bliss, personal.....	10,000
James Speyer and banking interests.....	10,000
"Seven friends" of Senator Depew (\$5,000 each).....	35,000
Sent to Mr. Harriman in smaller donations.....	20,000
Total.....	\$260,000

Does anyone believe that Mr. Roosevelt would have dared tell the people, prior to election day, that these men had contributed \$260,000 to his campaign fund?

But Mr. Roosevelt insists that the people must trust the Republican managers and that the source of the Republican party's campaign fund will not be revealed until after the election. And Mr. Taft—Mr. Roosevelt's candidate for the presidency—echoes this Roosevelt sentiment.

ROOSEVELT AND HEARST.

Two years ago President Roosevelt—who is now working hand-in-hand with Hearst for Taft—sent Secretary Root to New York to deliver his opinions of Hearst, in a speech at Utica. Listen to what Mr. Root, declaring that he spoke for the president, upon that occasion, had to say about Mr. Hearst:

"I say to you with his [Roosevelt's] authority, he regards Mr. Hearst as wholly unfit to be governor, as an insincere, self-seeking demagogue, who is trying to deceive the workmen of New York by false statements and false promises.

"Listen to what President Roosevelt himself has said of Mr. Hearst and his kind. In President Roosevelt's first message to congress, speaking of the assassin of McKinley, spoke of him as inflamed by the reckless utterances of those who on the stump, in public press, appeal to the dark, evil spirits of malice, greed, envy, and sullen hatred. The wind is sown by men who preach such doctrine, and they cannot escape their share of the responsibility for the whirlwind that is reaped. This applies alike to the deliberate demagogue, to the crude, foolish visionary who, for whatever reason, apologizes for crime or excites aimless discontent.

"I say by the president's authority, in penning these words with the horror of President McKinley's murder fresh before him, he had Hearst specifically in his mind. And I say, by his authority, that what he thought of Mr. Hearst then, he thinks of Mr. Hearst now."

And the question now is, what, aside from Hearst's support of Taft, has Hearst done to win the president's approbation? Who are the Republican candidates, anyhow? Is Hanly or Watson the candidate for governor? Is Roosevelt or Taft running for president? As a matter of fact it seems as if the Republican party is so badly demoralized that there is no certainty about its program. It doesn't "know where it is going, but it is on the way."

WILL PROSECUTE FOR COERCION OF EMPLOYEES

Chairman Jackson Issues Strong Statement Calling Attention to the Law.

Reports of attempted intimidation of employees having been brought to his attention, Chairman Jackson of the Democratic state committee, at once announced his purpose to resort to the criminal laws to stop such cowardly practices. In a published statement he said:

"Special information has come to me that certain corporations and other employers of labor, whose names are in my possession, are attempting to coerce and intimidate their employees into giving support to the Republican party, contrary to their political beliefs. An especially offensive circular letter, signed 'Workmen's Protective Association,' is being delivered to employees in several Indianapolis shops. This letter may not be a fraudulent device of the Republican state committee, but its distribution with the knowledge and consent of employers is sufficient to make them parties to the offense.

"The statutes against coercion and intimidation are broad enough to cover, and do cover, acts of the kind which the concerns whose names are in my possession have either done or permitted to be done in their establishments in the interest of the candidates on the Republican ticket.

"It may as well be understood now as at any time that neither the purchasing and law-abiding public nor the Democratic party will submit to the perpetration of these outrages on independent citizenship. A fund of \$5,000 has been set aside by the Democratic national committee to prosecute all persons who violate the coercion laws. The Democratic state committee has reserved a fund for the same purpose. Besides, I will pay \$25 to each person who furnishes to the Democratic state committee evidence which will contribute to the conviction of any person, firm or corporation guilty of the cowardly and contemptible crime of debauching or attempting to debauch, coerce or intimidate employees.

"Not only will the specific statutes against intimidation and coercion be invoked, but every other honorable means available will be used to stop the partisan and disreputable practice to which attention is called. It is time that Republican corporations, firms and persons employing labor should be taught that the impudent coercion or attempted coercion of their employees will not again be tolerated, and that such a practice will prove to be disastrous to those who undertake it. Public sentiment will no longer endure this peculiarly vicious offense against American citizenship.

"The purchasing public will demand to be, and will be, informed as to the identity of the firms, persons and corporations who engage in this short-sighted and partisan business, and will from the facts, make up their minds as to who are and who are not worthy of the patronage of fair-minded persons."

HANLY "NOT A \$5,000 MAN."

The difference between the cost of a highly moral and suspiciously virtuous governor like J. Frank Hanly and a plain, everyday man and Democrat like Claude Matthews merits the thoughtful consideration of taxpayers. Not only Matthews, but Gray, Hovey, Porter, Hendricks and others were content with a \$5,000 salary and other moderate appropriations for the governor's office. But not so Hanly. He wants it understood that he is a high-priced man. In a speech at Crawfordsville on October 5th he said:

"I told you when I was a candidate that if the salary was to be kept at \$5,000 that I did not want the office. I told you that I was not a \$5,000 man. I have tried to make good and I can truthfully say that I have saved the state hundreds of thousands of dollars."

The governor does not give the figures showing how or where he has "saved the state hundreds of thousands of dollars"—and he can not do so—but the figures showing the cost of the governor's office under him and under Matthews are at hand. The figures given below are the appropriations for the governor's office during the terms of Hanly and Matthews. For the Hanly appropriations see Acts 1905, p. 502, and Acts 1907, p. 671. For the Matthews appropriations see Acts 1893, p. 361, and 1895, p. 304. And here is the result:

Cost under Hanly (4 years).....	\$227,900
Cost under Matthews (4 yrs.).....	49,280

Increased Cost Under Hanly.....\$178,620

Governor Hanly, of course, contends that all of this immense sum was spent properly. But why did he need so much more than his Democratic predecessor?

In the 1893-4 so-called Democratic "panic" there were seventeen bank failures. In the 1907-8 panic in Roosevelt's administration, forty-three banks stopped payment and hundreds more arbitrarily limited the amounts that depositors could draw.

HANLY'S RELATIONS WITH PINKERTON DETECTIVES.

Now that Governor Hanly is abroad in the state declaring that he is not a "cheap man" and that he would have refused to take the governorship at \$5,000 a year, it is recalled that in addition to having the legislature allow him \$9,800 a year for salary and house rent, he persuaded it to put \$40,000 a year into his hands for "contingent" and "emergency" expenses. It may be interesting to the taxpayers to know the way in which some of this fund has been used. A few items taken from the records in the state auditor's office, show, among other things, that the governor has been a good customer of the Pinkerton detective agency. Payments made to the Pinkertons are as follows:

Total.....	\$3,203.50
Payments to four other detectives, including his friend, R. Harry Miller.....	\$666.74
To another "investigator," Will W. Failing.....	140.00
Grand total for detectives.....	\$4,010.24

We do not undertake to say that the above sum is all that Governor Hanly has paid to detectives out of his contingent fund, but it is large enough to show the close relations between the present governor of Indiana and the Pinkerton detective bureau.

DEPAUW NEWS

CAMPAIGN IS SUCCESSFUL HOLD CEREMONIES MONDAY

Y. M. C. A. ADDS 146 NEW NAMES
TO THE LIST OF MEM-
BERS.

OFFICERS ARE WELL PLEASED

At the meeting of the Y. M. C. A. "boosting" committee last night it was learned that one hundred and forty-six new members had been secured, swelling the membership to approximately three hundred.

From the number of Y. M. C. A. cards, which literally glared from the coat lapels of DePauw students yesterday morning the future of the college local organization is assured.

Nearly every member of the faculty appeared, decorated with a "booster" card and student after student fell into line swelling the number to a high mark.

The members of the committee on "boosting" took supper together last evening and there the returns were brought in. The supper was turned into a sort of celebration for the grand success of the affair.

An informal discussion of the Geneva Conference held this summer was given and the following men, who were present talked upon the international gathering: H. W. McLean, Charles Whitehair, W. Brooks, Guy Rhom and Fred Greenstreet.

CORNER STONE OF PROPOSED
SIGMA CHI HOUSE TO BE
LAID.

MANY ALUMNI TO BE HERE

The corner stone of the new Sigma Chi chapter house will be laid with an informal ceremony, Monday, October 19, at 2:30 p. m., the weather permitting. A short address will be delivered by the Rev. W. R. Halstead '71, of Terre Haute, and this will be followed by the laying of the stone by the Hon. S. A. Hays, '72, of Greencastle. A number of articles, including copies of the current fraternity publications, an alumni directory, the roll of the active chapter, and a copy of the DePauw Daily, will be sealed in the stone.

This will be the first building erected on the DePauw campus exclusively for fraternity purposes. It will be the gift, without incurrence of the alumni association of Xi chapter, organized under the club statute of Indiana, and the members of the active chapter have nothing whatever to do with it. Unlike most associations having a similar purpose, it is not a stock company.

An invitation has been extended to the members of the faculty and to the students of the university to be present at this ceremony.

OLD THEORY IS EXPLODED

IT IS NOW THOUGHT THAT
GIRLS ARE IMPLICATED
IN "MOLASSES" CASE.

NO CLEW TO IDENTITY KNOWN

The latest development of the now celebrated "molasses case" came to light yesterday when it was ascertained that upon the night that the deed was perpetrated it would have been impossible for outsiders to have gained access to the building. The first supposition that it was a crowd of boys who originated and accomplished the joke has now given way to an almost unanimous opinion that the affair was carried out by girls at the dorm, who wishing to frighten their more timid sisters of the third floor stole the molasses from the kitchen and disguised themselves in masculine attire.

As yet no clue has been obtained that would lead to the identification of the culprits although every effort is being put forth by the authorities to prevent another like occurrence.

"SPIKE" PRACTICALLY OVER

ALL CONCERNED ARE GLAD TO
WELCOME THE END OF
THE SEASON.

"PLEDGE DAY" SET FOR MONDAY

Monday will see the culmination of the long sorority spike for upon that day the prospectives will receive written invitations to come to the various sorority houses. An acceptance of the invitation will mean in reality an acceptance of the proposition. Upon all sides expressions of relief are heard as the spike has been a long and strenuous one for both the older girls and the younger ones who have been receiving their attentions. As far as can be ascertained at this time over seventy girls of the freshman class will receive invitations to join the seven Greek Letter sororities represented in this school. Although in most cases the prospectives have indicated their choice there is considerable interest and anxiety manifest among the students. That the long spike is a wise precaution is the unanimous opinion of all concerned although its conditions at times were exacting.

The last of the series of spiking parties to be given by the sororities will come this evening when the Delta, Delta, Deltas will take their prospective pledges to Indianapolis to see Rose Stahl in the "Chorus Lady." After which they will dine at the English cafe.

TO RECEIVE NEW MEMBERS

PRESS CLUB WILL MEET ON
NEXT MONDAY AT THE
DEKE HOUSE

THE PROGRAM IS ANNOUNCED

The first regular meeting of the DePauw Press Club, at which new members will be received and interesting talks made will be held at the Deke House Monday evening.

This is the second meeting of this college year but in reality is the first meeting at which the regular program is carried out. Prof. Barnes will be there to address the members, and there will be papers by Roy Millikan, Charles Fisher and Eugene Pulliam, each dealing with some phase of newspaper experience. All these articles will deal directly with an actual experience.

The feature of the evening will be the installation of new members. Last month a number of new men were elected to membership and at this meeting will be greeted as full-fledged members.

DESTROY PUMPKINS

Vandals Enter Dr. Stephenson's Garden and Take First Fruit.

Thursday night a gang of vandals entered Dr. Stephenson's garden and carried off a large pumpkin. It was placed in a vase on the campus and numerous signs of varying degrees of nonsense were placed above it or carved on it.

When interviewed regarding the matter Dr. Stephenson stated that the pumpkin had been carried off without his consent. He said also that it was the largest pumpkin he had ever seen and that while he hated to lose it by carrying it off anybody had any fun they were perfectly welcome to the pumpkin.

Mrs. Ada L. Croom, the widely known proprietor of the Croom Hotel, Vaughn, Miss., says: "For several months I suffered with a severe cough, and consumption seemed to have its grip on me, when a friend recommended Dr. King's New Discovery. Sold at the Owl Drug Store. 50c and \$1.00. Trial bottle free.

"Lobelia," demanded Mr. McSwat, "I want to know what you've been doing to my safety razor?" "Nothing," was Mrs. McSwat's indignant answer, as she moved around with slight limp. "Besides, Billinger, I don't believe it's a safety razor, anyway!" - Chicago Tribune.

IN EXISTENCE AGAIN
AT DEPAUW.

THE OFFICERS ARE ELECTED

Students in the Art School have organized an Arts and Crafts Club. The organization existed some time ago but has not been active for several years.

The club will meet every Wednesday evening in the art hall. The club's membership of some twenty-five students are each expected to contribute work along the arts and crafts line. The purpose is to enable those interested in this work to profit from the friendly criticism and mutual helpfulness of their fellows. The work includes designing in metals, woods, tapestries, etc., and to the applying of artistic designs to useful things.

The officers for this term are president, Miss Hazel Hurt; secretary, Miss Gladys Carrot, and treasurer, Miss Myrtle Posey.

DISCUSSES PEACE PROBLEM

MISS MINNETTA TAYLOR AD-
DRESSED PEACE ASSOCI-
ATION YESTERDAY.

PRESENTED HER SUBJECT ABLY

Miss Minnetta Taylor the accomplished linguist and club woman addressed the DePauw branch of the Inter-Collegiate Peace Association yesterday afternoon. Miss Taylor's subject was "International Peace." She spoke in part as follows:

"We will consider briefly this afternoon whether or not international peace is compatible with the onward march of twentieth century civilization. The general effect of war is to compound the genius of sculpture, painter, poet, landscape, gardener and architect. The individual effect is far more depressing. A noted London surgeon stated in his book that it would be well for England if every ship carrying soldiers from India would sink in mid ocean. They are too corrupt to associate with civilized people. This is an example of the effects of war.

"But how are we to secure the world-wide peace. God sometimes works for good with calamity. The old European nations are becoming too poor to longer support great armaments. Then the greatest and strongest nation will by her own example bring this about. This is America's goal. Then will our soldiers of war be stripped of their crowns of laurels and on the fair brow of that new ideal will they be placed, on the brow of the Soldier of Peace."

WINONA TECH. GAME TODAY

SLUMP PRECIPITATES A CHANGE
OF BROWN'S MEN IN
LINE-UP.

EXPECT TO TAKE GAME EASY

Yesterday saw a decided slump in the kind of football stuff the varsity put up. The team seemed to lack ginger and the lineup was changed a dozen times during the short practice. Such a showing just before the Winona game this afternoon is not promising for a large score against the visitors.

The Winona Tech team is stronger than it is generally rated to be and will hold the varsity to a low score. "We'll do well," said the coach, "if we register more than thirty points against Winona."

Some changes have been made in the lineup since the Indiana game in hopes of improving the offensive work of the team. Today's game will have a backfield averaging about one hundred, seventy pounds to the man and one that is fast at the same time. The lineup shows Schladerman and LeVan at half behind, both having been worked out at the place for a couple of weeks. Stansell, a freshman will probably get a chance at right tackle during the contest. There are no cripples on the list of regulars.

The team will lineup as follows:
Jackson left end
Harmon left tackle
Whitehair left guard
Lawrence center
Ward right guard
Dewey, Stansell, .. right tackle
Whistler right end
Grady, Overman quarter
Schladerman, LeVan .. left half
Denison full back
Greenstreet right half

CANDLEFISH.

The Oil Is Used as a Medicine by the
Natives of Alaska.

The candlefish is about the size of a smelt and so fat that when dried and lighted it throws off a blaze of sufficient power to be used for illuminating purposes, says Forest and Stream. Before the advent of the white man and his candles these fish were used by the Alaskan natives for that purpose.

The Indians claim that candlefish possess valuable medicinal qualities, and candlefish oil is used by them as a universal cure for consumption. Hundreds of pounds of these fish are buried and left in the ground until they begin to decompose; then they are removed and dumped into a wooden receptacle, a hollowed out log, or more often, a dugout canoe that has passed its usefulness as a craft. Water is then added and the putrid mass is brought to a boiling point and kept simmering by plunging into it boulders that have been heated. The oil is thus gradually tried out, and after it has gathered on the surface, thick and clear, it is drawn off and placed in large wooden receptacles. A consumptive patient is liberally dosed with this oil. He drinks it by the pint and is bathed in it several times a day. To meet one of these dirty, sickly, greasy Indians is one of the most repulsive sights imaginable. Nevertheless persons in a position to know say that after several weeks of this treatment a native who once seemed to be in the last stages of the disease becomes as robust and looks as healthy as a perfectly strong man.

Where Bullets Flew.

David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done for me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic, and they keep me strong and well." 50c at the Owl Drug Store

LABOR COMES FROM BRAZIL

Large Delegations From Clay County Unions Come Here to Welcome Gompers This Afternoon.

TWO MEN FROM EACH UNION

All arrangements have been made to give a grand reception Saturday evening to Samuel Gompers, president of the American Federation of Labor, when he arrives to speak to the laboring men. "The Grand Old Man of Labor" as he is affectionately known to the working men of the country, will arrive in this city at 6:30 o'clock Saturday evening and a meeting of the representatives of the various trades and labor unions was held at the miners' hall last evening to appoint a reception committee to go to Greencastle to meet Mr. Gompers and party and escort them to this city.

Patrick Golden, president of the United Mine Workers of District 8, was chosen chairman of the meeting last night and Joseph W. Williams was secretary. A number of short talks were made endorsing the action of Mr. Gompers in touring the country in behalf of Bryan on account of the injunction and labor planks of the Democratic platform.

It was decided that two men should be selected from each local union to compose the reception committee, which is to go to Greencastle tomorrow afternoon to meet Mr. Gompers and party. The following members of the reception committee were selected:

Carpenters' Union, Albert Whitner and Lawrence King.

Painters' Union, William Marshall.

Clerks' Union, Joseph Dial and Paul Becker.

Printers' Union, Charles Barton and Ivan Glidewell.

Miners' Union, Sam Lynch and Patrick Golden.

Bricklayers' Union, Fred Butterman and Dennis Vanbibber.

Hod Carriers' Union, William Nichols and John Kennedy.

Electrical Workers' Union, L. M. Moore and William Reed.

Barbers' Union, Ira Erkert and Fred Thompson.

Blacksmiths' Union, Peter Anderson and William Rush.

Cigar Makers' Union, Charles Harris and Ernest Kern.

The committee will leave for Greencastle at 3 o'clock Saturday afternoon where they will meet Mr. Gompers and party. Mr. Gompers will arrive in the city at 6:30 o'clock tomorrow evening and will be taken at once to the wigwam on north Walnut Street, where he will speak for nearly an hour. Other union leaders will follow Mr. Gompers.

Samuel Lynch, of the United Mine Workers, has been selected to preside at the meeting and introduce Mr. Gompers.—Brazil Democrat.

BRICK ROADS IN COUNTY

Marion County Commissioners Decide on More Permanent Rural Roadway.

\$12,000 TO \$30,000 PER MILE

County Commissioners John McGregor, John Mendenhall and William H. Roberts of Marion County have returned from Delaware County, where they became enthusiastic as to the desirability of building brick roadways in the county districts.

The trip to Delaware County was made after a petition had been filed with the commissioners by eighty property owners in Warren township, asking for permission to build a brick road from the east line of Cumberland for three miles west toward Indianapolis. It is the aim of the petitioners eventually to obtain a brick road all the way from Cumberland to Indianapolis, a distance of six miles, but the road law makes three miles the limit for one petition. If the road is ordered, Warren township, as a whole, will have to pay for it.

County Commissioner Mendenhall said yesterday that the Marion County Commissioners found that the township in which Muncie is situated is spending \$400,000 in "bricking" county roads leading in all directions out of Muncie. The commissioners were delighted with what they saw, and it is their opinion that brick pavement in the county would be cheaper in the long run than gravel or crushed stone roads which have to be repaired constantly.

"When the Warren township petition was presented the other day, I was inclined to oppose paving county roads with brick," said Mr. Mendenhall. "But after I saw the roads in Delaware County I was converted to the belief that brick roads are a good thing."

The commissioners learned that in Delaware County roadways twenty two feet wide were being paved and gutters and curb added at the expense of about \$30,000 a mile. Roadways sixteen feet wide, with straight curb, were being paved for about \$12,000 a mile.

Mr. Mendenhall said that when it was taken into account that broken stone roads cost about \$8,000 a mile, paved roads which would not have to be repaired often would not be expensive in cost.
