The Subscribers

HAVE purchased the right of making and vending the

PATENT SPRING

SADDLES,

FROM BRYAN AND SON,

of Lexington, Kentucky, the original inventor and patentee. These saddles far excel any others ever before used, in affording ease to the horse as well as the rider. They are so constructed as to relieve the rider from the fatigue and jolting of the common Saddles. By means of a spring working inside, and operating so as to yield with the greatest facility to the weight of the body, the rider feels no movement except that arising from the play of the Saddle, and by this means the hardest trotting horse may be ridden with pleasure. This Saddle is now in general use throughout the State of Kentucky, and in some of the other states. The difference of experience between it and the common Saddles is trifling, and is more than overpaid by the ease and safety which it affords to the traveller. It is not thought necessary in an advertisement of this kind to describe it particularly, and to notice the difference between the

Patent Spring Saddle

and the one now in use.

Persons disposed to purchase, will call at the shop of the subscribers, where they will have an opportunity of examining them.

A BARGAIN.

For Sale,

320 acres

FIRST RATE LAND,

LYING in Crawford county Illinois, about 3 miles Harris' Bluff, which is a good landing place for boats at all seasons of the year—4 1/2 miles from York, and 8 from Palestine, the county seat for said county. There is 80 acres under fence, and 40 under good cultivation—also several never failing SPRINGS, a good Cabin, some stock, a team and farming utensils sufficient to carry on the business. About one half of it is Prairie and the other excellent timber. This for the convenience of its situation and richness of its soil, cannot be surpassed by any in the western country. It is favored by a salubrious breeze at all seasons of the year—in a neighborhood of people where nothing but harmony prevails. A road is to run between the two quarter sections, to strike the Wabash river at the main landing place for that settlement. A saw-mill and grist-mill are now building within one and a half mile from the premises. Any persons wishing to purchase land with improvements would do well to look at this, for I am positive that they would be pleased with its situation and the terms on which it can be purchased.

For further information apply to the subscriber at Col. H. LASSELLE's tavern.
