

LAWRENCEBURGH.
SATURDAY, JULY 26, 1828.

James W. Weaver, we are authorized to say, has declined a poll for Sheriff at the ensuing election.

Mr. Cross having advised us that he is a candidate for representative, (a material fact he omitted in his address,) his name appears in the list of candidates.

Coroner.—By some mistake as to the term for which the acting Coroner was elected, it was thought that an election for that officer would take place at the coming August. We have examined the constitution on this subject, and find that agreeably to its provision the present Coroner, Dr. Torbet, has yet one year to serve, and that there is no such officer to be elected at the next ensuing election in Dearborn county.

It seems proper for us to remark, that the address of Mr. McCracken, published to-day, has been on file in our office several weeks. Its publication was omitted the first week of receipt, for want of room; and the second because of the declination of Mr. Plummer. Mr. McCracken has signified a wish that it might go to the public, as an explanation of his course in the Manchester nomination; and as we have no desire to interfere in such matters, it is given without further comment.

Governor Ray.—On the first page of this paper will be seen Gov. Ray's defence, and an explanation of his letter to Mr. Handy. The interrogatories put by Mr. Jocelyn, as published, the Governor represents as misrepresentations of his language to that gentleman. On this subject he and Mr. Jocelyn are directly at issue. The latter argues for the truth of his statements at length, in his paper of the 12th inst., and has procured certificates in corroboration. On the other side, the governor and his friends have asserted, and procured certificates to prove it, that Mr. Jocelyn's report of the governor's answers to his interrogatories is materially incorrect—particularly where he represents Mr. Ray as saying the Jackson party is an "outrageous, violent faction." It is not for us to say who is right or who is wrong in this affair—as it seems a matter of controversy between respectable men. The conduct of the governor having undergone some reprehension in our columns, we embrace the first opportunity of laying before our readers the defence of the accused; this done, we leave the matter with the people for adjudication.

A crazy chap has lately been amusing himself with jumping from one of the precipices at Patterson Falls. Having perceived the feat at first privately, he afterwards announced a public repetition of it. The authorities of the town kept him under restraint, to prevent it; but he watched his opportunity, and jumped off in the presence of a number of people. On Friday last he leaped from the position a few rods below the bridge, on the side towards the village, which is a height of 85 or 90 feet.—He descended with his feet downwards, and somewhat drawn up, and on touching the water was seen quietly swimming off, and returned for his shoes and coat.

New York.—On Saturday afternoon last, New York was visited with one of the most violent thunder storms which it has for years experienced. The rain fell in torrents for about an hour, during the whole of which time, there was a constant succession of thunder claps which appeared to come with the lightning and not behind it. The lightning struck a schooner in East river (name not known), the ship Ajax lying at Coenties slip, and a brig lying at the same place. It is said (a singular fact if true) that it struck the pavement in Dry street and tore it up for some feet. It also struck a house in Lewis st. We have heard of no lives lost.

Piracy and Murder.—The schooner Charles, of Philadelphia, has been captured near Kagu, Cuba, by a band of pirates, and the captain and crew murdered. An active pursuit has commenced, and a hope is entertained that the cold blooded villains will meet the reward of their crimes.

FOR THE PALLADIUM.
To the Independent Electors of Dearborn County.

On the first Monday of August next you will be called upon to select from among the list of candidates, four persons to represent the county of Dearborn in the next General Assembly of this State. Among the number of candidates now before the people, I discover the name of Mark McCracken, Esq. of Manchester township, who appears very zealous in support of himself.—I have been waiting for some time to see in some public print a modest refusal on his part of standing a poll "to fill so important a station," believing at the same time that what was considered a reasonable objection in 1825 must be considered in the same light in 1828, and in order to place the thing fairly before the public, the course he has pursued and is now pursuing, I will refer them to the "Indiana Spectator," of June 3d, 1825, where the following paragraph appears:—and having understood that Mr. McCracken has stated in this township (Manchester) that he had declined serving as a representative for several years, on account of Daniel Plummer being before the people, by reference to the same paper you will perceive that Mr. Plummer was not a candidate that year.

A VOTER.
Messrs Editors.—On reading the Spectator of May 21st I saw my name announced as a candidate, to represent the county of Dearborn, at the next General Assembly of this State.—Permit me through the same medium, to inform the public, that this has been done without my consent and that I cannot consent with my feelings to be a candidate to fill so highly important a station; it is painful to me to show the least unwillingness to serve the people of this county in any situation where they may require my services—but I think my friends will consider my objections good, after I inform them that having been elected to and accepted of an honorable office—I am unwilling to abandon my constituents and grasp at another; as I hold it a principle of duty, that when any man accepts of an office he ought to serve in that office until its expiration. And as there is so many worthy characters before the public I hope to be excused, and tender to my friends through whose good will I have been nominated, my warmest thanks for their friendship. MARK MCCracken.

West Point.—Conformably to a regulation for the government of the United States military academy, the names of those cadets who most distinguished themselves at the annual examinations, are to be reported to the war department, for publication in the army register. The following are the names of the successful cadets.

First (or graduated) class.—1 Albert E. Church, of Connecticut; 2 Richard C. Tidgman, of Maryland; 3 Hugh W. Mercer, of Virginia; 4 Robert E. Temple, of Vermont; 5 Charles O. Collins, of New York.

Second class.—1 Charles Mason, of New York; 2 Robert E. Lee, of Virginia; 3 Catherine P. Buckingham, of Ohio; 4 William H. Harford, of Georgia; 5 James Barnes, of Massachusetts.

Third class.—1 Alexander J. Swift, of New York; 2 Walter S. Chandler, of the District of Columbia; 3 William N. Pendleton, of Virginia; 4 William E. Bassinger, of Georgia; 5 Francis Vinton, of Rhode Island.

Fourth class.—1 Roswell Park, of New York; 2 Henry Clay, jr. of Kentucky; 3 Wm. A. Norton of New York; 4 Richard H. Peyton, of Virginia; 5 George H. Talcott, of New York.

The Warren, Pa. Gazette, estimates, that if the water be sufficiently high, 50,000,000 feet of boards will descend the Allegheny this spring. This quantity, he says, rafted ten courses deep and 12 feet wide, would make a raft 18 miles long; or supposing the boards a foot wide, and placing them singly, they would extend 620 miles, which would reach to New-Orleans, thence to New-York, Albany, Buffalo, and home to Warren, and leave an overplus sufficient to reach from New-York to London.—Allowing 5 men to 100,000 feet of boards, it will require 2500 men to run them to market. At \$6 per 1000, they will bring \$300,000. Shingles, square timber, saw logs, tan bark, &c. worth \$10,000, is supposed, may also be sent to market during the seasons by the river, making an aggregate for lumber of \$400,000—a sum sufficient to make a Steam-boat navigation from Pittsburgh to Warren, or from Warren to Lake Erie.

A Family.—In the pine woods of Wilkinson County, a couple (both natives of Burke County,) were, in 1806, married—the gentleman, a bachelor, forty years of age. Since that time they have lived together in a state of uninterrupted happiness, which has been crowned by the birth of twenty-one children, ten sons and eleven daughters, all alive and healthy at the present time. Some places boast of their increase of hogs, others of their horses, and others again of their cattle; but we challenge the world to beat Wilkinson in what is infinitely more valuable—the increase of fine healthy children. We would recommend a summer's residence in Wilkinson, to the

married portion of our wealthy friends of the seaboard.—Georgia Patriot.
The wife of Jesse Egbert, of Cedarwill, N. J. was on the 29th ult. delivered of three living children at a birth. The same woman was delivered of the same number about a year ago. Thus has she been the mother of SIX children in that short period.

At Orange Farm, two miles from Baltimore, may be seen a pump worked by a small pointer dog. This pump is more than fifty feet in length, and the working of it was heretofore the fatiguing labor of two men. To the dog it is mere play. He at his pleasure, either walks, trots, or lies down. When only walking, there is a sufficient discharge of water for all the purposes of a dairy. The water never ceases to flow, but during the very short intervals, when the dog may be lying down. From its thus flowing, it has become very cold and sweet; and it is thence believed, that the water of most pumps would be thus greatly improved.

Distressing Occurrence. We have just learned from a friend the following particulars of one of the most heart-rending occurrences that we recollect to have come within our knowledge. On Thursday night the 12th inst. Mr. Philip Smith, of Pitt county, with his wife, left home on a visit to Mr. S.'s mother, who resided a short distance from him, leaving his five children at home, the eldest about 10 years of age; and horrid to relate, on his return he found the house consumed, together with four of the children. One (the eldest) escaped, but so dreadfully burnt, that her life was despaired of. It is not known in what way the fire originated.—Newbern Sentinel.

Cancer.—Mr. Thomas Tyrrell, of Missouri, advertises that a cancer upon his nose, which had been treated without success by Dr. Smith, of N. Haven, and the ablest surgeons in the western country, had been cured in the following manner. He was recommended "to use a strong potash, made of the ley of ashes of Red Oak bark, boiled down to the consistence of molasses, to cover the cancer with it, and in about an hour afterwards cover this with a plaster of tar, which must be removed after a few days, and if any protuberances remain in the wound, apply more potash to them, and the plaster again, until they all disappear; after which, heal the wound with any common salve." Cantery and the knife had previously been used in vain. This treatment effected a speedy and perfect cure.

Monstrous Serpent.—A rattlesnake was killed a few days ago, at Hamilton, Harris county, measuring six and a half feet long, and twenty two and a half inches in circumference; its mouth, when expanded, was six inches between the extremities; there were only seven rattles to the tail, the balance having probably been lost in combat with some of his serpentine tribe. When the snake was killed, it had a large rabbit in its mouth, nearly swallowed, which caused it to become an easy prey to its murderer. Three fangs were extracted, which measured nearly two inches long.

Gov. Cass, and Col. Menard, of Illinois, have been appointed commissioners to treat with the Sac, Fox, Winnebago, Ottawa, Pottawatimie, and Chippewa tribes of Indians, for the extinction of their title to the mining country upon Fever River, and also to a tract of land south of the St. Joseph of lake Michigan, and to another, to connect the settlements of Indiana. The season is so far advanced that we learn it will be impracticable to hold the council this year for the lead country—it will be held next season.—Some of the other objects committed to the commissioners will be effected this year.—Detroit Gaz.

Delaware and Chesapeake canal.—It is announced in very positive terms, that this canal will soon be ready for business. We rejoice at this information.

Political Trees! Many of the supporters of general Jackson for the presidency, have devoted the hickory tree to him; and others of the friends of the administration have, in like manner, selected the oak, as typical of Mr. Adams; and we may expect that, at many places, of voting, these trees, torn from the forest, will be planted in the ground, as rallying points for the adverse parties. Niles.

Making the most of Land.—Capt James Perkins, of Essex, Mass. raised, last season, on an acre and a half of land, 72 bushels of Indian corn, 70 bushels of potatoes, 70 bushels of winter apples, 80 bushels of turnips, 2 loads of squashes, and 2 bushels of beans. One third of the land alluded to, consisted of gravelly knolls. In 1826, the whole was planted with Indian corn. [New England Farm.

A SLAVE VESSEL, called the BON JESUS!!! with a full cargo of human beings, from Africa for Brazil, was lately captured by a Buenos Ayrean privateer.

\$150 Reward,

WILL be paid for apprehending BILL and ANN his wife, and their Child LUCY, and a white man with whom it is suspected they run away from the subscriber in Natchez, about the third of June.

BILL is about 40 or 50 years of age slender made, lank jawed, polite address, occasionally lame in one knee, and has two scars on his head, which will be found by close examination. He plays the fiddle, chews tobacco and smokes.

ANN is a likely black girl of middle size, is about 2 years of age but has the appearance of a young woman, confident in her conversation, irritable, and becomes sulky if closely questioned.

The Child LUCY is about 4 years of age, likely, black and sprightly, and resembles BILL. Said negroes were brought to Natchez from Tyler county, Va. and sold by Wm. Springer and Joseph Wheaton. ANN affects to be entitled to her freedom by the will of O. Peken, deceased, her former master, which is false, as the Clerk of the Court of the county in which Mr. Peder resided has certified.

A reward of Fifty Dollars will be paid for apprehending and securing said Negroes, so that I can get possession of them again, with all reasonable charges for delivering them to me in Natchez or elsewhere; and One Hundred Dollars for the apprehension and conviction of the white man, about 22 years of age, who calls himself WILLIAM CARMICHAEL, who is supposed to have conveyed them away.

others.

NOW to-wit: at the April Term of the Dearborn circuit court 1828, comes the petitioner by Dunn his attorney, and files his petition showing that one Bion Loder in his life time executed and delivered to him the said Thomas Ogden a bond, commonly called a title bond, for thirty five acres of land, part of the North west quarter of section No. 13, in township 5, of Range 3 west, in the said county of Dearborn and praying the appointment of a commissioner agreeably to the statute to make him a deed in fee simple for the same, the said Bion Loder having deceased intestate. Public notice is therefore hereby given to Daniel Loder and all others, the heirs of Bion Loder deceased, that unless he or they appear at the October Term of the Dearborn circuit court 1828, and show good cause why the prayer of the petitioner ought not to be granted—the appointment will then be made as prayed for and the land conveyed accordingly.
