MANY TEACHERS ARE PRESENT FOR INSTITUTE

The 1919 session of the Putnam County Teachers' Institute began Monday morning under most favorable conditions of weather, attendance and instruction. The music again, under the most able direction of Harry Maxwell, bids fair to be more popular than ever before, and that means to Greencastle people a most excellent program. Mr. Maxwell has promised that in addition to the regular singing of the teachers in chorus many special numbers will be provided during the week. Miss Era Bence and the Indiana Trio were among the numbers to be presented.

Dr. Jones of Northwestern University department of pedagogy and psychology began his work this morning with an interesting discussion of the possibilities of child diagnosis. He predicted that before many years each school system would have in attendance a psychological expert who would make mental tests of each child in the grades and suggest the studies that would be most helpful to that child. He insinuated that the present method of giving each child the same work in the same way was a bad school method. He declared that we formerly taught school; now we teach children; eventually we will teach the child. Teaching must be made and more adapted to the individual needs of the child.

The new manager comes to Greencastle with the same reputation for integrity as that which is left by the outgoing owners.

Mr. and Mrs. Bailey have purchased the home of Mr. and Mrs. Browning on Seminary street and will take possession next week. As to what Mr. Brown will enter into for his next business he has not as yet decided. He stated this morning: "The first thing Mrs. Browning and myself are going to do is to rest. Ten years in the grocery business is rather tiresome. One thing which has made the work less strenuous," stated Mr. Browning, "is the kind treatment we have received from people of Greencastle and Putnam county. They certainly have treated us royally and we regret greatly that we will no longer serve the public in the grocery business."

Mr. and Mrs. Bailey had a son a student of DePauw University and their youngest son will enter DePauw this fall.

TAKE POSSESSION TUESDAY

The E. A. Browning grocery store on East Washington street was sold this morning to J. F. Bailey, of Anderson, Ind. Mr. Bailey, who has been in the grocery business the last few years to a charge of the store this morning. Mr. and Mrs. Browning, who have been conducting a grocery store for the past ten years, are held in high esteem in Greencastle and have won this regard by treating their customers fairly and courteously. They started in the grocery business on the north side of East Washington street ten years ago in the rooms now occupied by the American Express Company. They conducted business here for six years, building up a wonderful grocery trade both in Greencastle and throughout Putnam county.

ENTERTAIN WITH BIRTHDAY PARTY

The home of Mr. and Mrs. Theodore Raab, south of Reelsville, was the scene of an attractive party August 16, planned in honor of the birthday of their daughter, Ina. About thirty-five young people made the evening party a joyous one by playing interesting games on the lawn. Another noteworthy feature of the evening's entertainment was music, which was furnished by Theodore Raab, accompanied on the piano by Miss Edith Boyd of Terre Haute. Inter-spersed now and then was the invitation for the happy group to enjoy delicious ice cream and cake. The fact that the young people lacked nothing with which they could have a good time was proof that the party was a carefully planned one.

The text of the will of the late S. Eugene Whiteside, which was filed for probate in the Putnam circuit court August 15, is as follows:

I, S. Eugene Whiteside, of Greencastle, Ind., do hereby declare this to be my last will and testament revoking all wills and testamentary papers heretofore by me made.

Item 1. I direct that as soon as possible after my death that my estate shall be converted into cash. In converting said estate, however, my executor shall take the time required to make advantageous sales and so conduct the conversion that my estate shall not suffer, so far as possible. No securities or other investments deemed safe and a good investment by my said executor shall be sold, but the same shall be held and converted into the residue of my estate. In all events, however, my bank and trust company stock held by other person at a value to be established by some disinterested person competent to appraise the same. If my said brother should not care to purchase said stock or only a portion thereof as herein set out shall be offered for sale. My executor shall likewise be governed as follows in disposing of portions of my estate as named herein. That is to say in offering my holdings in the First National Bank of Greencastle, Indiana, and that of the First Savings and Trust Company of the same place for sale my brother, Loring J. Whiteside, shall have the first option to purchase all or any part thereof for cash at not more than the book value thereof, but to the same, then A. Glen Brown, now of Greencastle, Ind., shall have the option to purchase the same or such portion as my brother might not elect to take under the terms and conditions as heretofore indicated relative thereto. The said Loring J. Whiteside shall also have the first option to purchase all of my common stock holdings in the Central Community Chautauqua system and the Community Chautauquas, incorporated, except twenty shares in the Central Community Chautauqua System, which twenty shares Harry Z. Freeman, now of Greencastle, Ind., shall be privileged to purchase at the par value thereof if he so desires. If said Loring J. Whiteside shall elect to purchase my Chautauqua stock or any part thereof, the same shall be sold to him at a price determined and agreed upon by my executor, Harry Z. Freeman and Loring J. Whiteside, said price, however, not to be in excess of four times the par value in any event. In so purchasing said Chautauqua stock as herein provided, said executor is empowered and directed to accept the note of my said brother for the purchase price thereof, said notes to bear interest at the rate of six per cent per annum and the terms thereof not to extend over a period to exceed five years after my death.

Item II. After reducing my estate to cash, I direct my executor to pay therefrom the following cash bequests:

(a) Five thousand dollars (\$5,000) to my mother, Mary B. Whiteside, now of Evanston, Ill.

(g) Five hundred dollars to the First Presbyterian church of Greencastle, Ind.

(h) Five hundred dollars to the First United Presbyterian church of Evanston, Ill.

True, the music of his organ ain't the best  
that could be played,  
And it's full of sounds that oughtn't to be  
in it—I'm afraid.  
But the kiddies here enjoy it from the time its  
first note starts  
'Cause they've got the joy of livin' sunk  
way deep into their hearts.

Now, us grown folks, too, can learn a way to  
stand for life's discord  
If we'll only keep the joyousness of livin'  
in us stored.  
An' our pipes will taste the sweeter an' the  
world will seem true blue  
If we live our lives like VELVET, natural,  
friendly, pure—all through.

Hughes, having a few minutes in Indianapolis before taking the car for home, went to the Circle theater and was restfully watching the film when the picture of his brother-in-law was shown stepping from the White House stairway with a delegate of labor leaders. The title of the film was "Labor Delegation Confers with President Wilson." Mr. Gainer is the president of the United Mail Carriers' Association. Judge Hughes in commenting on the incident stated that Mr. Gainer was talking and laughing in the picture, but failed to see him in the audience.

## Sitting down to a good meal

may not be important for poets to rhapsodize over, but to mere man it is decidedly worth-while. And she who creates such a meal has (to him) just about got all the goddesses backed off the map.

The delightful thing about Valier's Enterprise Flour is that through sheer high quality it is able to raise the whole standard of home-baking. Your neighbors are using this supreme flour—aren't you?

### DR. JONES GIVES ILLUSTRATION AT INSTITUTE, TUESDAY

Tuesday afternoon Dr. Jones gave an illustration of the devices used to determine musical ability. Upon the phonograph he placed records showing slight differences of pitch, time and intensity. The teachers were asked to determine by ear the various differences. The tests were graduated from very easy to very difficult and it was noticeable that in the first stages of the test nearly all the teachers took part, being able to note the differences. Long before the end of each test, however, the voices grew fewer till toward the close only a half dozen from the 150 teachers were sure of their ability to determine a difference.

Dr. Sweet discussed the use of illustrations and the history library for high schools. He illustrated the use of illustrations by telling the story of a very remarkable manuscript in the possession of the family of Mr. James Bridges who lives just east of Greencastle. This manuscript is the log of a slave ship and is one of the two or three authentic documents having to do with the slave trade now in existence. The manuscript was presented to the grandmother of Mrs. Bridges by a former professor of DePauw University.

As to the library Dr. Sweet insisted that every library ought to contain three kind of books—guides, that is books telling of other books and their value in history; texts, books containing the facts of history, and historical literature, history written in excellent literary form and to be read because of its human interest.

Prof. Tilden spent the afternoon period in illustrating from various readings the divisions of literature dealing almost entirely with literature of the interpretation of life.

### ALLISON CHRISTIE WEDDING.

Petoskey, Mich., August 16.—The marriage of Miss Catherine Allison, daughter of Mr. and Mrs. C. B. Allison, of Mattoon, Ill., and George R. Christie of Greencastle was beautifully solemnized here at 4:30 o'clock this afternoon, the Rev. W. J. Dalton of the Emanuel Episcopal church officiating.

The ceremony was performed in the Episcopal church at the corner of Mitchell street and Waukeezoo avenue before about thirty-five friends, mostly Greencastle friends who are spending the summer at Bay View, just a mile from Petoskey. The members of the DePauw University choir which this week is singing at the Bay View assembly, of which the bride is a member, witnessed the ceremony.

Dr. Sweet discussed the use of illustrations and the history library for high schools. He illustrated the use of illustrations by telling the story of a very remarkable manuscript in the possession of the family of Mr. James Bridges who lives just east of Greencastle. This manuscript is the log of a slave ship and is one of the two or three authentic documents having to do with the slave trade now in existence. The manuscript was presented to the grandmother of Mrs. Bridges by a former professor of DePauw University.

As to the library Dr. Sweet insisted that every library ought to contain three kind of books—guides, that is books telling of other books and their value in history; texts, books containing the facts of history, and historical literature, history written in excellent literary form and to be read because of its human interest.

Prof. Tilden spent the afternoon period in illustrating from various readings the divisions of literature dealing almost entirely with literature of the interpretation of life.

Mr. Christie entered the church accompanied by Charles J. Arnold and met the bride at the altar, where the impressive ring ceremony was read by the Rev. Dr. Dalton. Dean R. G. McCutchan, in the absence of the bride's father, who was unable to attend the ceremony, gave the bride in marriage to Mr. Christie.

During the entire service Prof. Howard Barnum, violinist, softly played several appropriate numbers.

Following the ceremony the young couple left on a short motor trip to Burt Lake, returning later to Petoskey and Bay View, where they will spend a week before motoring back to Greencastle.

The bride a graduate of the DePauw school of music, is a musician of exceptional ability. During the past two years she has had charge of the music in the Greencastle city schools and has taught in the DePauw school of music. She is a member of the Kappa Kappa Gamma sorority and most popular in Greencastle, where she has many friends. The groom is the proprietor of the Christie shoe store in Greencastle and one of that town's most progressive young business men.

After returning to Greencastle the young couple will reside in their new home on Elm street.

### MAURICE BROWN SAW.

### GRAVE OF RALPH BOONE

Maurice Brown, son of Mr. and Mrs. Steve Brown, who recently returned from France, saw the grave of Ralph Boone, son of Mr. and Mrs. Moses Boone, who was killed in action during the Marne drive. Boone was the second Putnam county boy to lose his life in the great war. Brown was in Brussels and while looking over a cemetery he came across the grave of Ralph Boone. Not knowing of the death of his Greencastle boy friend it was quite a shock to Private Brown. Over the grave was the name of Ralph Boone, stating he had been killed in action.

### KENNETH W. HURST TO WED.

Hurst, was announced Thursday night at a beautiful party given for Miss Owens by her mother. The rooms were attractively decorated with baskets of roses tied with pink tulle. These baskets contained a cupid to which the announcement of the engagement was tied. ## UNSKILLED MEN NEEDED IN SHIP BUILDING INDUSTRY

Splendid opportunities are now open to disabled service men to obtain vocational training in the ship-building industry at the same time that they are earning excellent incomes, it is announced today by Colonel Arthur Woods, assistant to the secretary of war, who is in charge of the re-employment of ex-service men.

Men who are interested in these opportunities should communicate with the office of the assistant to the secretary of war, which will provide them with further information on this point. The chief opportunity is with the Submarine Boat Corporation in Newark, N. J., which offers from 46c to 56c per hour to men who are learning the trade at the same time that it teaches them any of the following trades in its school: Riveters, holders-on, heaters, chippers and caulkers,

reamers and drillers, bolters, regulators, painters, linemen, shipfitters, pipefitting, marine plumbers, pipe coverers, pipe hangers, erection machinists and electric welders.

A man can become a proficient ship workers within six weeks to two months, depending upon the trade and his personal application, when he is put on production. He is taught right on the job and is producing at the same time that he is learning. The records of this school show that many graduates are earning \$75 to \$100 a week as riveters, and very substantial wages in other related occupations.

This is typical of the manner in which large industrial concerns are responding to the request of the war department for the training of unskilled discharged service men who are ambitious to become skilled workers but must at the same time be earning enough to support themselves.

The Wesley Chapel fifteen day revival closed Sunday evening. An audience of more than five hundred people attended the closing service. The Rev. L. D. Dodd and Harry Maxwell, who have had charge of the revival, were pleased with the services and expressed their gratification with the way in which the Wesley Chapel people supported the meetings. About fifty persons came forward during the revival and twenty will be taken into the church by immersion next Sunday afternoon by the Rev. Dodd. The Rev. C. Fenwick Reed spoke before the people Sunday afternoon at 2:30 o'clock. He took for his theme: "The Salvation of Souls." He pointed out the many things which are going on today which are stumbling blocks in the progress of soul winning, among which are gambling, untruthfulness, card playing, smoking and swearing. A great accomplishment of the meetings was the fact that the Wesley Chapel neighborhood was awakened to see its duties along church activities. As a result of the meeting not only were souls saved but the church physically was helped. A new lighting system was installed, which is a great addition to the church's equipment and a new piano has been purchased. Prof. R. A. ## YOUNG MAN PROVES TO BE INDIANA STUDENT

Roland B. DeSklai is the name of the young Belgian who was found in the yard of C. N. McWethy late Saturday afternoon. The young man was formerly a student of Indiana University, having worked out all but four months' credit for a diploma. He is 23 years of age and has been in America eight years. While in the S. A. T. C. last year at Indiana University he suffered from the "flu." A few months ago he went to Gary, Ind., in hope of securing a job. While there he took a relapse and was in a Gary hospital for two weeks. Having friends in New Orleans, La., he started there and got as far as Greencastle and became destitute of money. He was walking along Seminary street when he fainted from lack of nourishment and because of the weakness of body and fainted on the McWethy lawn on East Seminary street. DeSklai was given money by the people of the McWethy neighborhood and after resting two nights at the home of Mr. and Mrs. Eugene Light he was sent to his friends in New Orleans this afternoon.

## AUTOMOBILE ACCIDENTS.

Glen McGill, son of Mr. and Mrs. Clay McGill, who reside near Beech Grove school house in the northwest corner of Putnam county with his sister, and three children of Mr. and Mrs. William Creeks featured in a Ford accident happening this side of the Dunbar bridge northwest of Greencastle Sunday evening about 8 o'clock. Glen McGill, who was driving his father's Ford five-passenger car, was approached by William Eiteljorge in his Ford car coming through the bridge. In passing the Eiteljorge car the McGill car turned over on its top, crushing it and the windshield but not even scratching the five passengers. The car was righted by men passing by and after spinning the motor the party took their seats and drove to their home. The accident might have been very serious, as the embankment here is several feet deep.

Another auto accident occurring near Greencastle was east of Putnamville on the National Road Sunday morning about 6:30 o'clock. A party from New York state touring to relatives living in the southern part of Illinois in an Interstate five-passenger car, skidded while going at a fast rate of speed and turned on its side. None of the occupants were injured. The engine of the machine was slightly injured, necessitating the car being pulled into Cloverdale, where garage attention was given.

Terre Haute, Ind., August 18.—Adolph Brink, a foreman at the Steinhardt & Geiger garage of this city, and Mrs. Marie Weldele were instantly killed Sunday evening when the automobile in which they were riding was struck by a west-bound Pennsylvania passenger train at Gray's Crossing five miles east of here. The train is said to have been running at sixty-five miles an hour at the time. Brink was driving north.

When the engine struck the machine the engineer thought part of the machinery of the engine had broken and brought the train to a standstill, when the parts of the automobile were found on the pilot of the engine. The bodies were brought to the city and taken to an undertaking establishment, where a brother-in-law of Brink identified his body. The body of the woman was not identified until late last night. She is survived by her husband, Harvey Weldele, an electrician. Brink was unmarried.

This accident occurred at the same crossing where Fred Nelson of this city, who with three other persons was driving a Ford touring car, were struck by a Vandalia passenger train several months ago. It will be recalled that Nelson suffered severe injuries about the face and head. This is a very dangerous crossing for autoists.

STRIKE OF RAIL SHOPMEN  
ENDS BY AGREEMENT

Chicago, August 15.—The railway shopmen's strike is off and the men will return to work Saturday. This was the decision last night of representatives of the strikers from widely scattered points throughout the country after an all-day meeting.

No official announcement was made, but the result was learned from men familiar with the proceedings.

While the shopmen's representatives were in session, a mass meeting of car repairers, representing about 27,000 strikers, also decided to return to work.

The shopmen's meeting was called by the Chicago District Council, which called the strike August 1 in defiance of the international officers of the shop crafts, who were in session in Washington negotiating with Director General Hines of the railroad administration.

## Decision Was Foreseen.

The decision had been expected since the council decided several days ago to call the meeting. An attempt to obtain recognition from Director Hines for the Chicago leaders of the strike had failed. President Wilson said that before the railroad administration would take up demands the men must return to work.

The telegram to President Wilson last night was said to have been a notification that the men would return to work. A resolution adopted asked that the President invite a committee of three from the district council to go to Washington and sit in the next to Washington and sit in the next

## PACKERS TO ISSUE WARNING.

Chicago, August 15.—Every man who feeds or raises live stock, no matter how few head, will be interested in a statement which the Institute of American Meat Packers of Chicago will address specifically to the live stock producers of America.

The Institute is a national organization, including the five large packers at Chicago as well as almost two hundred smaller concerns.

This explanation will be issued in reply to United States Senator Kendrick's statement giving his reasons why his bill should be passed. It is now in preparation and will say in part to the producers:

"You should realize that the propaganda which has been going on against the packers injures the live stock industry. It not only has caused Americans to eat less meat, but even has affected England's desire to buy meat from us, thereby curtailing our export market and lessening the demand for the products from your animals."

The Senator's principal reason for favoring legislation is that since the packers have become large and national in scope they must be controlled by the government. If this principle is established for the packing industry there is no reason why it should not be extended to other industries. It would be a step toward Socialism.

"If our credit were injured as in the case of the railroads, we could not borrow money to keep our plants going and to pay you cash for your animals."

"The most dangerous feature of Senator Kendrick's bill is that packers who engage in interstate commerce can do so only by taking out a license. The secretary of agriculture has the power to grant, suspend or revoke such licenses practically at his own whim. This would mean a paternalistic control of business by inexperienced and theoretical subordinates in Washington.

"All this could mean nothing but lower efficiency and higher cost, which would result in a lower price for live stock as compared with the price we could get for meat."

"Remember also that this proposed legislation is based largely on the report of the federal trade commission. Although the trade commission hates to make this admission, it must have discovered two vital things—first, that the packing industry is conducted with the highest degree of efficiency; and second, that it operates at only a fraction of a cent profit per pound, so that if the packers' profits were entirely eliminated it would not

stock or of meats. It is the volume of business which enables the large packers to operate on such a small margin of profit."

FOOD HEADS ARE  
INVESTIGATING

Putnam County Food Administrator T. E. Evans and Putnam County Prosecutor Fay Hamilton are doing all in their power to find out if any profiteering is done by Putnam county merchants and will severely punish them if any such are found. Mr. Hamilton announced this morning that there will be an early session of the jury, at which session all merchants will be brought before the members and carefully scrutinized as to the purchasing price and selling price of goods.

County Food Administrator T. E. Evans has appointed the following people of this county on the fair price commission:

Charles Zeis, chairman—grocer.  
W. A. Cooper—grocer.  
Joseph Allen, Jr.—dry goods merchant.

Charles Broadstreet—shoe merchant.

Fred Allen—laborer.

Mrs. J. C. Brothers—food clubs.

Charles Meiker—consumer.

W. H. Peck—consumer.

Clell J. Bain, of Russellville—general store.

A warning to all sugar merchants was issued this morning by Mr. Evans. It is as follows:

"In accordance with the rulings of the national and state food administration, 11c is a fair price for retailers to sell bulk granulated sugar. Wholesalers shall sell to the retailer at 9.7c to 10c a pound for bulk granulated sugar. Sales at more than above prices shall be deemed unfair and subject to criticism."

REGISTRATION AT DEPAUW  
WILL BEGIN SEPTEMBER 13

Saturday, September 13, will be the first day of registration for DePauw University. Classes will begin on Wednesday, September 17. Announcement was made this morning by college officials that there would probably be an enrollment of 1,000 students. This is about the normal enrollment of the past few years. Several changes in the faculty members have been made.

The loss of Prof. William Marion Hudson, head of the department of economics, who resigned several days ago, will be especially felt by the college folk. His work in DePauw was highly merited and the many friends with whom he has become acquainted will greatly miss him. Prof. Hudson leaves DePauw to enter the life insurance field with the State Life Insurance Company of Indianapolis.

Dr. Walter E. Bundy, who comes to DePauw this year as assistant professor on English Bible has had quite a remarkable experience during the war period. Dr. Bundy, who is a graduate of DePauw University in the class of 1912, and later a graduate of Boston University, has been stationed at Vienna, Austria, working in connection with the peace conference. Before going to Vienna he was vice consul at Basel, Switzerland. This post was most important, as his duties lay near the German-Swiss border. While in Switzerland Dr. Bundy married a native of Switzerland. Dr. and Mrs. Bundy are now living at the home of Col. Weaver on South College avenue.

Two men who have been elected to this year's faculty as instructors in English writing are Eric A. Eckler and R. Ray Steele. Mr. Steele is a graduate of Adrian College, Adrian, Mich., and has lately been instructor in the Ohio State School, Columbus, O., and Ohio University at Athens, O. Mr. Eckler holds an A. B. degree from Washington, D. C., and Jefferson College, Washington, Pa., and comes to DePauw having taught in the University School of Cleveland, O.

Dr. Arthur W. Calhoun, a graduate of the University of Pittsburgh, who recently received his master of arts degree under Prof. E. Ross of the University of Wisconsin, Madison, Wis., doctor of philosophy at Clark University, Worcester, Mass., comes to DePauw to become acting head of the department of sociology. Dr. Calhoun has written a three-volume book on "The Social History of the Family." This department forms a new chair in DePauw this year.

Lester E. Mitchell, who comes to DePauw University from West Technical High School of Cleveland, O., will be assistant professor in English composition. Mr. Mitchell is a graduate of Denison University, Granville, O., and received his A. M. degree from Chicago University. He will have charge of the newspaper and business writing work in the English department. Mr. Mitchell has recently been in Cleveland in newspaper work.

## MEXICAN SITUATION

## IS SERIOUS

Washington, August 15.—The first definite move toward the long expected change in policy in dealing with Mexico was disclosed today.

Carranza has been warned that if the murders and outrages of Americans continue the United States "may be forced to adopt a radical change in its policy with regard to Mexico."

With the announcement at the state department, however, came no authoritative indication of how far the American government is preparing to go to enforce what lacks only the diplomatic technicalities of an ultimatum.

The government announced its action by publishing an exchange of notes with the City of Mexico and prefaced its official statement with the explanation that the diplomatic representations referred to had been taken "in view of the long series of murders and outrages of American citizens in Mexico culminating in the murder of Peter Catron in San Luis Potosi last month and the perpetration of other acts in disregard of American lives and property."

## Note to Carranza.

The following note, the state department announced, was presented to the Mexican government by Charge Summerlin of the American embassy: "Mexico City, July 22, 1919.

"Sir: With reference to the embassy's note, dated July 16, 1919, relative to the murder of Peter Catron, near Valles, San Luis Potosi on or about July 7, last, I have the honor to inform you that I am now under telegraphic instructions from my government to urge upon the Mexican government the capture and punishment of those responsible for this murder and the adoption of adequate measures to prevent a recurrence of the murder of American citizens.

"I am also instructed to state that should the lives of American citizens continue to remain unsafe and these murders continue by reason of the unwillingness or inability of the Mexican government to afford adequate protection, my government may be forced to adopt a radical change in its policy with regard to Mexico.

"Accept, sir, the renewed assurances of my highest consideration.

GEORGE T. SUMMERLIN,  
Charge d'Affaires."

To this communication the Mexican government returned the following reply, dated July 28, signed by Salvador Diego-Fernandez, in charge of the department of foreign relations:

"Mr. Charge D'Affaires: The note which your honor was pleased to send me on the twenty-second instant, advised me of the instruction which you had received to notify this department that if the lives of the citizens of the United States in Mexico continued in a state of insecurity and if murders should continue because of the unwillingness or inability of the Mexican government to give adequate protection, the government of the United States would be compelled to adopt a radical change in its policy with regard to Mexico.

"In reply, I have the honor to state that the fact that offenses against the lives of citizens of the United States have occurred in the territory of the republic can not be notoriously attributed to unwillingness to give protection. The willingness to furnish this protection has been expressed repeatedly and the material difficulties in the way of fulfilling a promise, supposing that it is not fulfilled, should not be confused with unwillingness to do so, especially as this willingness had been demonstrated by acts.

"Moreover, if we consider the protection of human life in absolute terms, that is to say if in every case and wherever a citizen of the United States may be within Mexican territory he should enjoy special and effective protection to a degree such that his life may never be placed in danger, it is not possible for the government of Mexico to do this because so perfect a condition of security exists nowhere; with all the more reason is this true, considering the great territorial extent of the republic, its scanty population and the difficult conditions which prevail after a long civil war.

"The government of Mexico has always endeavored, as far as possible, to give full security to the lives of foreigners, as well as of its nationals, but the act is that foreigners, through ignorance, the lack of prudence or rash eagerness for profit, venture to remain or to travel in dangerous regions, thereby incurring the risk of becoming the victims of offenses and even to the point of escape offenses because of their being foreigners."

The trouble dates back two months when the employees struck for higher wages and a closed shop. The company granted an increase in pay but declined to recognize the union. The plant has been closed several weeks.

## CROWD ATTENDS PICNIC.

It was one of those happy-go-lucky crowds that boarded the south-bound Monon train last Thursday morning for the Quincy picnic. Everyone had a smile and a little money. A feature of the crowd this morning was the fact that so many people were from Indianapolis, Terre Haute and Brazil. It was estimated that 150 people made the trip from Greencastle either in automobiles or on the train. The train this morning, which should have arrived at 8:25 o'clock, was thirty-five minutes late, but the people didn't seem to care. They knew it would come during the day, so why worry?

TROOPS HELD READY IN  
PEORIA STEEL STRIKE

## TO INVESTIGATE

Peoria, Ill., August 14.—Illinois reserve militia units were ready today to march to the Keystone steel and wire plant in South Bartonville and preserve order in the steel mills, where fighting yesterday between striking employees and deputy sheriffs resulted in the injury of five persons.

A number of shots were fired last night, but today there was no sign of further rioting. Several explosions, believed to be dynamite blasts, shook the works of the plant early today. That the blasts were inside of the guarded works of the Keystone mills was admitted by officials of the company.

The trouble dates back two months when the employees struck for higher wages and a closed shop. The company granted an increase in pay but declined to recognize the union. The plant has been closed several weeks.

PROSECUTING ATTORNEY  
TO INVESTIGATE

One of a number of letters which is being sent out from the office of the attorney general to the prosecuting attorneys of the states urging their assistance during food investigation has been received by F. S. Hamilton. He is urged to render his assistance in gathering local evidence.

## To the Prosecuting Attorneys:

Under the present agitation by federal and state authorities to correct the evils of extortion and to reduce the high cost of living, I find very little in our anti-trust laws to give us hope to accomplish the prosecution of profiteers and extortionists.

However, it is the duty of the attorney general and the prosecuting attorneys to institute proceedings to prevent and restrain violations of

OIL INDUSTRY IS  
THRIVING IN KENTUCKY

That Kentucky has forged to the front almost overnight as one of the largest oil producing states in the United States during the season of 1919 is evidenced by the report of the pipe line runs, which show that there has been approximately 6,000,000 barrels of crude oil produced in the state during the last seven months, which is nearly 2,000,000 barrels more than the total production for the entire season of 1918, during which 4,035,950 barrels were reported.

Greencastle can well afford to take great pride in reading such reports as the above given out concerning the great oil production which is taking place in the fields of Kentucky. Through the efforts and financial aid of a number of Greencastle citizens the richest industry of the world has been made possible. Probably the richest oil company in Kentucky is that which is owned by Charles R. Dulin. Mr. Dulin began the oil game in 1913 by leasing four acres in Estill county. He brought in his first well, which was a three-barrel well, in 1914. This was a little encouraging and with renewed determination he drilled his No. 2 well, which proved to be more discouraging than the first one. With more determination than ever he drilled the third well, which proved to be a five-barrel well, and well No. 4 made twenty-five barrels per day. With much perseverance Mr. Dulin has developed 30,000 acres

"Mr. Dulin then organized the present Dulin Oil Company, and the new company adopted a policy that reflected the same progressive and enterprising spirit that had so marked the activities of Mr. Dulin since he of the richest and choicest gas lands in the state of Kentucky. In referring to the Dulin Oil Company the Lexington (Ky.) Herald says in part:

"Mr. Dulin financed and developed the Maple tract in Estill county and it was Indiana money that drilled the first four wells. Some people have the idea that Mr. Dulin is a native of Kentucky and has only been in the oil game since the opening of this Irving field. He is a native of West Virginia and his father, Charles Dulin, was a pioneer in the oil development in that state. Mr. Dulin has been brought up in oil fields and has practical knowledge of every phase of the game.

first entered the industry in Kentucky.

"The present holdings of the company are over thirty thousand acres of the choicest oil and gas lands in the state. Part of this lies in the heart of the valuable territory owned by the Standard Oil Company. Fifteen thousand acres of it is in Clay county. This county is possibly the largest container of gas so far discovered in the state. It holds what is now believed to be the largest gas pool in the country. One well owned by the company is capable of making five million cubic feet of gas per day.

Among the first to try for oil in Estill county were the Hillis brothers, both Indians and residents of Greencastle. The Hillis Brothers Oil Company, as it is known, was organized by J. T. Hillis, president of the company, and Fred B. Hillis, who is secretary and treasurer. They bear the distinction of having opened up the first field in which the development ever took on the proportions of a boom. The Hillis company has a capital of \$10,000, being a close corporation with its entire roster of stockholders being relatives of Messrs. Hillis. Frank Shoptaugh of this city is also a stockholder in this company. The company owns about four thousand acres which they believe to be valuable territory and will prove to be very productive. They expect to start development in the near future. Fred Hillis was independently of the Hillis Oil Company over four thousand acres on which he expects to start development soon.

Notwithstanding his absenteism, Fairfield's name is one of the few from Indiana to appear in the Congressional Record. At one time he came into the House for a day, made a speech upon "The Static Conditions of the South" and apparently earned his salary for some time by this oratorical outburst.

Fairfield will be read out of court by his other Republicans from Indiana if he continues to absent himself. There have been a number of measures which were of extreme importance and upon which Fairfield was not recorded. It has been difficult to get him "paired" because of the take vacations away from their duties. So far as is known, Fairfield has not requested leave of absence in accordance with the practice.

Now Fairfield is about to be criticized by publican majorities in the House and the great number of Republicans who used with additional emphasis because it is reported he intends engaging a relative as one of his office force. That has been done in Congress before, but usually there is a bit of discussion about it later. Sometimes a very business-like member will go out and put more than one of his close relatives on his payroll and thus gather in all the spoils. Mrs. Frank Shoptaugh was severely bruised late last Friday evening when she was struck by a bicycle on East Washington street ridden by Paul Dodd, son of the Rev. and Mrs. Dodd of this city. Dodd was riding west on the sidewalk coming at a fast rate when Mrs. Shoptaugh stepped from Mrs. Raser Bittles' automobile onto the sidewalk. The view of Mrs. Shoptaugh was obstructed from the bicycle rider by a large tree. Mrs. Shoptaugh was knocked to the ground, severely bruising her right hip, head and wrist. The Dodd boy was thrown from the bicycle and struck his head on the sidewalk, rendering him unconscious for several minutes. Dr. C. W. W. Tucker and son, Dr. C. C. Tucker, were called and rendered medical aid to Mrs. Shoptaugh and Paul Dodd.

POLITICAL GOSSIP  
FROM WASHINGTON

Washington, August 16.—Representative Louis W. Fairfield, of Angola, twelfth congressional district of Indiana, has devised a practical method of beating the high cost of living. Fairfield's advice is: "Go out and make more money." As one of those who practices what he preaches, he has gone out to make a little "on the side." While the people who pay the salary of their congressman are worrying over the cost of foodstuffs, Fairfield is on a Chautauqua tour in the New England States beating the high cost of living.

Fairfield's activities have become quite a popular subject of conversation in the Indiana delegation's offices. Some of Fairfield's friends insist other members of the delegation are jealous that Fairfield has found an opportunity to make a little additional pocket money while he is being paid also by the public to represent the twelfth district in Washington.

Being away from Washington at this time is regarded as being rather dangerous for future political aspirations. There is constant demand upon Congress to do something and though little is being done there is an expectation that some day there will be such an outpouring of the public wrath that Congress will be forced to act.

Fairfield knows a great deal about serving the public while away from Congress. It is said his present vacation will extend over ten weeks, which also is slightly longer than any for Washington. He has ability to serve his constituents at a considerable distance. He has been away a large part of other Congresses and also of this summer's absence.

Notwithstanding his absenteism, Fairfield's name is one of the few from Indiana to appear in the Congressional Record. At one time he came into the House for a day, made a speech upon "The Static Conditions of the South" and apparently earned his salary for some time by this oratorical outburst.

Miss Alice Thompson returned home last Friday evening from an extensive trip with her mother of Des Moines, Iowa, in the West. Miss Thompson while on her vacation went to the top of Pike's Peak, was at Colorado Springs and at the Cascades. She reports the weather to be the hottest in Colorado for many years. Walt Mason, one of America's greatest philosophers, was at Colorado Springs while Miss Thompson was there. She said this morning that going to the top of Pike's Peak in autos is quite the fad now. One man driving to the top of Pike's Peak was so wearied he fainted when he reached the top. In many places the road is very narrow and if the driver should make a faulty turn the car might go over a precipice many miles deep.

GREENCASTLE GARGAE

MOFFETT TO BE ON TIGER LINE-UP THIS YEAR

Donovan Moffett, former Bainbridge high school athletic star, promises to be one of the shining lights in the football and basketball aggregations of DePauw during the coming athletic seasons. Moffett put the Bainbridge high school basketball team on the map by his work and last year injuries kept him from assisting DePauw's championship football team.

Moffett has the weight, the speed and the nerve to make a terrific lineman for the Tigers this fall. He received an injured ankle in the Indiana

other football games of the season, but he showed up well in basketball. His fellow team mates say he is one of the hardest hitting linemen ever attempting to make the Tiger team.

He weighs well over 200, is lightning fast and Coach Buss is predicting great things from this Putnam county lad. He will be a sophomore this year.

J. W. McCammack, who resides north of Belle Union on his farm, has held eight farm sales during his farm experience, and the one he held Saturday, August 16, was the best ever. He reports that the money value far exceeded any other sale held.

UNION MEETING TO

BE HELD AUGUST 24

The union meeting of the Green castle churches will be held next Sunday evening, August 24, at 7:30 in the Christian church. The address will be delivered by Rev. W. E. Carpenter, of Brazil. He has just returned from extensive travels in Syria and Armenia and from personal observations gives an interesting account of the conditions in these countries following the war. This will prove a most interesting meeting. Everybody in Putnam county cordially invited.
