

PARK SHELTER HOUSE BIDS ARE REJECTED

BOARD RESCINDS ACTION ON
GARFIELD PROJECT.

CUSTODIANS ARE APPOINTED

Bids for the erection of a shelter house at Garfield park were rejected, and custodians for city parks for the 1920 season were appointed at a meeting of the board of park commissioners Thursday afternoon. The board rescinded all previous action on the shelter house, and did not make any provision for reopening the project.

Park custodians were appointed as follows: Frank C. Lingenfelter, Camp Sullivan; Thomas Brewer, St. Clair park; William Hardin, Highland park; Martin Smith, White Creek park; Jasper T. Gilard, James McNamee, Rhodine park; Thomas Hannan, City park; William Newell, University park; Herbert Biss, Elberner park; Edward Holt; Morris Square park; Gilbert Thompson, North Side street center; M. A. Johnson, South street center; Michael Shaughnessy, Burdall parkway; James Gibson, J. Clyde Hoffman, attorney for the board, and Frank C. Lingenfelter, Mr. Barnes for his services to Amer-

city engineer, who attended the annual conference on city planning at Indianapolis this year, reported on the business uses of America and the importance of a city planning scheme such as that proposed by the commissioners. He does not believe it would be advisable to take this project before the proposed special session of the legislature.

Wages were approved as follows: Salary increased, \$3. Edward Perry, assistant engineer, \$2,600 to \$2,300; Frank Brown, chief draftsman, \$2,500 to \$2,300; Red Comstock, rod man, \$1,200 to \$1,325.

presented to him as a gift from the

business men of America and the

representatives of the government.

The rating of \$2.25 as the price for

wheat by the government has been

reduced to \$2.00, which the farmer

could have gotten if a bushel

of the open market had continued.

Had the farmer accepted any sum

from the government, his losses

on our industry would run into

blood. It would have meant the loss

of the war.

Mr. Barnes declared no man can

charge that there has been an atom

of speculation or profiteering in

breakfasts due to the grain corpora-

tions' control of wheat.
