

## STRIKES CRUMBLE IN EAST AND WEST

U. S. Arrests and Railroad Ultimatum Seen as Factors in Improvement.

### MORE EMBARGOES LIFTED

New England and Chicago Districts Especially Report Gains Against Strikers.

#### Resume of the Strike

Return of strikers and improvement in service was reported today by railroads in various parts of the country as the newly-appointed railroad labor board assembled in Washington for its first session to consider wage demands of rail workers.

In the New York district, where volunteer crews continued to man trains in increasing numbers, there were conflicting reports regarding the number of men who had returned after the railroads last night had delivered an ultimatum that their last chance would expire tomorrow noon. Some roads announced that strikers were flocking back, but others reported sporadic walkouts.

Some brotherhood officials expressed the fear that the men might regard the ultimatum as a challenge and prolong their walkout. Efforts at conciliation in Jersey City today were without result.

Crumbling of strikes in the central and far west was indicated following the action of the government in arresting twenty-five strike leaders in Chicago. Improvement in service also was reported in the middle west, one of the regions hardest hit. Almost normal operation was reported by many roads leading into Pittsburgh.

With passenger service generally improved throughout the country increased freight shipments were reported in the New York and New England districts. Officials of the New York Central announced that freight service was as much improved that the embargo had been lifted east of Buffalo and north of Yonkers on the New York Central and north of Newburgh on the West Shore railroad.

New England points reported arrival of more freight, including coal, than any day since the strike spread to the east. Proposed drastic cuts in railroad passenger schedules and a general industrial shutdown were believed to have been averted.

CHICAGO, April 16.—Speedy disintegration of unauthorized railroad strikes in the central and far west was forecast today with the serious blow struck by the government at the insurgents' stronghold in Chicago by the arrest of twenty-five strike leaders.

The arrest of the Chicago leaders, who were at liberty today under bonds of \$10,000 or arranging for bail, was promised to all those participating in strike activities pending hearing of charges of violation of the labor food control act, for which they were held without bail.

Five other leaders for whom warrants had been issued were expected to surrender today. They were appointed to take the offer to Washington.

#### IN APPRECIATION.

On account of the switchmen's strike, and the uncertainty of the duration of the railroad tie-up, retarding or preventing delivery of the news-print paper, the Indianapolis News decided that it was prudent to reduce the size of its daily issue in order to be in a position to back its assurances of continuous and uninterrupted publication no matter how long the strike lasted. We wish to express a sense of appreciation to all of our advertisers who have helped to conserve print paper by responding to the appeal to reduce the volume of advertising. They have enabled us to save seventy-six pages or 608 columns this week. And by their co-operation have made it possible for the News to devote practically the usual amount of space to news matter. We have felt that the first obligation was to continue to supply in full measure the news of the day. By the conservative use of paper the News will emerge from the strike with a reasonable supply of news-print, and will return toward normal conditions as rapidly as it becomes apparent that further supplies of paper may be had from the mills.

Seventy Cars of Coal Arrive From Terre Haute Fields—Thirty-One Engines in Big Four Yards.

Embargoes against freight, placed in effect last week by railroad companies because of the insurgent strike of switchmen, were still further modified today by several companies. The motor truck interests are perfecting an organization to relieve the freight emergency and announce they are now handling about 100 tons of freight in and out of Indianapolis daily.

The Lake Erie & Western railroad announced that, beginning today and until further notice, the company will accept less than carload shipments for all points on the road, except freight for Muncie and Lafayette, and Bloomington and Peoria, Ill., subject to delay. The Pennsylvania is accepting less than carload freight only for points on divisions of the road. Freight on the other railroads is being handled as previously announced.

#### Coal Brought to City.

The Big Four had thirty-one engines in operation in the yards today and officials said they were taking care of all freight in the yards. About seventy cars of coal were brought into the city from the Terre Haute coal fields Thursday. Railroad officials generally expressed the opinion that settlement of the labor trouble is not far off.

Motor truck operators and shippers came to an agreement on a basic rate for handling freight at a meeting at the Chamber of Commerce Thursday. Another meeting is to be held next Wednesday evening at the Chamber of Commerce at which it is planned to complete the organization of an association to take over the management and operation of a permanent highway motor transport system.

#### Truck Rates Announced.

Tom Snyder, secretary of the transfer division of the Chamber of Commerce, said that the motor trucks have been hauling an increasing amount of freight in and out of Indianapolis since the strike started. The rates proposed by the truck operators are as follows: Ten miles or less, 3 cents a mile, a 100 pounds; ten to fifteen, 2 cents; fifteen to twenty-five, 1½ cents; twenty-five to forty, 1½ cents; forty to fifty miles or more, 1½ cents a 100 pounds a mile. These rates, subject to classification, were accepted.

At a meeting of organized railroad employees, will be held this evening at Moose Hall, 129 North Delaware street, at which the switchmen's strike will be discussed. The men are recognized as leaders among the union men. About 500 members in each of the two local brotherhoods met at the hall Thursday evening, and adopted resolutions expressing faith in the brotherhoods ability to bring the switchmen to return to their unions and to resume their work without delay. The session this evening is open to the public.

#### STRIKES CRUMBLE

TO RETURN AT TOLEDO  
TO RETURN AT TOLEDO

AGREE TO CONDITIONS SUBMITTED BY B. & O. ROAD.

#### GO BACK TO JOBS AT ONCE

TOLEDO, April 16.—By a large majority 4,000 "insurgent" railroad strikers of Toledo voted this afternoon to return to work immediately. They agreed to abide by conditions submitted by the Baltimore & Ohio. These conditions provide that the trainmen return to their respective positions, that no discrimination or prejudice be shown against the men and that everything be done to see that their requests for increased pay and better working conditions by granted.

CONDITIONAL RETURN VOTED.

Baltimore Strikers' Ultimatum Settled.

BALTIMORE, April 16.—At a large and extended meeting of strikers in the Baltimore district of the Pennsylvania and Baltimore & Ohio railroads this afternoon a resolution was adopted promising a return of the men to work "in five hours" if the new railroad labor board would agree to give its decision on their demand within thirty days.

The resolution also included a threat to strike again in five hours after the expiration of the thirty-day limit if no decision was reached by the end of the period. A committee was appointed to take the offer to Washington.

#### 100 DESERT STRIKERS.

QUIT JERSEY CITY MEETING TO GO BACK TO WORK.

JERSEY CITY, April 16.—About 100 striking railroad men in a body walked out of a meeting here this afternoon with the announced intention of "going back to work."

About twenty of the men who deserted the strikers' meeting said they were tumb men. The others were Erie and Lackawanna yard workers.

#### CREWS GO BACK AT PITTSBURG.

First Notable Break in Ranks of Pennsylvania Strikers.

PITTSBURG, April 16.—Five crews of striking yardmen in the eastbound section of the Pottsville yards of the Pennsylvania railroad returned to work this afternoon. This is the first notable break in the ranks of the strikers in this district.

"OUTLAW" LEADERS SAY  
THEY WILL GO TO JAIL

GRUNAU AND READING AFFIRM THEIR INNOCENCE.

#### FLAY OLD BROTHERHOODS

CHICAGO, April 16.—John Grunau, president of the Chicago Yardmen's Association, and H. E. Reading, president of the United Engineers' Association, the two "outlaw" railway unions, announced today that they would go to jail on the government's charge of conspiracy to violate the law act.

The two, with twenty-two of their followers, were arrested yesterday by federal agents and released on their own recognizance, with the chance to obtain the \$10,000 bond set by Commissioner Mason.

#### OFFICIALS HOPEFUL.

"I can raise the required bail with ease," Grunau said, "but I don't intend to do it. I question the right of the government to arrest me. I have committed no crime against the laws of the country and if the government officials want to put me in jail I won't hinder them."

Reading declared that "it's principle that we must be let up to go to jail rather than give bail."

The organization will not disband but will consist of members who take the places left vacant by those who choose to go to jail with me. There will be no let-up in our campaign.

"We have no quarrel with the government or with the railroads. What we are fighting in the old autocratic rule of the brotherhoods."

Lays Down Comprise.

"Our only compromise will be for them to accept our constitution, including the initiative, referendum and recall as applied to the administration of the brotherhoods."

TOLEDO, April 16.—Toledo industries continued to close down today because of a lack of fuel due to the railroad strike. The Toledo Shipbuilding Company is preparing to meet the drag net spread over union men in the city. The down town hall is practically a silent ghost town, while fuel regulations are in effect. The fuel situation continues acute.

Meantime, the brotherhood leaders continued their efforts to induce the men to accept the new railroads' grievances to the new railway labor board. F. A. Dodge, assistant president of the Brotherhood of Railway Train-

## 26-CENT SUGAR SOON, JOBBERS' PREDICTION

CONFERENCE WITH WYCKOFF  
OVER SITUATION.

#### 25.75¢ WHOLESALE REPORT

Sugar wholesalers in Indianapolis met with Stanley Wyckoff, fair price commissioner for Indiana, again this afternoon to lay before him prices which they are now paying for sugar with a view to fixing an average wholesale price. The present price at which wholesalers sell to retailers is 24¢ cents a pound.

The jobbers told Mr. Wyckoff this afternoon that they now are paying as high as 25.75 cents a pound, f. o. b. Chicago. One wholesaler said he had been offered a quantity of sugar at 27 cents a pound, f. o. b., a refinery in New Jersey. If that sugar should be received in Indianapolis it would retail at nearly 30 cents, the wholesaler said.

Look for Influence on Strike.

Both administration and railroad officials believe that the prompt assembling of the board will have its influence on the present strike of railroad

**PERU WOMAN CHAIRMAN  
OF CLUBS' FEDERATION**

ELEVENTH DISTRICT MEETING  
CLOSES AT WABASH.

TO MEET AT MARION IN 1921

WABASH, Ind., April 16.—Mrs. Edwin Miller, of Peru, was elected chairman of the Eleventh district Indiana Federation of Clubs at the annual meeting of the organization here yesterday. Mrs. Fred Gartwaite, of Gas City, was elected vice-chairman of the district and Mrs. W. J. Whitelock, of Huntington, was elected secretary-treasurer. Marion was selected as the 1921 convention city, but no date was set for the meeting.

Two hundred and seventy-three members registered for the convention, which was held in the First Methodist church here, and more than 200 were served at the noon luncheon given by the Wabash club.

County chairmen for the year are: Blackford, Mrs. James Chapman, Hartford City; Cass, Mrs. W. A. Hartman; Elkhart, Mrs. W. C. Hartman; Grant, Mrs. C. S. Williams; Marion, Huntington, Mrs. O. C. Morgan; Huntington, Miami, Mrs. F. W. Troutman; Peru, Pulaski, Mrs. Louis Thompson; Winamac, and Wabash, Mrs. Edwin Miller, Wabash.

The retiring district officers are: Mrs. Lyra S. Gordon, Logansport; Manchester, Mrs. Holly Sheller, North Manchester; Vice-chairman, and Mrs. Harry McDowell, Winamac, secretary-treasurer.

**PHYSICIAN ASKS \$100,000**

**Sensational Damage Suit Filed in Knox Circuit Court.**

[Special to The Indianapolis News]

VINCENNES, Ind., April 16.—What is regarded the most sensational suit for damages filed in the Knox circuit court in months was placed on the docket Thursday, when Dr. George F. Smith, of Vincennes, filed a suit against Drs. Thomas M. Staley, Hiram E. Dees, present coroner of Knox county, William E. Kessinger, and Guy H. Wilson, all practicing Bicknell physicians and surgeons. Dr. Smith

says \$100,000 and alleges that the defendants used every effort to get him out of Bicknell. Blackhand letters threats of murder, false charges, court trials and sensational allegations feature the long complaint.

The suit is based on the outgrowth of trouble which took place more than a year ago when efforts were made to have the board of medical examiners revoke the license of Dr. Smith on the ground that he obtained the license through fraud. The charges were filed with the state board of medical examiners in Indianapolis the license was revoked.

Dr. Smith later took an appeal to the Knox circuit court and won his case, again charging a conspiracy and opening his offices in Bicknell.

It is said in the complaint that before the charges were filed with the state board of medical examiners, efforts were made to have Dr. Smith threatening his life in the event he failed to leave the city of Bicknell within a certain length of time. All points in the suit are prominent and wealthy.

It is said in the complaint that he obtained the license through fraud.

Professor Harris of Butler, says strikes are the great cause.

"If the modern world with its highly specialized industrial system could only exist without strife between employer and employee," declared Prof. Wilmer C. Harris, head of the history department in a lecture at Butler College Thursday, "there would have more leisure and comforts than any of us want at this time."

Professor Harris scouted the theory that excessive demands for luxuries were the cause of the high cost of living. He referred to the present railway strike as an example to prove his point.

"We could only perfect this great international machine so that no cog would slip," he said. "There would be plenty for every one." Professor Harris said strikes are the great cause for high prices.

**Grade Schools Field Meet.**

The five grade schools of Center township will hold their field meet at

Special for Saturday

Net Vestings at 4.98 Yd.

Dainty, trimmed in net and lace frills. Colors in vogue for suits and dresses. On sale Saturday, 4.98 yd.

(Wasson's, First Floor)

## Notice to Gas Consumers!

There has been no material change in the gas situation during the past 48 hours. A few cars of coal and oil were received yesterday, but not sufficient to improve conditions to any great extent, while embargoes against Indianapolis on our principal coal roads make future prospects more gloomy than they have been heretofore. We have been able to do no more than maintain gas stocks by our system of fair pressure during cooking hours and a minimum pressure at other times.

A slight change will be made in the hours of better supply so that they will be as follows:

5:30 to 7:30 A. M. 11 A. M. to 1 P. M.  
5 to 7 P. M.

The reason for the change in the early period is the request of many workmen for a supply of gas for earlier breakfast. The hours first established by us are those desired by the greatest number of consumers, but since some must have an early breakfast in order to get to work in time, and those who are accustomed to later breakfasts can change to an earlier time during this emergency, it has seemed reasonable to make the change indicated.

To gas consumers who are disappointed because they can not get gas for heating, we are able to report that the railroads are still able to move coke to most of the coal yards of the city. Up to the present time there has been no shortage of fuel for domestic purposes.

## SPEAKS STRONGLY FOR CHILD GUARDIAN PLAN

LAKE COUNTY REPORT SHOWS EFFICIENCY OF SYSTEM.

## CHILDREN REMAIN IN HOME

Why an expensive mother's pension law for Indiana when the state has a children's guardian system working to splendid advantage? is a question heard occasionally at the office of the board of state charities. In this connection a recent report has been submitted by the Lake county board of children's guardians which speaks strongly in favor of the system, showing that it carries out the principle of not taking children away from their homes to institutions, but working with the parents to the advantage of the children, and sometimes the parents as well.

## Leaves Child in Home.

The children's guardian law provides that a mother may receive from the state not to exceed 50 cents a day for each girl child until she is seventeen years old and for each boy until he is sixteen years old, unless the child is less than five years old, when the amount received is 10 cents more. At present the Lake county board of children's guardians has a pension list, and there are seventy-seven children in the families. The report states:

Of the 100 pensioned mothers are 100 per cent good mothers. None of the children in these homes has been in court. This is an important record for in homes where the mother is compelled to go out to work every day, the children frequently are in serious trouble and often are committed to the correctional institutions. This law is giving these children not charity, but a chance.

## IN CITED.

One example of the working of the law is shown in the case of a Polish family. The father was good, but had a bad, devolving epilepsy, and was sent to the Village for Epileptics at Newcastle. The mother was left with three children, one of whom spoke English, and was very timid. The family would have been broken up and the children sent to state or other institutions, but the law, which authorized steps taken by the board of guardians to provide an allowance for the mother.

## The School Enumeration

Reports from the office of the public schools indicate some difficulty is being experienced by school enumerators in obtaining the co-operation of the concession persons of school age. Attention is called to the fact that the sole purpose of the enumeration is to obtain for the city its proportionate share of state school funds, which amounts to about \$5 for each person enumerated.

## LIBRARY TRUSTEES TO MEET

Six States to be Represented at Conference at Severin, April 22.

The meeting of library trustees of six states to consider "an enlarged program" for the American Library Association will be held at the Hotel Severin, April 22. William J. Hamilton, secretary of the state library commission, has announced. Mr. Hamilton said Hoosier librarians and library trustees are invited to attend the conference, which is to be presided over by five officially designated library trustees representatives from each of the following states: Ohio, Wisconsin, Michigan, Kentucky, Illinois and Indiana.

Mr. Hamilton announces that the state commission will provide for any expense of traveling and living in library which may be needed to carry on home reading circle work proposed by the United States reading circle leaders. It will be conducted by Indiana University and the state department of public instruction.

## Air Service Enlistments

Enlistments in the air service will be accepted at all United States army recruiting stations, according to a war department order received at the local recruiting station. The air service needs men qualified as follow: flight and cargo workers, instrument repairers, engine mechanics, riggers, gas men, airplane mechanics, engine mechanics, electricians, machinists and auto repairmen.

## DILLON ADDRESSES MINERS

State Labor Party Chairman Speaks at Terre Haute Convention.

TERRE HAUTE, Ind., April 16.—The miners' convention of district No. 11, United Mine Workers of America, which comprises most of the Indiana coal fields, adjourned again this afternoon, following its recess Wednesday, to hear an address by Francis J. Dillon, of Indianapolis, president of the Indiana state party, who had been invited to address it. It is expected that the convention will again adjourn until the next session conference has completed its work.

## John L. Shaff Makes Talk.

John L. Shaff, general agent of the Union Central Life Insurance Company and district chairman of the National Association of Life Underwriters, was one of the speakers today at a meeting of the Indiana state association of Life Underwriters, at the Claypool hotel. Plans to increase the number of Indianapolis members from 115 to 125 in three months were discussed, following a talk by Joe T. Tandy, of Denver, Colo., traveling for the national association. According to Ward Hickman, president, the Indianapolis quota will be reached in less than three months.

## Warsaw Commerce Body Election.

(Special to The Indianapolis News) WARSAW, Ind., April 16.—E. A. Goss has been elected president of the newly organized Indiana chapter of the National Association of Commerce, and E. W. Gresso was named vice-president. The office of secretary-treasurer has not yet been filled. The new officers are: E. W. Gresso, E. W. Conrad, C. O. Dickey, T. C. Frazer, D. A. Peterson, W. L. Groth, W. H. Cook and W. S. Felker.

## INDIANA POLITICAL NOTES

JEFFERSONVILLE, Ind., April 16.—Scott county Republicans may be deprived of their candidate for county treasurer at the primary election, if the two men on the board of election commissioners that the women's names may not be placed on the primary ballot. Mrs. Fred Cook, who was unopposed as a candidate for the nomination for treasurer, Scott county also had no opponent. She is the only woman nomination for prosecuting attorney in the district, including Jeffersonville, Ripley county, and the two women who were unopposed by C. S. Reye, who probably will get the nomination unopposed.

EVANSVILLE, Ind., April 16.—Questions will be sent to every candidate in Vanderburgh county, to the local chapter of the Women's Christian Temperance Union. Mrs. Leslie Payne, its president, has announced. The W. C. T. U. will demand that their position on strict enforcement of the state prohibition amendment, a minimum wage for women, a representation on state industrial commission, and other state legislation, be put on the membership of 31,250. Mr. Kramer says 31,250 new members are coming in daily.

## THE VOICE OF THE PEOPLE

## An Apartment Rent Estimate.

To the Editor of The News:

Sir—An estimate made on twenty rental houses—five-room apartments with four apartments to each house, may be of interest. The figures are at least correct. Each apartment rents for \$45, \$47.50 and \$50.

Taxes	Mo. Year
Depreciation	\$ 2 \$ 24
Gas	2 24
Water	1 12
Wall paper cleaning	1 12
Paint	2 24
Fireman	2 24
Rent, basis 8 to 12 per cent	32 384

Rent for flat \$59,800.

These are practically the lowest possible rents. The property manager carefully to pull through these prices. If the rates were calculated on what the property will sell for, the rates would range from \$45 to \$50, or if the houses were let to the "highest bidder" prices would rise in about a like proportion. Some bidding prices at a basis of present worth, but this is confined largely to property that is not modern, has no water, no gas, no heat, no light, no water. We failed to find a single place where the advance was not excessive after examination. Of course the owner who furnishes heat and water who is up against the real thing. For some large flats owned by companies prices have been raised to make a basis for selling the property, but this is speculation. These figures may be of interest just now.

OWNER.

## Proud of Navy's Work.

To the Editor of The News:

Sir—I have been reading of the actions of congress as reported in The News, and I can't see but one that congress has, and that is to disband every department of the government. From the testimony of Admiral Sims one would suppose that if he had been directing the navy that half of our navy ships would have gone to the bottom of the ocean, and half of our coast towns would have been bombarded by German U-boats. There is no use for investigation.

Any one with thought knows that the navy could not have been conducted in the manner in which it was.

Those who think that we should

not be friendly, honest, sympathetic with our fellowmen everywhere in Moscow, Tokio, Mexico, and in all places. Let us try to fight our own selfishness, and let us be modest, simple and fair-minded.

A MAN BY THE NAME OF RIORIAN.

Chicago.

man, who destroy property. A man, the skin of which had dropped into a double house this winter, but before he had moved, he was questioned as to the children. Of course he did not know that there were two small ones. Well he was told he could not have the property. But after a great deal of persuasion, he was allowed to remain. Now, however, he has to pay the day he went in, and it is a fact that ten children could not have paid for decent people to go into, but it was the day he got to stay and came in.

Well the walls were so marred, the paper torn off, nails driven everywhere in the woodwork, floors

and the house was in a bad condition. The dirt well need not mention. The under-world has a hard time, and enforce laws leaving a house to a tenant in a clean condition, but all laws have flown to the winds.

A READER.

The first deed carried \$212 in stamps.

The second deed, besides conveying five parcels of land, also makes arrangements for the transfer of two mortgages for outstanding bonds to the amount of \$3,000. Part of these bonds are the property of the South Bend Home Telephone Company. The deeds were signed by Edgar S. Bloom, president, and C. L. McNaughton, secretary of the Central Union Telephone Company. The first deed carried \$212 in stamps.

The war department has changed its plan for the annual inspections, which in the past have been held for each army department.

This year the inspection will be held in the fall, and the inspection will be held in the winter.

## MISS HUEBNER PLEASED WITH SALARY SCHEDULE

BOARD TO CONSIDER PROPOSED BONUS FOR TEACHERS.

### FINANCIAL SURVEY ORDERED

Satisfaction with the new teachers' salary schedule was expressed by Miss Elsa Huebner, president of the Indianapolis Federation of Public School Teachers, at a conference of the school board with a committee of teachers Thursday afternoon. In reply to an insistent plea from the teachers that further efforts be made to increase the proposed \$500 bonus, the board adopted the following motion offered by Charles L. Barry:

"I move that the matter of determining whether or not there are sufficient funds available with which to pay additional compensation to the teachers for the last two months of the current school year be referred to the board, and that the board be instructed to make a careful survey of the financial condition of the school system, and of the sources of which funds are available on hand or obtainable by the utmost use of the borrowing power which may be made available to satisfy the very just petitions of the teachers, and shall at a special meeting to be held Saturday at 2 p.m., April 17,

#### Board's Advice Desired.

The board directed that the survey include a conference with the state board of accounts as to the legality of action proposed for the school board to obtain more money for the teachers.

E. U. Graff, superintendent of schools, explained how teachers would be placed on the new schedule. Some speakers for the teachers insisted that Mr. Graff lay down rules by which the bonus would be determined, but he said the placing of the teachers must be governed largely by the judgment of the superintendent in estimating the teacher's worth.

He proposed to retain some educational qualifications for teaching in this city, he said.

Miss Huebner pointed out that, under the proposed plan of paying increased salaries to teachers for the two remaining months of this school year, the highest paid teachers for next year, the highest paid teachers, who are least in need of more money, would receive the most. She planned to go to the board to urge the part of the board to provide a bonus because, she said, many grade teachers are not making the summer months with their families, but are working through until the next school year.

#### Views of Matson.

Frederick Matson, speaking for the teachers, said he did not see how the board could legally do more than pay the additional salary for the last two months. He said he had found the school board in favor of doing every-

thing possible for the teachers, and it was thought that it would be lamentable if any dissatisfaction should prevail among the teachers over the final action of the board.

Ralph Douglass, assistant to the manager of the Indianapolis office, of the increased salaries for the last two months would require approximately \$150,000, while the payment of bonuses of \$200 would require nearly \$400,000.

#### Tenants Form Association.

A determined fight will be made against rent profiteers by the Tenants' Protective Association, for which articles of incorporation were filed with the secretary of state Thursday, says Walter H. Beard, one of the incorporators. The association plans to seek legislation preventing both extortionate increases in rents and evictions except when tenants fail to pay their rent or otherwise live up to their contracts. Other incorporators besides Mr. Beard are Henry B. Miller, James F. Ryan, Elmer J. Mur-

phy and Charles M. Bartley. An effort is being made to extend the membership of the association to a board of five directors and a board of ten advisors will be selected.

Ralph Douglass, assistant to the manager of the Indianapolis office, of the increased salaries for the last two months would require approximately \$150,000, while the payment of bonuses of \$200 would require nearly \$400,000.

Miss Huebner pointed out that, under the proposed plan of paying increased salaries to teachers for the two remaining months of this school year, the highest paid teachers for next year, the highest paid teachers, who are least in need of more money, would receive the most. She planned to go to the board to urge the part of the board to provide a bonus because, she said, many grade teachers are not making the summer months with their families, but are working through until the next school year.

**Views of Matson.**  
Frederick Matson, speaking for the teachers, said he did not see how the board could legally do more than pay the additional salary for the last two months. He said he had found the school board in favor of doing every-

thing possible for the teachers, and it was thought that it would be lamentable if any dissatisfaction should prevail among the teachers over the final action of the board.

Ralph Douglass, assistant to the manager of the Indianapolis office, of the increased salaries for the last two months would require approximately \$150,000, while the payment of bonuses of \$200 would require nearly \$400,000.

**Run Down by Auto.**  
(Baltimore American)  
"What kind of weapons did the bandits use in that holdup in the serial story?"  
"I suppose they were magazine guns."

It is determined that the matter of determining whether or not there are sufficient funds available with which to pay additional compensation to the teachers for the last two months of the current school year be referred to the board, and a board of ten advisors will be selected to make a careful survey of the financial condition of the school system, and of the sources of

RESUME OF REPUBLICAN  
PLATFORM PROPOSALSPLANK COMMITTEE APPROVES  
RECOMMENDATIONS.

TAX LAW SUBJECT FIRST

Following the conference of the Republican state platform advisory committee, which closed its work at the Hotel Devereux, Thursday afternoon, Frederick C. Soper, state secretary of the state committee and of the advisory committee, prepared a summary of the recommendations approved by the committee for submission to the convention platform committee when it meets the evening before the convention in Tomlinson hall, May 13.

The recommendation for the plank on the subject of the tax law, the only one given out for publication in its full text, is as follows:

## Tax Law Recommendation.

We commend the Seventy-first general assembly for its courage in responding to the popular demand in the enactment of a law providing a just system of taxation. Believing that the friends of tax reform should perfect the system, we pledge the Seventy-second general assembly to make any modification it may demand after a fair trial of the public opinion.

We favor the enactment of a law by the next general assembly which shall exempt from taxation household goods, the value of which is fixed by the said general assembly.

The resume prepared by Mr. Soper, including the other subjects for the platform is as follows:

Blue Sky Law—Adoption of such legislation as may be found necessary to protect all citizens from specious and irresponsible stock dealers.

Salaries of Officials—Such compensation as is just and adequate for services performed.

Budget System—Institution of the budget system in all state governments.

Support for Needy Families.

Soldiers' Memorial Building—Immediate action by the state legislature for the erection of a state memorial building to accommodate with services and sacrifices rendered by Indiana soldiers, sailors and marines.

State Taxation—Supervision for promotion of privately-owned merchant marine ships sufficient in number satisfactorily to carry passengers and mail, ships flying American flags.

Labor Conditions—Such legislation as

may be necessary to safeguard infancy and maturity; limited number of hours of women employment; wages of women based on cost of living; protection of children and child regulation necessary to insure normal physical development of children with eight hours of school time to organize for better working conditions with time for physical and social improvement.

Economy of State Administration—In government of expense of public works, efficiency and economy, continuance of highways—Legislation necessary to control state and property, township, county and state roads.

Increased Salaries for Teachers—A summary of prevailing salaries that will attract capable men and women to the teaching profession, with salaries commensurate with the work done, further education, recreation and old-age maintenance.

Amendment of Primary Law.

Primary Law—Such amendments as are necessary to remove cumbersome, unsatisfactory and expensive provisions of present law.

Woman Suffrage—Nearly reaffirmation of woman suffrage and favoring early adoption of federal amendment.

Conservation of State Resources—Such legislation as is necessary to preserve coal supply by utilizing water supply of state, law and regulation of forests.

Efficiency and Economy in Federal Government—Emphasis on economy of state administration; pledging Republicans to rigid and strict economy.

Education—Promotional improvements of all institutions of learning.

High Cost of Living—Promotion of profit production and less spending.

Foreign Trade Development—All possible legislation to encourage and develop foreign trade opportunities.

Government Ownership Opposed.

Government Ownership of Railroads—Opposed to government ownership of railroads, roads to be privately owned and managed under strict regulation with efficiency: returns sufficient to justify investment; favoring federal supervision of railroads.

Military Policy—Small standing army with trained citizen reserve, with recognition of universal obligation to serve during war.

Americanism—Absolute devotion to Americanism.

Amendments to State Constitution—Favorable action on resolutions adopted by the last general assembly for constitutional

action.

Legislation for Better Housing.

Social Standard—Approval of progressive measures for better conditions of housing and sanitation; educational work of state institutions under general supervision of state educational system; adequate care and protection of defective, dependent and delinquent; strengthening of compulsory school attendance law.

G. A. R. Affairs—Liberality in pension and early passage of Fuller's pension bill.

Foreign Immigration—Rigid enforcement of laws to prohibit entrance of social or political undesirables, and increasing social requirements necessary for admission; supervision of immigrants for one year after arrival.

Farmers' Legislation—Passage of pure food law, to safeguard against fraudulent advertising of food and fertilizer; live stock transport by interurban systems.

Recommendations were submitted to the general committee by twenty-eight state delegations, and the following was done by the larger body before the proposals were passed in their final form:

representing college student associations, was opposed by city members.

Recommendations that the associations provide better housing facilities for young women, develop an extensive health education program and grant the Chicago Y. W. C. A. administration of the Young Women's Christian Association.

Action was taken to have each local association operate with community services and make an examination of the housing facilities as they affect young women, establish a room-rent service, uprooting of prostitution, provide for young women and develop additional residence for young women living away from home.

## Y. W. C. A. MEMBERSHIP.

Girls Other Than Those of Evangelical Churches to Be Admitted.

CLEVELAND, April 16.—Girls other than members of Evangelical churches hereafter will be permitted to have active voting membership in the Young Women's Christian Association.

At the annual meeting of the association, the Young Women's Christian Association of the Chicago Y. W. C. A. was elected.

The vote was 1,321 for and 210 against the resolution presented by college debaters.

Action was taken to have each local association operate with community services and make an examination of the housing facilities as they affect young women, establish a room-rent service, uprooting of prostitution, provide for young women and develop additional residence for young women living away from home.

Pure white, fluffy cotton, for quilts and comforts; a 50c value.

## New Millinery

Your personality is cleverly expressed by choosing a hat that seems to express your own individuality.

You of the younger generation are particularly interested in some new shapes which might be quite "odd" were they not so very becoming to just the right person.

The colorings sometimes are quaint, even dashing—but always truly artistic. INDIANA hats have a charm of their own.

## THE WANING STRIKE.

Thirty of the strike leaders at Chicago, including John Grunau, the leader, were yesterday arrested by federal officers on the charge of having violated the Lever act. Even before this move of the government, men had everywhere been drifting back to work, being moved by the conservative influence of the great railway brotherhoods and feeling the pressure of public opinion. There is every reason to believe that the strike situation, as far as the railroads are concerned, has passed the crisis. Another helpful influence is the appointment of the railroad board by the President and its confirmation by the Senate. We now have the machinery for dealing with railway strikes under a law which though it does not make strikes illegal—as Gompers has said—does in effect forbid them till peaceful methods of adjustment have been exhausted. On the whole, the outlook is encouraging.

And yet it will be some time before the hundreds of thousands of men thrown out of work in other industries as a result of the strike are again fully employed. It is hard to see how any sane man could believe that these men, deprived of their means of livelihood through no fault of their own, would sympathize with those responsible for cutting off their wages. When the people generally begin to feel the pinch, as many have done, they had no difficulty in fixing the responsibility. The public will not submit to such inconvenience and suffering unless the strike that causes it is felt by all to be justified, and to be the only means of redressing real grievances.

There can no longer be any doubt that the railway strikes were incited by men whose object is revolution. The information gathered by the department of justice all goes to prove this. It should not be imagined that these men will at once abandon their efforts. We shall have other strikes—indeed are having them. New York seems to be specially affected. Invariably the attack is made in such a way as to cause the greatest discontent and suffering. In New York the efforts have been to break down transportation, and to keep food from the people. The idea, of course, is that the people will force submission rather than endure the suffering. But the contrary has proved to be the case. Trains have been unhooked and switchbacks tended by volunteers. The people are demanding of the authorities protection for men who take the places of the strikers. Public opinion has been asserting itself in a very healthy way. However, it is almost certain that the country will for some time be vexed with strikes again, not for the purpose of helping the men engaged in them, but rather as revolutionary movements. But there is no reason for fear. The movement will fail—has failed already.

**KANSAS SYSTEM.** The attack on the Kansas system of industrial courts made under dramatic circumstances by Alexander M. Howat, president of District No. 14, United Mine Workers of America, was by no means unexpected. In fact, it is only an incident in a series of attacks in which Howat has taken a leading part. The Bill creating the industrial relations court was opposed by a lobby gathered from all parts of the country, a circumstance to which Governor Allan attributes the precipitate passage of the bill, and two days after the bill was passed the miners, under Howat, went out as a protest against the act, but returned to work when the state's attorneys began an investigation.

The law which has so deeply offended Howat's school of economists does nothing more alarming than introduce a compulsory step between a proposed wage agreement and the strike or lockout. It obliges no one to work. It provides for the incorporation of unions or associations of workers, recognises the right of collective bargaining and gives full faith and credit to contracts made in pursuance of this right. It protects workers who bring a grievance to the court, and provides severe penalty for an employer who seeks to influence the testimony of a worker by threats of discharge or wage reduction. Neither employer nor employee shall hold up production until the court has been convened.

Thus it is not the court against which Howat and his kind rail, but the assumption by the people of Kansas of the right to compel unwilling men to give cool thought to their differences before they deprive the people of their right to necessary commodities. Kansas has taken a step toward placing the right to food, shelter and fuel above the right to strike. Only incidentally has it snatched Howat's favorite club away, but that is all he sees in the law. Without his club, he roars and is rather a pathetic figure, but, withal a comparatively harmless one, and not to be taken too seriously by those who see his present plight as only an incident in his career.

## GUERRILLA WARFARE.

In the last year there have been three great labor disturbances, the steel, coal and railroad strikes. As such, in such methods of negotiation is measured, one of them, the coal strike, brought about a settlement that was a success. That is the measure adopted through machinery set up by the government some of the advantages for which they were contending. In spite of the sullen anger aroused in a public that was threatened with extreme physical discomfiture, the men emerged from the battle with some claim to public sympathy. The steel strike, a feverish, ill-timed outbreak, was all but a complete failure. The railroad strike, due to outlaws and not the unions, began with outlaws and the unions, began with outlaws and promises to end in a humiliating defeat.

The Department of Justice maintains that the inciting element in the steel and railroad strikes was the little group of labor leaders led and inspired by William Z. Foster, a socialist, who claims that he has repudiated his anti-American ideas and taken up with a new group of unscrupulous beliefs. He is something of a mystery. About all the public knows of him and his methods is that

the pro-Germans and the professional pacifists. Undoubtedly the enemies of the league voted for him—indeed his name is that all who voted for him belong to that class; but the great majority of the people in both states was against him, against all that he stood for. We do not for a moment believe that the Republican party of the nation will tie itself up with the Detroit radicals or with the Thompson element of Chicago, from which Johnson derived his strength. To do so would be an act of supreme folly.

## THE NAVY.

Admirals Rodman, Fletcher and Wilson have testified that the navy was well prepared for the war, the latter having gone so far as to say that "this force had engaged an enemy on its cruise north in the spring of 1917, the victory would have been ours." He and all the others said that the plans were all prepared, Admiral Fletcher saying that "they were in readiness two years before this country went into the war. Yesterday.

Admiral Badger, head of the navy general board, made emphatic denial of Admiral Sims' declarations that the navy was unprepared, that there were no plans, and that a vacillating policy was pursued for six months after we went into the war. Yesterday.

Certain of the Republican members of the committee are said to favor a resolution simply "terminating the war" and containing none of the house provisions repealing wartime legislation and relating to the treaty of Versailles. Yet one of the objects most earnestly sought was the freeing of the country from wartime restrictions, and the withdrawal of war powers from the President. What is the good of "declaring" peace if the consequences of peace do not follow? We do not wonder that the Senate committee is doubtful—perhaps more than doubtful—about the house resolution.

But the proposal of certain of its members only tends to prove that the resolution plan of ending the war is hopeless. The house attempted not only to "declare" peace, but to "make" it, recognizing that a simple declaration would leave the country powerless to enforce its rights under the treaty, or to protect its interests. Some of the senators seem to feel that as congress can not "make" peace, it must be content to "declare" it, no matter what becomes of American rights or interests.

Such is the tangle into which we have drifted—or rather been brought. The only way out, and that should by this time be clear, is through a ratification of the peace treaty. The country will hope that the educational process now going on will not be without effect. It is also clear that nothing is to be gained by either party in making the treaty an issue in the campaign.

There can be no clear drawing of the line except as against those who are against the whole thing, and demand the rejection of the treaty. Certainly the resolution method has already been proved to be impossible. Congress must either "make" peace, which it has no power to do, or "declare" it, and leave the country without any of the benefits of the treaty.

## CITY CONTROLLED TREES.

Municipalities contract for street paving and assess the cost of the improvements against the property owners. This practice has been upheld by the courts and is in general use. A writer in the American City believes that cities should exercise control over the selection, planting and care of shade trees assessing the cost to the property owner because a living tree properly cared for adds to the value of the taxpayer's property.

A vacant lot with a few large trees on it is worth more than a lot without shade, or with only young trees.

Samuel Gompers thinks that the unrest is due to high prices, and he might have added that not a little of the high of the prices is due to the value of the fuel.

Providing shade on city streets is as much a municipal function as providing lights or sidewalks, and there should be undertaken by public officials. Negative control of requiring permits for planting, pruning and removing is little better than no control. Probably the most satisfactory provision is through an annual permit of three or five members—men who should be appointed to long term, since it takes two or three years for a committee to realize the needs and scope of the work.

All things considered, it is probably desirable to have a committee for the planting of shade trees on a frontage basis, while maintenance may be provided out of general funds.

In this section popular approval is given to the sycamores, maple and elms, although other shade trees would thrive as well and would lend variety to the picture. In recent years efforts have been made to persuade property owners to plant trees. Cone bearing trees do not do well in communities where there is much soft coal smoke, but nut trees give satisfaction and might well be planted. They have an economic value in addition to the shade they furnish.

## ROBERT AS A BUSINESS.

Attempts were made to rob thirty-one Indiana banks during the first eleven months of 1919. Nine were frustrated. In the others the losses ranged all the way from \$5 to \$28,000. Twenty-three attempts were made to rob Indiana banks since the compilation was made. Thus, while it took practically eleven months to show the record of three robberies in 1918, the record of four and one-half months—up to the present date—shows twenty-three.

In the robbery of a South Bend bank a few days ago the robbers did not wear masks. They held up the officials and escaped in daylight with \$10,000. Other bank robberies have not been conducted so boldly. The towns visited during the last four and one-half months were Brooklyn, Brownsburg, Christian, Churubusco, Clay City, East Chicago, Fishers, Frankfort, Fulton, Gosport, Highland, Lawrence, Merion, Michigan City, Muncie, Morgantown, New Castle, New Richmond, Oxford, Penetanguishene, Port Huron, and Saginaw.

The department of justice is thinking seriously of abandoning its campaign against the cost of living. Horrers! What'll happen to us now!

Spending \$75,000 on Senator Hardman's campaign doesn't seem like much. A practical man ought to be willing to cough up more than that for a job that pays \$75,000 a year and incidentals for four years.

## IEWS OF HARDING ON GOVERNMENT BUSINESS

**SENATOR SPEAKS AT SOUTH BEND IN CAMPAIGN.**

### BUDGET SYSTEM IS URGED

(Special to the Indianapolis News)  
SOUTH BEND, Ind., April 16.—Improved methods of conducting government business were advocated here last night in an address by Warren G. Harding, United States senator from Ohio and candidate for the Republican nomination for President. The speech was one of a series he is making in preparation for the presidential preference primary in Indiana May 4.

"I do not know precisely how much money we have in the country, but at the last conference I held with my managers we contemplated an expenditure of \$75,000."

"Some legislation relating to the budget system ought to be in the Senate," Senator Harding said.

"By intervention we made the revolutionary socialists national heroes defenders of the hearthstone and home," Senator Harding said.

"By our stupid policy we have driven Russia into the arms of Germany."

The speaker emphasized the fact that Senator Johnson favored international disarmament and recommended an international tribunal to accomplish this, but although he was against German militarism, the peace treaty, as it now stands, must be modified to guarantee Germany's existence.

**Sutherland in Republican Race.**

WHEELING, W. Va., April 16.—Senator Howard Sutherland, of West Virginia, was quoted in the Wheeling Intelligencer as follows:

"I will support Senator Johnson in the presidential preference primary in West Virginia. I will issue a formal statement to that effect tomorrow."

"Every one deserves a pull at the seemingly inexhaustible abundance in Uncle Sam's strong box, and the revenue of the possible returns from such a pull is great, and income taxes has excited genius to new ways of expenditures. We must call a halt. We prosecute with profligacy on the one hand and burden to paralysis on the other."

"The whole scheme of federal taxation and expenditures needs reorganization and revision. Revision and waste must stop for decency's sake and extravagance must end for the country's sake."

**POLICY OF U. S. ASSAILED.**

SALEM, Ore., April 16.—Petitioners to enter the name of Herbert Hoover on the Oregon primary ballot as a Republican candidate for President have been filed here. They were brought for Portland in a sealed envelope.

**HARDING AT PLYMOUTH.**

Addressed Meetings of Men and Women and Visits School.

(Special to the Indianapolis News)  
PLYMOUTH, Ind., April 16.—Warren G. Harding, United States senator from Ohio, addressed a large meeting here yesterday afternoon in his campaign for the Republican presidential nomination. Prior to the meeting the senator visited the high school and later addressed the high school pupils, being the first United States senator to visit the school.

Senator Harding, in his afternoon address, said that the United States more than any other else needed to get back to simple living, saving and out of it, and increased thrift. He deplored the tendency of Europe to seek financial help from the United States.

The people of the country, he said, could thank the United States senator for his opposition to the government when the President sought for the United States a place in the movement of the world which the league of nations would create.

The senator said he voted for the resolution of the League of Nations because he did not believe in government ownership because the country did not believe in government ownership. He said the "Cummins bill, which he signed, provides that no one, by capital and labor each could receive equal justice and the great generalities are protected against strikes and discrimination in organization systems of the country, making a famine in the necessities of life. The senator's speech ends with an appeal for greater loyalty to American ideals.

**HARDING ON EXPENDITURES.**

Tells Plum League He Figured on \$75,000 Expense.

WASHINGTON, April 16.—The Plum Plum League made public last night a letter from Senator Harding, of Ohio, replying to questions propounded by the league as to how his campaign for the Republican presidential nomination was being financed and as to his attitude toward compelling publication of campaign expenditures.

As to the sum of large expenditures Senator Harding said he could say nothing "dependably" as to other prominent candidates and added:

"If I may judge from the nature of widespread organization in my own state of Ohio, I would say that the general expenditures are not without foundation. I think myself it is a very great misfortune that we have drifted into a political system which does not permit us to pursue such a preconvention program."

The senator said that in fairness it must be charged with abnormal expenditure for the campaign, but that he knew of nothing "such as we ordinarily denominate corrupt" about

the campaign.

**NOTE.**—A very small "ad" this week, owing to the paper shortage—but this little "ad" carries a big and interesting message of where you can dress best for the least.

**1920 Population Figures**

WASHINGTON, April 16.—Population figures announced today by the census bureau included:

Battle Creek, Mich., 15,164; increase 10,452, or 42.1 per cent.

Enid, Okla., 15,578; increase 2,777, or 20.1 per cent.

Hillside, Mich., 5,476; increase 475, or 9.5 per cent.

Owosso, Mich., 12,575; increase 2,926, or 20.5 per cent.

Macomb, Ill., 6,114; increase 940, or 16.3 per cent.

Waco, Tex., 4,872; increase 2,129 or 77.4 per cent.

Phillipsburg, N. J., 15,922; increase 3,029, or 23.5 per cent.

Waltham, Mass., 14,245; increase 1,622 or 13.1 per cent.

Gloucester, N. J., 12,182; increase 2,012, or 17.4 per cent.

An increase of 452 per cent. in the last ten years in the population of Muskegon Heights, Mich., announced by the census bureau is the largest yet reported in the 1920 census. From a population of 1,690 in 1910 the city has grown to 9,514.

Nature Notes

Can You Answer These Questions?

1. Why are orioles increasing?
2. How does a hawk distinguish between old and fresh fox tracks?
3. What is the difference in appearance between roots and boughs of trees?

Answers to Previous Questions.

1. How are ferns born?

I know of nothing in vegetable nature that seems so really to be born as the ferns. They emerge from the ground rolled up, with a rudimentary and "touch-me-not" look, and appear

to need a maternal tongue to kick them into shape. The sun plays the wet nurse to them and very soon they are out of that uncanny covering in which they come swathed, and take their places with other green things. They are born, not made.

When the moose yard in the winter, that is, restrict their wanderings to a small area, the moose are seen in the mountains, tramping down the snow, and beating paths in all directions, they brood over only the most dainty, most fine, which they overstep a ground a second time, they crop a little cleaner; the third time they sort:

## GREATER PRODUCTION THEORY IS NOT UPHELD

FARM SECRETARIES FAIL TO  
SEE IT AS H. C. L. WEAPON.

## REAL ECONOMY IS URGED

Greater production on the part of farmers will not reduce the high cost of living, but rather will tend to reduce the farmers' income, according to recommendations made by secretaries of the national bureau of agriculture meeting in Indianapolis Thursday. The two-day session, called by Lewis Taylor, secretary of the bureau, was asked toward adopting a policy

diana Federation of Farmers' Associations, ended late Thursday, after what were termed "highly successful" discussions of matters of common interest.

The American Farm Bureau Federation, the national organization, was requested to "encourage and assist" the secretaries in "a manner" statements that greater production by farmers would bring down the high cost of living. The secretaries also agreed to determine the personal attitude of its members on strikes and lockouts, compulsory arbitration, the right of the employed and employee, the repeal of the Adamson law and the Townsend federal road law.

With regard to conservation of soils, and as an incentive toward greater production, it was suggested that income tax exemption be granted to farmers on the upbuilding of tillable lands.

Secretaries from seven states attended the meeting.

**Phone Merger Ordered.** The public service commission has issued an order authorizing the

merger into the Indiana Bell Telephone Company of the Citizens Telephone Company of Kokomo, Indiana Union Telephone and Telegraph Company, United Telephone Company of Bluffton, and Southern Telephone Company of Indiana, Evansville. This order brings into one organization the Bell telephone properties in the state.

### Bond Issues Authorized.

The state board of tax commissioners late Thursday authorized the following bond issue petitions: Town of Hobart, electric light plant improvement bonds, \$50,000; Howard county, Liberty township, school building, \$42,000; the specific school districts, \$42,000. The board authorized also a number of smaller bond issues.

WEATHER PIRATE PUT  
CRIMP IN LADIES' DAYINDIANS AND HENS BOOKED  
FOR RUBBER GAME SATUR-  
DAY—BIG FINISH THURSDAY.

Girls, see the weather man and register a blustery day, or he may do the same thing again. He kept the big sprinklers going over Washington park today with the result that shortly before noon the scheduled third game between the Indians and the Hens was postponed. This was the third "ladies' day" in a row, ball lot but for the pirate weather pirate. The only consolation is that every Friday is to be a "ladies' day" without strings attached except those of the old joy killer.

Saturday will mark the windup of the Hens' Washington rubber game, will be the rubber game. On Sunday the Columbus Senators will start a four-game series. The Hens on Sunday will play down the line to the Colonels. Murray, the Indian recruit pitcher, who shows earmarks of becoming a regular, probably will start for the tribe on Thursday's day.

The handily expressed "doye' eat dog" could be applied to Thursday's game. It was either team's fight until the tenth inning, when the Indians' bats were silent, while Kores flying most of the time. Cave and Nelson went the entire route. The Indians started off with a well earned run in the first. Caves had a hot fiddle string for several innings it appeared like an easy victory.

## First Hit in Sixth.

For five innings only one Hen reached first base and that was on a wide throw. In the sixth Nelson got the first hit off Cave, single with one out. Wickland followed with a hit, but was forced out by Kores.

When Wilhoit walked the bases were filled. Two strikes were on Joe Kelly, the next batter, when Gossett threw to catch Wilhoit napping off first hit that played and rolled into the field. Nelson, on third, and Kores on first raced home. Kores is down across the plate. Jim Jones, ahead of the throw to Gossett, Joe Kelly who was up, hit his trial at bat, flew out on the next ball pitched. All ended well as the Indians staged a Garrison finish. It can not be said that faithful Dick Gossett often makes a throw at the wrong time.

HOOSIER NET EXECUTIVE  
RECEIVES ADDED HONORDR. CHARLES D. HUMES, OF I. T.  
A., PLACED ON TWO NATION-  
AL TENNIS COMMITTEES.

The rise of Indiana tennis is shown in no better way than by the fact that Dr. Charles D. Humes, secretary of the Indianapolis Tennis Association is a member of the national executive committee of the United States Lawn Tennis Association, has been placed on two of the standing committees for the coming year by Dr. Myrick, president of the association. Dr. Humes is the first representative that Indiana ever has had on the national committee.

Dr. Humes is a member of the national committee on "Constitutional laws of tennis and the international federation," serving with W. W. Merril, W. C. Conlin, Dean Mathey, A. Y. Leach, Jr., and Walter G. Gross.

He is also a member of the committee on "National and city court championship," serving with J. C. Stewart and B. F. Thorow.

He is together with the national committee on "Tennis in the schools" a given subject of interest and each composed of men who are capable of offering the best advice available for the particular matter. One committee studies tennis supplies, rackets, balls, etc.; another attends to the enforcement of the amateur rules, etc.

Cave pitched a masterly game and but for a pass presented to Mike Kelly, after two were on base, the Indians probably would have won in regulation time.

Not a Hen reached first base until the fifth, when Schreiber's throw on Jones from deep in the hole, hit the ball, went to the right and hit the runner in the fifth. Then the Indians had a parade, two of them went to the plate and the third had to right field trying to catch. Without first.

Gossett made his fatal peg with the sacks loaded, two out and two strikes on Joe Kelly, the next batter, when Gossett's throw to get the ball to going back to the bag standing up instead of hitting the dirt.

Roger Bressman, boss of the Hens, announced he will be in the park Saturday to get the ball to going back to the bag standing up instead of hitting the dirt.

## CHITTEL LOANS.

You can BORROW MONEY so cheap and on such easy terms of repayment from the Chittel Loan Co. We have a local and national firm, for use in paying overture bills or to buy the things you need for cash at reasonable rates. We have over 100 branches of our service. Loans on furniture, \$20 to \$300, at legal rates, on short notice. You can have a loan for as long as all the time you want to repay a loan and only charge for the actual time you have the money. Pay us back when you want to borrow. On \$40 pay \$2 a month and interest; on \$60 pay \$3 a month and interest; on \$80 pay \$4 a month and interest. We can more than pay and reduce the cost. In your behalf we are on the job eight hours a day. When you come to us for a loan, personal service plus a deep personal interest, we can serve you and your friends as you wish to be served. In this way we can help you to establish close relations, mutual understandings and co-operation are real assets to all of us. Write or call to the nearest office of the Chittel Loan Co.

## FIDELITY LOAN CO.

M. 1278 Lemmons Bldg. Auto. 727-728.

WE HAVE THE MONEY.

How much do you need? We will loan you enough cash to buy what you need for spring. Pay us back in easy monthly payments. Deposits can be short term on \$20, \$100, \$200, \$300. Loans made on furniture, pianos, Victrolas, radios, etc., up to \$300. Call or write or phone.

Petition for Stock Distribution.

A petition "to deliver to its common stockholders 1,000 shares of common stock of par value \$100," was filed with the public service commission today by the Noblesville Heat, Light and Power Company. The action will dispose of \$100,000 of the company's \$126,000 surplus. The petition states that "it is difficult to have outstanding securities approximately equivalent to assets."

tion to check the approach of an attacking party with his automatic rifle. The boy was killed by a sniper's bullet when his company's "company's maintenance of its perilous position" the citation says. The scene of the exploit was Trugny woods northwest of Chateauneuf.

Admiral Badger Declares War Was Not Lengthened as Result.

WASHINGTON, April 16.—The policy of the navy department as to sending destroyers to European waters early in the war had no effect.

The United States' "extraordinary" effort in getting 1,000 men to defend the coast of France, said to have been a chief factor in saving the German morale. The American

navy's efforts did not shorten the war, the witness asserted, but the navy shared with the army the credit for the nation's part in the war.

Kluttz Named Mediator.

WASHINGTON, April 16.—Whitehead Kluttz, of North Carolina, was

named by President Wilson today to membership on the board of mediation and conciliation, succeeding G. Wallace W. Hanger, who has been made a member of the railroad labor board. Mr. Kluttz is now secretary of the international joint commission.

## TO TELL BUSINESS MEN OF CHURCH WORLD WORK

DR. E. M. POTEAT TO SPEAK AT LUNCHEON MONDAY.

## MASS MEETING TO FOLLOW

Dr. E. M. Poteat, secretary of the spiritual life department of the general board of promotion of the Northern Baptist convention, will be the principal speaker at a business men's luncheon in the Riley room of the Claypool hotel Monday noon.

## OVERALL CLUB MOVE MAY REACH SENATORS

CHEAPER CLOTHING SPIRIT APPLAUSED IN CONGRESS.

### CAPPER PROMISES SUPPORT

WASHINGTON, April 16.—The overall campaign may spread to the senate. Senators who today applauded the spirit of the organizers of overall clubs to war on clothing profiteers said the Congress should give aid and comfort to the clubs by organizing one at the capitol.

Senator Carter, Kansas, said the movement was a sign of democracy and public health.

"It begins to look bad for the profiteers," said Senator Carter. "It is a sign of public health when the people take into their own hands in this simple, direct way the task of cutting down the cost of clothing. I predict they will succeed if they will stick to the movement."

The overall club movement, however, has a real human appeal. It is democratic, too. Congress could do worse than start a branch of the clubs.

Senator Carter said he would become a member of the club if one were formed in the congress.

#### Official Navy Recognition.

The "overall clubs" today obtained what amounts to official recognition. The navy department granted permission to members of such a club formed by civilian employees at the Norfolk navy yard and Hampton Roads base to buy the denim garments in the navy's own stores. Two suits of overalls of the standard type worn by the American bluejacket are to go to each club member.

#### SPREADING IN SOUTHWEST.

Overall Movement Gains Recruits in Number of Cities.

KANSAS CITY, Mo., April 16.—The "overall club" movement, intended as a protest against high prices of clothing, is spreading rapidly throughout the southwest. Clubs have been formed in Missouri, Kansas, Oklahoma, Texas and Arkansas.

The movement in the state began at a different city, where State officials and employees are signing pledges to wear denim until clothing prices fall. The Kansas City (Kan.) chapter of the National Chamber of Commerce. Virtually the entire town of Salina took the denim pledge.

Federal employees, men and women, at Wichita, joined by 110 employees of the Live Stock Exchange, reported an overall club. The movement is spreading through the Wichita high school.

The inaugural "outfit" of the Rev. Joseph Egan, mayor-elect of Emporia, Kansas, will be overall. He announced. An Emporia club reports several hundred members.

In another organization of an overall club at Kansas University Chancellor Frank Strong said he

## STOCK DIVIDEND DECLARED

## M'CRAY IN POSEY COUNTY.

500 Per Cent. Dividend is Decided on By Indiana Harbor Concern.

(Special to The Indianapolis News.)

EAST CHICAGO, Ind., April 16.—Directors of the General American Tank Car Corporation of Indiana Harbor have adopted a stock dividend on common stock of 500 per cent. to stockholders of record of April 14, 1920, it was announced today. The new stock will be issued as of May 1, 1920.

At a stockholders' meeting the directors were authorized to increase the 7 per cent. cumulative preferred stock to 100,000 shares, and also to increase the common stock to 400,000 shares.

## STRICKEN IN COALYARD.

Benjamin Green, Age 78, Dies of Ape-  
poxie.

(Special to The Indianapolis News.)

BEDFORD, Ind., April 16.—With the remark that he believed he was going to die, made yesterday at the coal office of John Goldsmith, he had gone to the end of coal. Benjamin Green, age seventy-eight, was assisted by persons nearby from his wagon and into the coal office, where he died of apoplexy. He was left by a widow and two sons, Walter and Bert Green.

## BANDIT TAKES HIS FAMILY

San Francisco Worker Meets Husband, Wife and Heats Baby.

SAN FRANCISCO, April 16.—Meeting a motor bandit who fares forth with the wife and family, Hogan Hammen, shipyard worker, was confronted last night by a man who alighted from an automobile and leveled a revolver at him. Then a woman stepped out and extricated \$175 and a gold watch from his pockets, while the bandit was in progress according to Hammen's report, a baby began squalling in the closed car.

He remarked to him: "You must have the family along tonight," asserted Hammen, "but he got mad, told me to 'shut up' and then drove away."

## FALLS OFF TRACTION CAR.

Mrs. Charles Clark Is Injured at Shelbyville.

(Special to The Indianapolis News.)

SHELBYVILLE, Ind., April 16.—Mrs. Charles Clark, living north of Shelbyville, was badly hurt here yesterday, when she fell from a moving car on the Indianapolis-Cincinnati traction line. The woman, with bun-dies in her arms, attempted to get off the car after it is said to have started. She was thrown to the pavement and the wheels of a trailer passed over her right foot. Mrs. Clark was taken to a hospital at Rushville, where part of the foot was amputated.
