

## John Burroughs Nature Notes

CAN YOU ANSWER THESE QUESTIONS?

1. What kind of tracks does the porridge make in the snow?
2. Does the skunk make any sound?
3. Is a beehive a monarchy or democracy?

Answers of Previous Questions.

1. How the buzzard any vocal power?

The worst thing about the buzzard is his silence. The crow caws, the hawk screams, the eagle barks, but the buzzard says not a word. So far as I have observed, he has no vocal powers whatever.

2. What are the advantages of waiting?

No one else looks out on the world so kindly and charitably as the peccant; no one else gives and takes so much from the country he passes through. Next to the laborer in the fields, the walker holds the closest relation to the soil; and he holds a closer and more vital relation to nature because he is freer and his mind more at leisure.

3. Does a chipmunk stray far from home?

There is one thing about a chipmunk that is peculiar; he never more than one jump from home. Make a dive at him anywhere and in he goes. He knows where the hole is even when it is covered up with leaves. There is no doubt, also, that he has his own sense of humor and fun.

New President of University.  
ANN ARBOR, Mich., October 14.—Dr. Marion Leroy Burton, former president of the University of Minnesota, was inaugurated president of the University of Michigan today. Scores of college presidents, university regents and prominent educators here to attend a three-day conference on higher education, attended the ceremony. The inaugural was held in Hill auditorium, following an academic procession.
