

THE LEAGUE EXPLAINED BY WOOLEN

PROMINENT INDIANAPOLIS
BANKER ADDRESSES LARGE
AUDIENCE HERE WEDNESDAY
EVENING—MISS CHARL WILLIAMS,
OF TENNESSEE, TELLS
OF WOMAN SUFFRAGE RATION

Evan Woolen, president of the Fletcher Savings and Trust Company of Indianapolis delivered an address at a Democratic meeting here last night, in which he offered explanations to objections that are urged against the League of Nations and defended the League of Nations Covenant.

The meeting was in charge of James L. Randel as chairman, who first introduced Mrs. Charles Leutke, Mrs. Ivers Stringer and Miss Bray, who accompanied by Miss Helen Wilson on the violin and Mrs. Edgar E. Barker on the piano delightfully sang "Beautiful Ohio" and responded with an encore number.

James H. Strain for many years a Republican who in this campaign has tired of the campaign of misrepresentation by Senator Harding and his campaign associates sang a song of his own composition, greatly to the delight of the audience.

Miss Charl Williams, vice chairman of the democratic National committee, and the leader of the suffrage forces in the fight for suffrage in Tennessee, entertainingly told of the final stand of the Suffrage forces in Tennessee, the state, which by its ratification of the Constitutional amendment, gave the women of the nation the ballot in the present election.

Mr. Woolen in his address, said, in part:

"It is objected that we might be compelled to receive immigrants from Japan or China. To the contrary, immigration is by international law a domestic question completely within our own control and not subject to either arbitration or mediation.

"Indeed no nation can be required, under the covenant to submit any question to arbitration. Neither is any nation under obligation to comply with a mediation report. It is contended that a plan which provides no requirement either for arbitration or for compliance with mediation is an incomplete plan, we admit, the contention and claim it as a merit of the covenant that its framers did not try to go too far without experience.

Another objection is that under the obligation not to resort to war until three months after a dispute has been arbitrated or inquired into by the league's council, we would stand defenseless in the presence of a Mexican border raid. To the contrary, a nation disregarding its obligations under the covenant, as Mexico would in beginning an attack, thereby and thereupon surrenders its rights and the attacked nation is instantly free for self defense.

Congress Holds Power

"The objection most insistently offered is that our sons, at the order of the league will have to fight the battles of Europe. To the contrary, we answer, first, that the covenant of the league was framed and accepted in the presence of the fact, with notice of which the whole world is charged, that under our constitution no power can order our sons into battle except our own Congress. This is not to say that Congress in any instance would feel free to disregard our moral obligations as a member of the league but it is to say that Congress in every instance would be free to determine in its own unlimited discretion what were and what were not our moral obligations. We answer, second, waiving the argument the protection of our constitution, that the league has no power to order and nation to contribute soldiers. The League has no power in the matter of armed forces except to advise and recommend. We submit accordingly that when Senator Harding criticizes the League of Nations as a 'military alliance' he is not fair.

"Neither is he or Senator Lodge fair in reference to the Russian-Polish war. The latter has said that had the treaty been ratified we would have had to enter the war if summoned.

KAPPA ALPHA THETA ALUMNAE CLUB MEETING IS POSTPONED

The meeting of the Kappa Alpha Theta Alumnae Club which was to have been held next Saturday with Mrs. Stunkard of Brazil has been postponed on account of the serious and continued illness of the brother of Mrs. Stunkard and Miss Ridpath. The new date for the meeting will be announced later.

ALBIO NMEETS DEPAUW TIGERS HERE TOMORROW

FIRST FOOT BALL GAME OF THE
SEASON FOR GREENCASLE
WILL BE PLAYED ON THE
MCKEEN FIELD—DE PAUW HUSKIES
ARE IN GOOD TRIM

The Albion College (Michigan) football team will come to Greencastle tomorrow for the first football game of the season on the DePauw field. The Albion team, one of the leading athletic teams in Michigan, is expected to give the DePauw Tigers a fierce fight for the honors of the day.

Although the Tigers have been through two hard games in the past two weeks, they are in tip top shape to give the visitors a scrappy and fast game. DePauw expects to win but the Albion team is of such a class that the local players may be given a surprise.

"TOO TOO" TRAIN AND A SOAP BOX ORATOR ENTERTAIN

An automobile all dressed up like a "too too" engine, at a great expense, (but what do the Republicans with a 20 million dollar campaign fund care for expense) which had been nicknamed the "Harding and Coolidge Special" arrived in Greencastle Wednesday evening.

It is not known whether the "Too Too Train" was intended to represent a new form of "G. O. P." road roller or to simply represent an "April Fool" automobile, significant of the "April Fool" attitude of the Republican Candidate on the League of Nations Covenant.

The "Special" proved a great attraction to the little folks and very, very, very, convincing to the older people that the present Republican campaign is one of an April Fool character.

In the wake of the "Too Too" train came a soap box orator, who doing the off season in campaigning probably travels in a covered wagon and sells corn cure or some "Wonderful Herb Medicine." He was accompanied by some song and dance artists, who put up a pretty good street show which proved entertaining to the youngsters after they had tired of looking at the "Santa Claus" creation.

The soap box orator was introduced by B. F. Corwin (let it be said here that Mr. Corwin is entirely innocent as the job was wished upon him by the powers that be, without giving Mr. Corwin any information regarding the character of the performance which was to follow his part of the program. Corwin seemed much ashamed of it, so ashamed in fact that after the show had begun, he pulled his hat down over his face and got back as much out of sight as possible.)

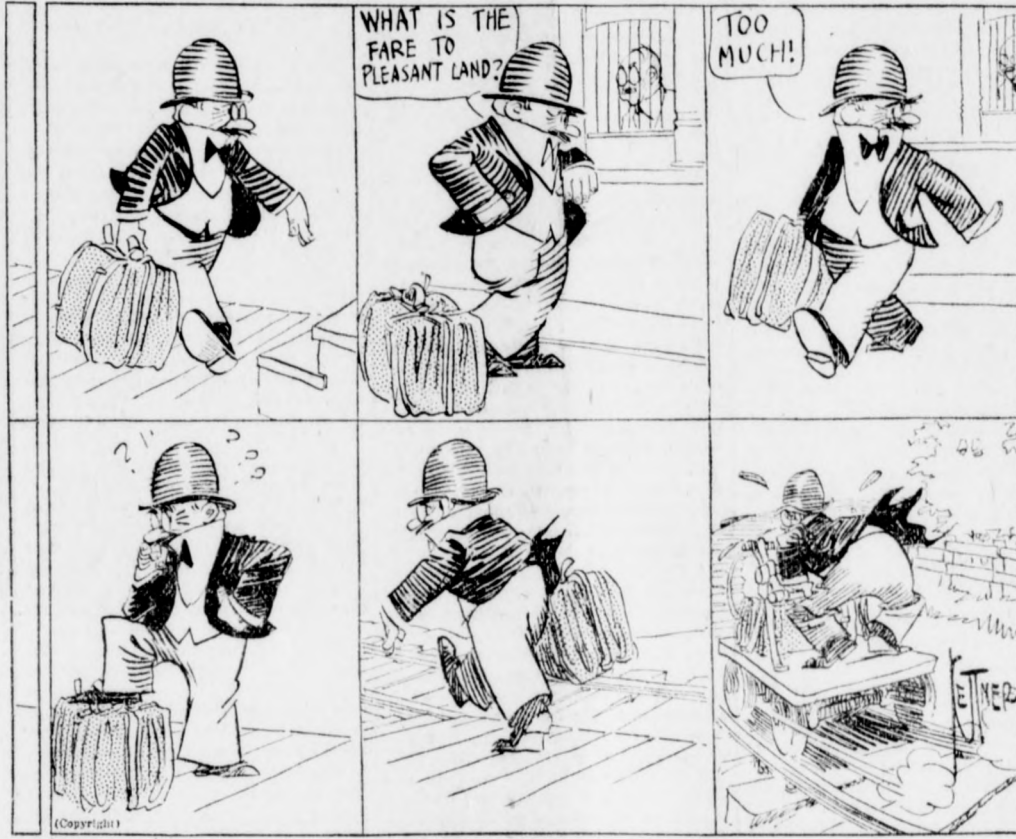

Following his introduction (no matter what his name, you never heard of him before and probably never will again) the "Soap Box Special" who has wonderful black hair, wears a brown suit and speaks from the mouth out, soared into the very heavens in his oratorical upheaval. He tore his hair, shed copious tears and heaved sighs galore.

Once in a while he would stop, catch his breath, take the hair out of his fingers and then launch out on another outburst.

Yes kind reader, this edifying and enlightening event occurred in Greencastle, Indiana, October 13, 1920, in the court house yard.

The Greencastle schools will be dismissed on Thursday and Friday of next week so that the teachers may attend the State Teacher's Association meeting in Indianapolis.

Ol' John B. Thrift, Sr.

KILLED IN AN ATTEMPT TO ESCAPE

HERBERT C. McGRANNAHAN, SENTENCED TO PENITENTIARY FOR ROBBERING GREENCASLE HOMES—KILLED BY PRISON GUARD

MICHIGAN CITY, Ind., October 13.—Herbert C. McGrannahan, who was being transferred with twenty one other prisoners from the state reformatory at Jeffersonville to the State Prison in this city attempted to escape from officers on a Monon railway train last night and was shot to death near San Pierre. McGrannahan was received at the reformatory from Greencastle, March 17, 1920 to serve a term of from 10 to 20 years for burglary. McGrannahan was convicted of robbing the Neely O'Hair and Mrs. James B. Tucker home.

The prisoner was killed by Solon C. Vial, who was assisting in the transfer of the men.

The shooting quelled a determined effort to overcome the guards in a break for liberty in which two of the three guards had been thrown down. The reformatory party arrived here at 11 o'clock last night.

The men were placed in a special car which was attached to a Monon train yesterday. They were shackled in pairs but not handcuffed. An officer rode at each end of the car and another man rode the car keeping an eye on the prisoners. They were said to be the most desperate men transferred for years.

Two men at each end are said to have started for the toilet when the signal was given and the rush was made. Vial usually does not carry a weapon but foiled the convicts this time by having a revolver and using it. McGrannahan was about twenty four years old.

Serving Long Terms

All the men are serving long sentences and several besides McGrannahan have had records. Herbert Led, better another man sent to the penitentiary from Putnam county was also among the prisoners.

HOSPITAL MEETING THURSDAY NIGHT

There will be a meeting of all those interested in a hospital for Putnam County, at Dr. McGaughey's office, tonight at 8:30 o'clock.

MARRIAGE LICENSES

Howard Rockhill and Muriel Rector, both of Greencastle.

There will be a round dance this evening at the Red Men's Hall. All are invited.

GET READY FOR COLD SNAP: IT'S OFFICIAL

WASHINGTON, Oct. 13.—Warning of a cold snap in the northern and middle sections of the country within a few days was given today by the weather bureau in a special bulletin which said:

"The indications at this time are that the prolonged spell of exceptionally fine weather over the middle, western states will end shortly.

THE LEAGUE OF NATIONS

Article 22 of the Covenant is the famous compromise of the territorial greed of the Allies and Japan. The task of the article was to dispose fairly of the German and Turkish colonies. It instituted the so called mandatory system and was devised by President WILSON. It abolishes the custom on the part of great nations of grabbing land and subjugating peoples by the force of might, and establishes instead a general protection of the weak and uncivilized peoples of the earth under the auspices of the League. Civilized nations like Armenia and Albania are left free to choose the nation which they desire to receive a mandate for their government, and that nation is subject to a review of its actions by the League. Also it may reject or accept a mandate, according to the will of its Government and people. For instance, Armenia and the League desire the United States to accept a mandate for Armenia, but it rests wholly with the United States whether it will agree to do so.

Uncivilized peoples like the African and Pacific Islands tribes had mandates placed upon them by the League and the nations accepting these must render strict account of their government.

This solution of one of the most difficult problems at the Peace Conference is the greatest constructive statesmanship in the Covenant.

To those colonies and territories, which as a consequence the late war had ceased to be under the sovereignty of the States which formerly governed them and which are inhabited by peoples not yet able to stand by themselves under the strenuous conditions of the modern world, there should be applied the principle that the well being and development of such peoples form a sacred trust of civilization and that securities for the performances of this trust should be embodied in this covenant.

The best method of giving practical effect to this principle is that the tutelage of such peoples be entrusted to advanced nations who, by reason of their resources, their experience or their geographical position, can best undertake this responsibility, and who are willing to accept it and that this tutelage should be exercised by

PLANS FOR A HOSPITAL ARE RECEIVED HERE

COMMITTEE INTERESTED IN
THE ERECTION OF A PUTNAM
COUNTY HOSPITAL, SECURE
PLANS AND DRAWINGS, IN ORDER
TO SHOW VOTERS WHAT
THEY MAY EXPECT

In order that the voters of Putnam county who will be called upon soon to vote upon the proposed Putnam County Hospital proposition, persons in charge of the hospital project have had some plans and drawings of the proposed hospital prepared by Indianapolis architects and these plans can be seen at the office of Dr. J. F. Gillespie.

It is proposed to have several copies of the plans made so that they can be sent to several parts of the county. The plans propose a two story building with a large basement.

The architects have arranged for ten private patient rooms. Four of these rooms will be provided with communicating baths. Two wards will be provided each having four beds. Two maternity rooms, one nurse's room of four bed capacity, one superintendent's room, with bath, one office, suitable kitchen, dining room, and pantry, diet kitchen on each floor. General toilets in different parts as shown.

The second floor will contain further, one operating room, one sterilizing room and doctor's scrub room. The second floor will be accessible by means of stairway, also one large passenger elevator, which is so designed as to take patients up in cots. There will be a dumb waiter in the several diet kitchens. There will also be one sun porch on the first and one on the second floor. The steam heating plant with its accessories will be located in the basement.

estimated roughly that the building can be erected ready for occupancy, with the exception of furnishings, office furniture and operating equipment for ninety five thousand dollars.

Of course the equipment, such as beds and room furnishings, office furniture and operating equipment would have to figure in addition to this amount. However, the local committee have enough promises from individuals and organizations to guarantee that all the rooms will be furnished.

John H. James and his daughter, Mrs. Bessie Redsecker will drive to French Lick tomorrow to visit Mrs. James and Miss Kathleen James who are already at the springs. Mrs. James and Miss Kathleen may return home with Mr. James Sunday.

EUGENE M. ANDERSON TO GET FRENCH AWARD

INDIANAPOLIS, Oct. 13.—In an announcement made public yesterday by Capt. Charles Denbeck, in charge of the marine recruiting station here, 128 men who served in the marine corps from Indiana are entitled to wear the French fourraere. In the list the name of Eugene M. Anderson appears.

The fourraere, miniature fourraere for civilian wear and authorization cards have been received at the recruiting station for each of the 128 men. They may obtain them from Capt. Denbeck either by presenting or sending discharge papers.

AN AUTOMOBILE THIEF TRACED TO THIS CITY

BUICK CAR STOLEN IN VINCENNES IS TRACED TO GREENCASLE WHERE THEY BOUGHT GASOLINE WEDNESDAY EVENING, ACCORDING TO THE MEN WHO ARE IN PURSUIT.

Four Vincennes men who are looking for a thief who stole a Buick touring car in that city Wednesday, arrived in Greencastle this morning hot on the trail of the thief.

The Evansville men say that they traced the thief to Greencastle and that he bought eight gallons of gasoline of a local garage man Wednesday evening.

At near 3 o'clock this afternoon the thief and the stolen car were located at Brownburg, near Danville. The thief proved to be a boy, 19 years old by the name of Albert Montgomery. The boy was sent to Plainfield from Vincennes and was paroled to Albert Eiteljorge of this county last spring.

About three weeks ago he left Greencastle and went to Vincennes. He arrived here from Terre Haute Wednesday afternoon and passed three bad checks, Jacob McCurry, H. R. Nicholas and the J. F. Bailey grocery being the victims.

M'CRAY STANDS FOR HIGHER TAXES

SCOTTSDURG, Ind., Oct. 13.—Carleton B. McCulloch, democratic candidate for governor, in a roasting speech here this afternoon declared that the people thoroughly understood that four years of McCrayism means four more years of Goodrichism.

"These gentlemen" said Dr. McCulloch, "have jointly come out in defense of the tax law. Centralized control is an essential feature of this law. Fictitious and inflated values, based on horizontal increases, are a part of it. Neither one of these gentlemen, so far as the press reports go, have condemned the horizontal increases of valuation. In fact, they could not consistently do so, because it was a McCray-Goodrich control legislature that legalized them after the supreme court had declared them illegal. Money dishonestly procured is always a curse, and in the state of Indiana gets money dishonestly when it takes them on property values far in excess of actual cash value. The Democratic party stands pledged to a repeal of the present tax law.

"Saturday, Governor Goodrich came to the defense of his administration. This is natural. He says it was economical and efficient. This was universally disputed. Tax receipts speak for themselves. I hope every man when he pays his fall installment of taxes will inquire what he will have to pay next year. He will find an enormous percentage of increase over even the exorbitant taxes of this year. It is time to call a halt. The Democratic party is pledged to repeal our present tax law; stands pledged to the genuine return to the communities of rights of local self government; stands for returning to counties their auto license fees in order that they can keep up their own roads. Let us have a change in our State administration, and get back to sound principles of representative government. Let us get away from centralized control.

Mr. and Mrs. Earl Arnold who reside east of town are the parents of a son born Wednesday night.

A BABY SHOW IS ADDED TO PREMIUM LIST

FALL FESTIVAL PROMOTERS
ARE SECURING ADDITIONAL
ATTRACTIVE EACH DAY—
BANKS COME IN WITH BABY
SHOW, APPLE SHOW AND
QUILT EXHIBIT

The Fall Festival and corn show project is going big.

The spirit of offering a prize for some product of the farm prevails in every establishment in the city and the nearby cantonments. Keeping up with the offerings is taxing the capacity of the Chamber of Commerce. The whole matter can be summarized in the statement: There will be a prize for every body and every thing.

This week the local banks not to be left out of the matter of showing an appreciation for past business and to promote a lively interest in the Fall Festivities have planned and are offering some premiums in important lines. The Central National Bank and the Central Trust Company offer a \$10 savings account to the hand-some baby under 2 years of age, with a \$5 savings account to the second best. This feature will be staged at the court house, and on the band stand if the weather permits and will be called for 3 p. m. Saturday. Parents should notify either Mr. C. A. Jackson, the county agent or Mr. Harney of the commercial club of their desire to enter the contest.

The First National Bank and Will Wetzel are to stage a big Apple show in the bank rooms under the same conditions covering all other entries, i.e. five specimens to constitute a plate, entries to be in place by 9 a. m. of the 22nd and not to be removed before 3 p. m. of the 23rd. Mr. Wetzel offers \$2 each for the best plates of Ben Davis, Improved Genetins, Indiana, York Imperials, Fallwaters, Staymans, Sweet apples, Arkansas Blacks, Jersey Blacks, Northern Spies, Rome beauties, Kiefer and Sugar Pears.

The Citizen's National Bank and the Citizen's Trust Co., will hold a big quilt and Coverlet show in the rooms of the bank on both days of the festival. It is expected that this show will prove one of the features of the two big days. A \$5 prize is offered for the best display of coverlets and quilts owned by the exhibitor; \$2 is offered for the best Applique Quilt; \$2 for the best specimen of hand quilting; \$2 each for the best, Loe Cabin Quilt, the best Irish Chain Quilt either single or double chain, and the best baby quilt, any pattern.

In addition to the list of prizes already published, A. J. Cox, the Reo Auto Co., offers an inner tube for the longest corn stalk, Mrs. Addie Ringo is offering a \$5 hat for the best Apple Cake, Vancleve & Sons have increased their offer for the best pound of honey to \$5, in cash.

Miss Wright the county nurse will give an exhibit at the women's rest room at the court house of home Nursing that will prove an interesting and pleasing feature to the fall festivities.

October 22 and 23 will be rated as the big days in our municipal life; we will date time from the big events of these busy days.

CLINTON FALLS

Mrs. Emily Boswell spent Saturday night and Sunday with her daughter Mrs. Charles Cunningham near Portland.

Aunt Eliza Jewett is very sick at her brother's John D. Newgent.

Mr. and Mrs. George Frank and children spent Sunday at their parents Mr. and Mrs. George Hinton at Greencastle.

Mr. and Mrs. George Grider and little son, Mr. and Mrs. Jess Coffman and little daughter, Mrs. Mary Burk and Mrs. Eula Staggs went to see aunt Eliza Jewett Sunday who is very sick.

Mr. and Mrs. W. O. Davis visited her daughter Mrs. George Connelly Sunday at Bellemore and Mr. Connelly.

The Greencastle High School Basketball team will come to Greencastle the season here Saturday night, when it meets the Amo High School team.

BRAVE AMERICAN
IN POLISH ARMY

Brigadier General Sweeny, Millionaire, Battles for Cause of Freedom.

TRAINED AT WEST POINT

Served in Mexico, South America and Gave Valiant Service in the World War—Unusual Type of Soldier of Fortune.

New York.—War dispatches making more than casual mention of Brig. Gen. Charles Sweeny have lent to the Polish struggle more than an impersonal interest to American army officers at Governor's Island, who are well acquainted with Sweeny, an American soldier of fortune with both principle and purse.

Men of no fortune at all who fight for excitement and pay are common enough. But Sweeny, U. S. A., is a multi-millionaire's son, his father having amassed great wealth in the famous Copper D'Alene mines of Washington and Idaho, and the soldier is more than a millionaire in his own right. He put in three years at West Point and then sought the life of an active soldier in Mexico, South and Central America and Europe.

Offers Self to Poland.

Sweeny, a former lieutenant colonel in the United States army, attached to the general staff, was in Paris during the spring of 1919, recovering from wounds suffered in the Argonne offensive with the A. E. F., when he learned that Poland was in need of officers for her new armies. He consulted with the then Premier Paderewski and offered to recruit volunteers when he returned to America. In three weeks he had selected 200 former American army officers, all of whom had seen service in France. Colonel Sweeny sailed for Poland in September of last year with the first of his officer contingent. He was not long in getting into the fight and in recognition of his splendid services Poland commissioned him a brigadier general.

This Irish-American-Polish general for whom a soft life held no appeal, began his career on the battlefield on leaving West Point after he tried mining for a while.

Soldier of Fortune.

He went to Mexico and got a wound in the Madero affair. Upon recovery, Sweeny packed up for South America, where he took a hand in several of the revolutions. He got into the world war as a private in the Foreign Legion. In the first Champagne battle in September, 1915, he was commissioned a lieutenant on the field for gallantry. He was severely wounded and gassed in this battle, and on a hospital cot in Paris he was awarded the cross of the Legion of Honor.

Two other important decorations were bestowed on him in rapid succession and he had a great reputation for bravery. Soon after being made a captain of the French forces, he was sent to the United States upon advice of Ambassador Sharp as an instructor in 1917.

Sweeny was commissioned a major in the United States army and helped to train the Eightieth division at Camp Lee, Va. He went overseas with this division, got shot up in the Argonne and was promoted lieutenant colonel for gallantry before the enemy, and assigned to the staff of the A. E. F.

URGES FRENCH LEARN GERMAN

Former President Poincare Points to Value of Language to His People.

Paris, France.—"Learn German," is the advice former President Poincare has given the French through the Association of Language Professors. He said:

"To dominate German science, we must understand it. To maintain the independence or the superiority of our literature, we must not close our eyes to foreign literature, not even that of Germany."

M. Poincare added that German must be known by those who undertake the administration of the occupied regions, and also to restore French to its proper place in Alsace-Lorraine.

Army officers recently were urged to learn German. The government has reinstated that language in the officers' training schools.

Young Captain of Industry.

Denver, Colo.—George Gardens, thirteen years of age, student at Manual high school, is Denver's youngest "captain of industry." When a shortage of charcoal crayons at the high school became acute and the supply at downtown stores was exhausted, George constructed a small charcoal oven on a vacant lot and is now manufacturing what is claimed to be an excellent grade of crayon. The oven is operating 24 hours a day and young Gardens is reaping a tidy sum from sales of the crayon to students.

"David and Goliath" Reenacted.

Indianapolis, Ind.—Just as a mad bull was charging Robert Williams, intent on goring him to death, a small boy hurled a brick. It struck the bull squarely between the eyes and killed the animal. "The boy, scared, ran away after the fight."

PUZZLE TO SCIENCE

Origin of This Race Hangs on the Tale of a Snail.

Mystery of Migrations Stumps Hundred Experts Who Are in Quest of Polynesian Data.

Honolulu, T. H.—If certain varieties of snails in the Hawaiian islands could talk, tell whence they started their migrations and how they traveled from one island to another in the Pacific, the world would be close to the solution of the origin of the Polynesian race, according to scientists attending the Pan-Pacific scientific congress in session here.

Upward of a hundred of the most noted experts of most of the countries bordering the Pacific ocean have discussed the possible origin of the Polynesians during the sessions, and on one point they all agree—they don't know yet where the Polynesians originated.

Having failed to pry any information out of the snail, the scientists turned to the common or garden variety of chicken. This useful bird is believed to have been domesticated by the Polynesians about 1000 B. C. According to scientific data the chicken reached Egypt about 700 B. C. It is believed to have originated in southern Asia, but how did it get to Polynesia? Another impasse.

Begonia seeds and those of about 700 other plants found in the Hawaiian group furnished a little more information than either the snail or the chicken, according to the scientists. Ocean currents are said to have brought them here. Equatorial currents flowing across Central America from the Atlantic are believed to have forced the Pacific currents westward, carrying driftwood and seeds. The process of transportation and germination appears to have been fairly lengthy, since it is estimated that perhaps one seed arrived from the American continent and bore fruit within the period of a million years.

Grasshoppers furnished their quota to the discussion which terminated about where it had begun in the known facts that the Polynesian race came out of the unknown and, being a rapidly dying race, is fast passing to the uncharted shore where it was born.

Eggs Proved Too Frail
As Carriers of Whisky

Eggs may be all right to ship whisky in, but the baggage smasher must handle such cases with care. At a station in West Virginia some of the eggs broke and a prohibition inspector found three cases of "doctored" eggs.

Each egg had been carefully "blown" from the shell. After whisky had been poured in, the aperture had been sealed with cement.

A. BARTON HEPBURN

A Barton Hepburn suggests the common-sense remedy of "work" as a cure for impending and existing evils.

NEW JUMP IN IMMIGRATION

Increase of 20,000 in Week Laid to Typhus and War in Europe.

Washington, D. C.—Immigration officials here profess to be mystified at the sudden increase in immigration which approximated 20,000 persons last week; and, if continued, would add 1,000,000 to the population of the country in a year. Louis F. Post, assistant secretary of the department of labor, said today no information has yet reached the department which will explain the situation.

"But I have a theory about it," said Mr. Post. "I am inclined to think that many of these people are coming here to get away from conditions at home and that the condition is only temporary. Only last week a ship was held up at quarantine with typhus aboard, and the war is not yet over in Europe. Other one of these conditions would naturally make a lot of people anxious to get away."

THRIFT URGED
BY UNCLE SAM

Treasury Department is Spending Million Dollars to Encourage Saving.

WANTS PEOPLE TO INVEST

Carrying on Campaign for the Sale of Thrift Stamps, War Savings Stamps and Saving Certificates—School Rooms Organized.

Washington.—Uncle Sam is spending \$1,000,000 this year, through the savings division of the treasury department, in an effort to encourage thrift.

The expenditure of \$1,000,000 compares with an expenditure last year of approximately \$4,000,000, and the staff of employees which comprises a force in Washington and an organization in every federal reserve district compares with the great force inherited from the war.

Advocates Opening of Bank Accounts. The savings division carries on the campaign for the sale of Thrift stamps, War Savings stamps and saving certificates, but these sales are merely a side line to the general effort, for just as much stress is being put upon the opening of savings accounts in the banks as upon the sale of stamps. Through the subsidiary organizations just as much effort is being made to have the housewife keep a budget as there is effort to propagate the homes in the interest of government securities.

In the period from December 1, 1917, to January 1, 1919, the sale of government securities, exclusive of Liberty and Victory bonds, reached more than \$1,000,000,000. In 1919 the sales dropped to \$134,230,687.84. In the first six months of this year the sales dropped to \$26,985,842. But the report of the six months of the year is no indication of what the final report will be, according to O. C. Lester of the savings division, who says the people do not save as much during the summer months as at other times.

School Rooms Are Organized.

When the government first initiated its drive for thrift and asked the assistance of the people, the savings division was organized and the request made for other organizations to co-operate with it. A drive was made to interest the school organizations, the organizations of women, the clubs and industrial concerns and others. But the effort was not entirely successful and the policy has been reversed. The government is now saying to all these organizations that it is ready to co-operate with them and success is being had.

Thousands of school rooms are now organized and in many cities and states courses in thrift are being made a regular part of the curriculum. Industrial concerns have also organized their clubs. Women are teaching the necessity of the budget in the home. Fraternal organizations have joined in and the entire groundwork for the savings campaign has been laid.

WILL FIGHT "WHITE PLAGUE"

First of Series of Health Conferences to Be Held in Washington This Winter.

Washington.—The first of a series of regional health conferences authorized by the international health conference in Cannes to formulate and put into effect programs dealing with the fight against "the great white plague" will be held here the week beginning December 6, according to an announcement by the public health service.

The conference which is being organized under the joint auspices of the interdepartmental social hygiene board, the public health service, the American Red Cross and the American Social Hygiene association, will also review "past experiences and existing knowledge as to the causes, treatment and prevention of venereal diseases and will formulate recommendations relating to a practicable three-year program for each of the North and South American countries participating."

Prominent health officers and sociologists from all parts of North and South America will attend, the announcement said.

Too Many Children.

Pontiac, Mich.—Mrs. Esther Cuneaz of Royal Oak has been held for trial in circuit court on a charge of operating a boarding house for children without a state license. It was shown that she had been refused a license. Mrs. Cuneaz recently was sued for divorce by her husband, who charged that not content with having six children of their own, she had taken nine children under six years of age into the house as boarders.

No Bottom.

Tonopah, Nev.—A miner lowered into a subterranean cavern opened by a miners' blast at Volcano, Nev., some time ago, was unable to discover the ends of the fissure. Stones dropped through the opening could be heard bounding from wall to wall, but there was no sound indicating that they had reached the bottom. Sparkling stalactites on the sides of the cavern were revealed by lights lowered through the opening.

U. S. SHIPPING JUMPS

Now Forms Quarter of the Tonnage of the World.

Increase of More Than 500 Per Cent Since 1914—America Is Now in Second Place.

London.—According to Lloyd's Register of Shipping for 1920-21 just issued, the seagoing tonnage of the United States apart from Great Lakes shipping, has increased since 1914 by over 500 per cent and now stands at 12,406,000 tons. Thus the United States comes second only to the United Kingdom which has 18,111,000 tons.

Japan, which in 1914 took sixth place, is now third, with 2,936,000 tons, closely followed by France with 2,933,000 tons.

Including sailing ships, but excluding tonnage on the Great Lakes, the United States now owns 24 per cent of the world's tonnage as against 4.7 per cent six years ago, the Register states.

The figures shown for the formerly belligerent countries include a considerable amount of enemy tonnage provisionally allocated to those countries. Germany, which in 1914 occupied, after the United Kingdom, the first position with over 5,000,000 tons of shipping, now only owns 419,000 tons.

The steam tonnage owned by the principal maritime countries in June, 1920, totaled 53,905,000, an increase of 8,591,000 tons as compared with June, 1914; but it is computed that the world's net loss in shipping through the war, taking into account the suspension in normal shipbuilding activities, amounts to 3,516,000 tons.

There is a reduction in sailing tonnage since pre-war days of 614,000 tons, a much smaller decrease than in any previous six year period and doubtless accounted for, says the Register, by the shortage of other tonnage having given new life to the construction of sailing vessels. The United States, the only country which has increased sailing tonnage since 1914, now owns over 43 per cent of the world's sailing tonnage.

Test Works, All Right:
It Cost Tester His Hand

Sacramento, Cal.—Harry Finegold, a second-hand dealer here, applied the "acid test" the other day in bargaining for a shotgun offered for sale. As a result of his "test" he is now minus the better part of his left hand.

Finegold asked the person who brought in the gun to sell if it were loaded. The owner said he wasn't sure.

"I can soon tell," said Finegold, and he did. The second-hand dealer placed his left hand over the muzzle and pulled the trigger with the other. It was loaded.

"THE MAN IN OVERALLS"

James Joy Jeffreys is known all over the country as "the Man in Overalls" and as "the Billy Sunday of the Railroads." He is a noted lecturer and evangelist who specializes in good citizenship, care of the body, including food, exercise, morals, etc., as well as in purely spiritual talks, as he believes the three go hand in hand. He was converted in the Pacific Garden mission in Chicago, where Billy Sunday and Mel Trotter were converted. He began in railroad work as janitor of a depot in Washington, Iowa, in 1893, then became newsboy and later news agent, engine wiper, coal boy, stationary fireman and then engine dispatcher, locomotive fireman and engineer. He left the railroad work to become an evangelist in 1908.

Rooster Just Like Mother.

Winsted, Conn.—A yearling Rhode Island Red rooster owned by Elmer Robb is brooding a number of chickens that weigh from one and a half to two pounds each. The young rooster also fills a mother's role by calling the chicks when he uncovers worms. At night the chickens huddle beneath his wings.

FINE TWO \$100 EACH

**MEN CHARGED WITH DRIVING
AUTOMOBILE WHILE UNDER
INFLUENCE OF LIQUOR ARE
SEVERELY DEALT WITH BY
JUDGE JAMES P. HUGHES—
BELLE UNION MEN ARE
FOUND GUILTY**

Any one found guilty of driving an automobile while under the influence of liquor will be severely dealt with by Judge James P. Hughes, of the Putnam Circuit Court.

This fact was made plain by the Judge late Wednesday afternoon, when Otho McCamack and Arthur McCamack of Belle Union were before the Judge charged with driving an automobile while under the influence of liquor; driving an automobile without lights and intoxication.

Mr. and Mrs. Charley Peyton who live at Mt. Meridian were the prosecuting witnesses alleged that on Sunday night the two men, while driving an automobile without lights and while intoxicated, hit the buggy in which Mr. and Mrs. Peyton were riding.

Each man was fined \$50 and costs on the charge of driving an automobile while under the influence of liquor; \$25 each for driving a machine at night without lights and \$10 each for intoxication. The fines and costs will amount to at least \$100 for each man.

MAPLE HILL

Corn is mostly all cut in these parts.

Mr. Rominger has sold his farm to Carey Payne.

Paul Thomas will soon move to the Dan Shonkewiler farm in Parke county. Brother Davis who is holding a series of meetings at West Union will be at Long Branch Sunday night, Oct. 17th. All are invited to come out and hear him.

Mr. and Mrs. James Layman visited their son Charles and family Sunday.

Several of the Long Branch people attended meeting at West Union Sunday and went to Harley Tabors where a large crowd was gathered with plenty of good eats to surprise Mrs. Tabors, who had asked some of the young people to come to their place for dinner in honor of their son James of Indianapolis who was home on a visit.

Vaughn Dickey and family of Brazil spent Saturday night and Sunday at Mr. Tabors.

WINS G. O. P. PLATFORM PRIZE; QUITS HARDING

WASHINGTON, October 13.—One of the sidelights of the presidential campaign now drawing to a close is the announcement by Carl Jocelyn of Cambridge, Mass., who won the \$5,000 prize offered by the Republican national committee last spring for the best platform submitted in competition, that he has decided that he can not support Senator Harding.

"Until a few days ago I had entertained the hope that Senator Harding's position on the league issue," said he, "although not exactly encouraging to Republican friends of the league, might be so interpreted—to use the words of our friend, Mr. Taft—as not to foreclose the possibility of America's entering the league sooner or later under a Republican administration."

Policy of Irreconcilables
"Mr. Harding has now declared his unqualified approval of the utterances of Senators Borah and Johnson as to the league. Hence it is to them that we may look for a prospectus of the nation's foreign policy under a Republican administration. According to their view the United States has not the slightest concern in the maintenance of world peace. We may enter into some sort of an association of nations but should this involve the performance of obligations in common with other nations in an endeavor to preserve peace, the United States must refrain from committing itself."

The coming election is to decide on the relations which shall obtain between this country and the other nations of the world during the next 400 years or more. In this Mr. Harding stands for the impossible; Mr. Cor stands for what may not be desirable in all its features, but is at least rational and possible.

Lemuel John who suffered a broken leg in an auto accident on Wednesday is reported today to be getting along as well as could be expected.

Mr. and Mrs. A. B. Phillips left today for Memphis, Tenn., where they will visit their son, Halbert Phillips and wife for two weeks. They will then go to New Orleans before returning home.

THE LEAGUE EXPLAINED BY WOOLEN

Continued from Page 1

them as mandatories on behalf of the League. To the contrary there is no word in the covenant giving to a member of the league to summon another member into war. Senator Harding has said that had the treaty been ratified we would have had to enter the war for Poland on the summons of the league's council. Likewise there is no word in the covenant giving to the council the right to summon a member into war. Rather the fact is that had Poland, instead of beginning as she did a war of aggression threatened by Russia with an attack on her territorial integrity, it would have been for our Congress in its uncontrolled discretion to determine, giving due consideration to the advice of the League's Council to out remoteness from the scene and to all other elements, whether our duty as one of the forty members of the league reasonably required of us to send an armed force.

Admits League Incomplete

"If it be contended that a plan which provides no requirement for the contribution of armed forces is an incomplete plan we again admit the contention and claim it as another merit of the covenant that its framers did not try to go too far without experience. We point out also that, while there is no requirements for the contribution of armed forces, there is requirements that, in case of a covenant breaking resort to war by a member, all other members of the league shall immediately institute a trade and financial boycott against the covenant breaking member. And have learned by observation, Germany and Russia have learned by experience that a trade and financial boycott can be not less effective than a resort to arms."

"An objection much urged by twisters of the lion's tail, is that under the provisions of the covenant, Great Britain has a voting power six times that of the United States. To the contrary it is in the Assembly only in which Canada, Australia, South Africa, New Zealand and India, as well as Great Britain are represented. In the council none of these is represented except Great Britain, which has therein just the same voting power that the United States has. And it is the council which in the works of the league. To that effect indeed I quote Senator Lodge as having said that the council is the real seat of authority."

Mr. Woolen spoke in eulogy of Thomas Taggart, Democratic nominee for Senator and Dr. C. B. McCulloch, Democratic nominee for governor.

The Hon. John Holtzman of Indianapolis will address the democrats of Cloverdale and vicinity in Cloverdale Saturday evening. Miss Fessler of Indianapolis also will make a short address. The meeting will begin at 7 o'clock to enable the speakers to get a train back to Indianapolis that evening.

THE LEAGUE OF NATIONS

Cont'd from Page 1.

League
The character of the mandate must differ according to the stage of the development of the people, the geographical situation of the territory, its economic condition and other circumstances.

Certain communities formerly belonging to the Turkish empire have reached a stage of development where their existence as independent nations can be provisionally recognized subject to the rendering of administrative advice and assistance by a mandatory until such time as they are able to stand alone. The wishes of these communities must be a principal consideration in the selection of the mandatory.

Other peoples especially those of Central Africa are at such a stage that the mandatory must be responsible for the administration of the territory under conditions which will guarantee freedom of conscience or religion subject only to the maintenance of public order and morals, the prohibition of abuses such as the slave trade, the arms traffic and the liquor traffic and the prevention of the establishment of fortifications or military and naval bases and of other than police purposes and the defense of territory and will also secure equal opportunities for the trade and commerce of other members of the League.

There are territories such as South west Africa and certain of the South Pacific islands which owing to the sparseness of their population or their small size or their remoteness from the centers of civilization or their geographical contiguity to the territory of the mandatory and other circumstances can be best administered under the laws of the mandatory as integral portions of its territory subject to the safeguards above mentioned in the interests of the indigenous population. In every case of mandate, the mandatory shall render to the Council an annual report in reference to the territory committed to its charge.

The degree of authority, control or administration to be exercised by the mandatory shall, if not previously agreed upon by the members of the League, be explicitly defined in each case by the Council.

A permanent commission will be constituted to receive and examine the annual reports of the mandatories and to advise the Council on all matters relating to the observance of the mandates.

Willis E. Gill and Mrs. F. C. Tilden will go to Russellville this evening where they will address a political meeting. Miss Era Bence and Mr. Gill will address a meeting in the Cartersburg School House in Cloverdale Township Friday evening.

THE STAR STORE

OUTFITTERS FOR MEN, WOMEN AND CHILDREN
AT THE VERY LOWEST PRICES

Greencastle, Indiana, Oct. 14, 1920

Folks:—

HERE'S THE BIG NEWS!

Starting Saturday, Oct. 16th, you are going to have the advantage of a price reduction on the entire stock of the Star Store, consisting of clothing and shoes and furnishings for men and millinery and wearing apparel for women and children. The reductions will average from 10 per cent to 40 per cent.

You have read of announcements by manufacturers and mills that prices on next spring merchandise will be lower? Then it is only natural that you will either wait until the lower prices come or buy now at the store that offers you the benefit of lower prices. So in order to meet these conditions we have decided to make reductions on our entire stock.

This is going to be one of the biggest events Greencastle has ever witnessed. A PHENOMINAL SALE OF NEW MERCHANDISE AT PRICES THAT ARE UNDER PRESENT DAY WHOLESALE COSTS. We are doing this for one definite reason and that is to help try and break the back of High Prices.

This store is your store, and, although this store is only seven months old in your community, we are the leaders in Low Prices. You are going to have this store stay the leading Low Price Store in your community and we will always offer you the best of quality at the very lowest price.

Some of the bargains are like these: Men's heavy work socks at 17c; Ladies' guaranteed corsets at \$1.85; Men's heavy fleeced lined union suits at \$1.98; Men's overalls at \$1.69; Men's work pants at \$1.98; Men's ribbed union suits at \$1.39; Ladies' winter suits in silvertones and tricotones at \$29.95; Ladies' winter cloth coats at \$21.95; Ladies' silk hose at \$1.49 and Ladies' S-tang union suits for \$1.98.

Remember that this sale starts Saturday, October 16th, and it is to your advantage to attend this sale and get the benefit of the lower prices right now in the heart of the season. Look for the sign over our door.

Yours respectfully,

THE STAR STORE

THE STAR STORE

20-22 West Washington St.

GREENCASTLE, INDIANA

SUPPOSE your baking failures average three out of ten. They may run higher. But if they don't—your good bakings cost you about a third more than they should.

What you lose thru failure must be added to baking costs—it has to be paid for.

Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

Pure in the can - Pure in the baking

CALUMET
BAKING POWDER
"BEST BY TEST"

That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it. It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way—it is the best way to keep down baking costs. That's what has made it the world's biggest selling baking powder—has kept it the favorite of millions of housewives for more than thirty years.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Sunshine Cake Recipe

½ cup butter, 1½ cups granulated sugar, 2½ cups flour, 1 cup of water, 2 level teaspoons of Calumet Baking Powder, 1 teaspoon lemon, yolks of 9 eggs. Then mix in the regular way.

POVERTY IN CRIMEA

Million Rubles Go for \$25, but Meal Costs 60,000.

Newspaper Correspondent Finds No Real Money and Little to Purchase in Sebastopol.

Sebastopol, Crimea.—One million Don rubles were purchased for \$25 here by a correspondent, but afterward he paid 60,000 rubles for a meal, 10,000 more for a short cab ride and at the close of the day was a bankrupt millionaire. Crimea is in an unhappy condition. It has 24,000,000,000 of rubles, but no real money, and there is little to buy here.

The harbor is filled with idle and disabled warships and merchantmen. There are no cargoes on the docks, street cars have been stopped because of the lack of coal, stores have no stocks and streets are deserted except for an occasional carriage, some wounded soldiers or armed patrolmen. The only life here is on the beaches at the park at the entrance to the harbor. There bathers, for the most part women and wounded officers and soldiers, pass the time when not reading bulletins from the various south Russian fronts at the official news bureau. These bulletins afford depressed Crimeans much encouragement. Most women here have no hats, but wear veils or kerchiefs about their heads. Many are without stockings, but are charming, nevertheless, in bright, inexpensive gowns which they dignify with erect and independent carriage, suggestive of American women.

Six years of war have not broken the spirit of south Russian women. They "carry on" with the slight means at their disposal without complaint, and give whatever encouragement they can to men battling with bolsheviks along the Dnieper river and in the Don and Kuban territory.

Sebastopol, with its idle dockyards and railways operated only for military purposes, has not, in spite of its 80,000 inhabitants, the dynamics of a city one-tenth its size. The old Russian naval base has lost all its brilliancy, most of its warships are rusting at the docks and its industries are closed. The civilian population is awaiting resumption of export trade, which is necessary to the exchange situation and the restoration of normal trade conditions.

GIVING HIMSELF A SHOW.

A negro stabs by a quadroom, Used to haunt the poor culprit at noon.
"For," said he, "I'm not white, So I can't show at night; There's not the ghost of a show then for a coon."

EASY MONEY.

Kid with the weed.—Yis, boys, I saw the show at the circus. I carried de manager's grips up from de station, blacked his boots, brushed his clothes; ran half a dozen errands for him, an' peddled hand bills fer six hours an' he give me a ticket fer nothin'.

EXPLAINING MEMNON'S MUSIC.

Enigma of the Centuries Solved by Modern Research.

Another of the enigmas of centuries has been solved. Shoals of writers, ancient and modern—Strabo, Pausanias, Juvenal and Tacitus among the former—have puzzled themselves and their public by speculation as to the explanation of the harmonious sounds given off under the statue of Memnon at Thebes, on the left bank of the Nile, and as to the reasons why those sounds ceased. The facts are, says the London Globe, that after being cracked in its upper part the statue became sonorous, and that this quality ceased on the fissure being closed. For two centuries Greeks and Romans journeyed to see the wonder of the musical statue and to honor Memnon. Some of the ancients said that the fissures in the granite were caused by an earthquake. Modern research saddles Cumbyes or Ptolemy Lathurax with the vandalism, which was produced by working grooves into the junction of the arms, and then producing enlarged cracks with wooden wedges drenched with water. It was the vibratory motion set up by the early sun expelling the moistures of the night that caused the musical sounds. Severus, by closing the fissures to "restore" the statue, as part of his policy of putting the pagan gods against the increase of Christianity, ended the "music."

Belgium's Sugar School.

Among the special professional schools that are offered in different parts of the old world, none is more unique than the "sugar school" recently opened at St. Ghislain, Belgium. The course, which covers two years, leads to a diploma, which will insure the holder a lucrative position with any of the large sugar manufacturers on the continent. The student body is of course not very large, owing to the novelty of the course, but the curriculum is exceptionally comprehensive, including instruction in the fundamental underlying studies such as physics and general chemistry in addition to such direct studies as sugar technology, sugar chemistry, sugar legislation, industrial factories, sugar accounts, cane and sugar raising, etc. Schools of this character are much needed in the industrial world, being analogous to the technical schools which have been found so extremely valuable.

SANITARY SHAVING MUG

Liquid Soap Drawn Upon as Desired by Thumb Pressure.

The sanitary shaving mug which has been recently invented by a Detroit genius not only presents a portion of a clean soap each time that it is required, but it has the soap stored away in its interior in the most convenient form for preservation. The feature of this invention lies in the double bottom, and between the two is a chamber designed to be filled with liquid shaving soap. Convenient to the handle there is a plunger operated by pressure of the thumb. When this is pressed down a quantity of soap is forced into the inside cup through perforations provided for the purpose and upon rubbing this with the brush a lather is soon worked up. After using, the cup is rinsed out in the usual manner, but this operation in no way disturbs the soap between the two shells of the cup, which is ready to be delivered again in response to a slight pressure of the thumb.

POWDERED COAL A SUCCESS

Reported Satisfactory and Economical for Railroads.

Some of the big railroads have been using powdered coal with very satisfactory results. The coal finely powdered and dried, is stored in receptacles from which it is blown into the firebox in jets by air pressure, much the same as oil fuel is used. The dry powder is converted into gas almost instantaneously, the temperature of the firebox is not lowered and the objectionable heavy black smoke is obliterated. This method is also more economical of fuel than ordinary firing and materially lessens the labor of stoking.

VISIBILITY OF RED LIGHTS

Why They are Chosen When Danger Signals are Needed.

Red lights are chosen for danger signals on railways for the reason that they are visible at a greater distance than those of any other color. Red light has a visible range of nearly three and a half miles in the standard signal light. The next in strength is green light, which can be seen under similar conditions for three miles. Blue, purple and yellow can be seen only about a mile and are likely to be confused with the other colors.
