

## LAWRENCEBURGH.

SATURDAY, NOV. 8, 1828.

**Removal.** The next No. of the Palladium will be issued from the new frame building, north-east of the post office, High street, to which the printing office is about to be removed.

*New-Orleans, Oct. 4.*

Coffee, lb. 12 to 14, dull; beans, bbl. \$5 to 6; Corn, in ears, bbl. \$1; Mackarel, No. 1 bbl. \$5 50 to 6, scarce; Flour, best, bbl. \$4 75 to 5, dull; Hay, 100, \$1; Molasses, gal. 26 to 27; Oats, bbl. \$1; Pork, mess, inep, bbl. \$13; Sugar, lb. 7 to 8; Whiskey, gal. 22; Tobacco, best, lb. 4, 2d quality 3.

**Potatoe.** An Irish potatoe was raised the past season on the farm of Dele Elder, esq. of this county, which measured 13 inches in length and 6 inches through the middle. Can you beat it, brother Jonathan?

**Gone again.** The Charlestown Ind. Advocate states that five convicts made their escape from the state's prison on the 26th ult.; two were retaken and the others are still at large. We learn that the absenteers are the very same fellows sent from this county a few weeks since, viz: Smith, Couch and Myers, three of the greatest rogues (as Couch said himself) to be found in the United States. Myers, it is said, has been seen at or about home, armed with a dirk and pistol which he took from the prison. In effecting their escape, one of the company fired a pistol at Kriggin, the keeper, and wounded him slightly in the hand and arm.

The public are called on to keep a good look-out for these villains, and be vigilant in aiding to retake them. A reward will no doubt be offered for their apprehension.

**Elections.**—The elections now over, inquiry is on foot to learn the result. As yet we have few returns for president from our own state, Kentucky, or Ohio, sufficiently authentic to warrant their publication. Reports from Switzerland, Decatur, Franklin and Fayette counties, in this state, give, in each, small majorities to the Jackson ticket. We have not

heard from Wayne, and the other counties in this district. The returns as published, give the Jackson ticket in Hamilton county, Ohio, 2303 votes majority—being 743 greater than Campbell's over Trimble, at the late state election. In Boone county, Ky. at the close of the polls on Wednesday evening, the Jackson ticket had 43 majority, and partial returns from a number of other counties, show a like increase on the votes given Mr. Barry in that state for governor. We shall probably be able to say, next week, who is elected.

**CORRECT STATEMENT**  
Of the votes given in Dearborn county, on the 3d inst. for President of the U. S.

TOWNSHIPS.	Jackson.	Adams.
Randolph,	185	148
Union,	43	42
Cæsar-creek,	23	88
Laughery,	141	130
Sparta,	37	96
Lawrenceburgh,	275	276
Manchester,	159	134
Kelso,	64	35
Logan,	139	37
Total	1066	986

30 votes majority for Jackson.

It would appear from the following article which we copy from the Washington, D. C. Chronicle, that a second Zera Colburn has sprung up in that city:

**Singular Mental Endowment.** A lad

in our city, (Edward Ord, son of James Ord,) now in the tenth year of his age, possesses the uncommon faculty of making calculations and answering difficult arithmetical questions with the operations of his mind, without the aid of figures. He has been repeatedly examined, by different persons, and has uniformly excited the admiration and surprise of those who have witnessed the readiness and correctness with which he answers questions that are proposed to him. On a recent occasion, happening to be in company with several gentlemen who

had heard of his possessing this singular talent, for the purpose of exercising it, the following question was submitted to him for solution:

If I give away 2 3-4 and 1-5 of a bushel, what will I have left of 2 bushels from which I made the distribution?

After a few moments he answered correctly, 43 60ths of a bushel.

An arithmetician who was present when the question was submitted, undertook to solve it by the use of figures which he effected, but not until after the answer had been given by the boy.

For the purpose of hearing him converse, which he does with considerable readiness for so young a boy, he was then asked—

If a pair of boots cost six dollars, what will a hat cost?

He answered—different prices, and in his turn, submitted to the gentlemen with whom he was speaking, the following:

If a bushel of coal cost 61 cents, what will a cord of wood come to?

The gentleman answered—I don't know. It will come to ashes, said the boy.

The following was then proposed to him;

If 7-10ths of a yard of cassimer cost \$2 25, what will one yard and a quarter cost?

He answered with his usual precision, \$4 2 cts. and 12 28ths of a cent.

**Murder and Robbery.**—We have understood that a citizen, who had been employed in driving, was shot and robbed near Jones', on the Mount Pleasant and Somerset road. It is stated that he was a citizen of Washington county. We have not been able to learn particulars.

*Pittsburg Democrat.*

*Statement of the mode and time of voting, and the number of electors each state is entitled to in the presidential election.*

Maine;	Districts,	9 Nov. 3.
N. Hampshire,	Gen. Ticket,	8 Nov. 3.

Alabama,	"	5 Nov. 10.

Total votes, 261

Eighteen States choose their Electors by general ticket, four by districts, and two by the legislature.

**Fever River Mines.**—These celebrated mines have accidentally acquired their present and very disagreeable name, as we learn from the Missouri Republican. The river near which the mines are situated, in common with many other rivers and towns, in the country, the name of which were derived from some local circumstances, was called by the early settlers, "Rivière en Feve," or Bean River, a species of which plant they found abounding in that region. This name has been corrupted or rather Americanized to Fever River—although fevers are much less common there, than in other tracts of the country.—The original name ought to be restored.

The following quantities of lead were melted at the mines in the following named months:

In June, upwards of 1,100,000 lbs.; July, 1,750,000; August, 1,700,000; September (inst.) 1,500,000.

**The Season.**—Rude winter approaches fast. We have here very cold weather for October, and north and west there has already been snow. On the 14th inst. in Oneida County, (N. Y.) and that vicinity, there fell several inches of snow. The United States (Philadelphia) Gazette of Saturday last, says, "We have had weather these two or three days past 'none too good' for snow—plaid cloaks, surtouts, fur caps and blue noses, have been quite in vogue, and this too, while the ladies have their mantles decorated with fresh blown tulips—and many grape vines have clusters of second crop fruit, of a considerable size."

**An Extraordinary Woman.**—There now resides in Montgomery county, in this State, a lady in the 55th year of her age, who weighs 510 pounds. Her stature is rather low; she is the mother of ten children, nine of whom are living, and she says none of her relations are above the ordinary size. At 20 years of age she weighed 135 pounds, commenced becoming corpulent at the age of about 30; her general health is good, but from her unwieldy size, she can walk but a few steps.

*Nashville Banner.*

**Next Congress.**—The following are the members of congress, elected on Tuesday, the 14th October, in Pennsylvania. They are all the supporters of Andrew Jackson for the presidency, except Mr. Sill, of Erie, who represents the 18th district.

1st district—Joel B. Sutherland, 2d district—Joseph Hemphill, 3d district—Daniel H. Miller, 4th district—James Buchanan, Joshua Evans, George G. Leiper, 5th district—John B. Sterigere, 6th district—Ionis Green, 7th district—Henry A. Muhlenberg, Joseph Frey, Jr. 8th district—Samuel D. Ingham, George Wolfe, 9th district—Philander Stephens, James Ford, Alem Marr, 10th district—Adam King, 11th district—William Ramsay, Thomas H. Crawford, 12th district—John Scott, 13th district—Chauncy Forward, 14th district—Thomas Irwin, 15th district—William McCreery, 16th district—William Wilkins, John Gilmore, 17th district—Richard Coulter, 18th district—Thomas H. Sill.

*Greensburg Republican.*

The whole number of schools in Ireland is found to be 11,823, and the total number of children in attendance, by the Protestant account, 560,549, of whom 405,285 are Catholics, and the remainder Protestants: and by the Catholic statement the whole number is 568,963, of whom 421,023 are Catholics. [The schools in this state, in 1824, were 7,382, and number of scholars 373,206. Later accounts, greatly increased, not at hand.]

*N. Y. Statesman.*

**Movements of the Dead.**—A correspondent in the Bath Herald states the following singular circumstance:

"Having occasion last week to inspect a grave in one of the parishes of this city, in which two or three members of a family had been buried some years since; and which lay in very wet ground, I observed that the upper part of the coffin was rotten away and had left the head and bones of the skull exposed to view. On inquiring of the grave digger how it came to pass that I did not observe the usual sockets of the eyes in the skull, he replied, that what I saw was the hind part of the head (termed occiput, I believe by anatomists,) that the face was turned as usual to the earth! Not exactly understanding his phrase, "as usual," I inquired if the body had been buried with the face upwards, as in the ordinary way; to which he replied to my astonishment, in the affirmative, adding that in the course of decomposition, the face of every individual turns to earth—and that, in the experience of twenty three years in his situation, had never known more than one instance of the contrary."

*New York, Oct. 17.*

**Fraud on the Post Office.**—We have understood that, for some months past, a gang of suspicious gentry has been hanging around our Post office, the Exchange, &c. We learn that an attempt was made, yesterday, to obtain possession of funds transmitted through the mail to a merchant of this city. A clerk to the mercantile house, alluded to, applied, in the course of the morning, for letters for his employer, but not having the change for the postage, referred to procure it. During the short period of his absence, an individual applied for the letters, paid the postage, and received them. Shortly after the boy returned, and ascertained that the letters had disappeared, of which fact he gave immediate notice to his employers. One of the letters contained a draft for two thousand dollars on the Mechanics bank, and information was immediately given at the bank, with directions to stop the draft, as also any person presenting it. Scarcely had the information been given when the draft was presented by a person unknown, who was detained until the true owner appeared, when he was arrested, carried to the police office, and fully committed for trial.

**Breach of the Marriage Promise.**—An excellent case of "breach of promise," is reported in the English papers. The parties were both Catholics. The lady refused to be married unless the ceremony was first performed by the Catholic priest. The priest refused to perform the ceremony unless the defendant conformed to the rules of the church; not being at the time in communion, &c. The lady refused to be married in a protestant church, where alone the marriage could be legally performed, and the match was in consequence broken off, and in due time the defendant married another. At the expiration of about two years, the injured lady brought her action, and what is most astonishing, recovered a verdict, the court (baron Hullock) commenting upon the absence of any attempt of the defendant to remove the difficulty about the Catholic marriage. These preposterous and ridicu-

lous proceedings are called law and justice. Who made the difficulty? The plaintiff; and she in fact, & in truth, committed the breach; for the defendant offered to marry her in the only way they could legally be married. And yet he was mulcted in damages. *N. Y. pop.*

**Turks and Russians.**—General Suvorov or Suvarow's opinion of the Turks, from his discourse under the Trigger?

Stab once! and off with the Turks from the bayonet. Even when he's dead you may get a scratch from his sabre.

If the sabre is near your neck, dodge back one step and push on again.

Be sure your balls in your gun. In an attack there's no time to load again.

When you fire, take aim at their gts and fire about 20 balls.

If you see the match upon a gun run up to it instantly—the ball will fly over your head. The guns are yours, the people are yours; down with 'em upon the spot! pursue 'em! stab 'em!

Die for the honor of the Virgin Mary, for your mother, (the name given by the Russians to the empress) for all the royal family; the church prays for those that die; and those who survive have honor and reward.

**Eleven Pirates Hanged.**—we are indebted to the editors of Baltimore American, for slips containing the trials at length in the special Court of Admiralty, at Basseterre in St. Barts, on the 26th Sept. of twenty one Spaniards for piracy, in the case of the British brig Caraboo.

The Surgeon and Quarter Master of the piratical crew, were admitted as "King's evidence."

One of the prisoners was acquitted, proof having been adduced that he was compelled to serve. All the rest were found guilty, and sentenced to be hanged; one was recommended to mercy on account of his youth.

On Tuesday, the 30th Sept., eleven of them expiated their offence agreeably to their sentence.

**Escape.**—The Detroit Gazette gives an account of a boy who recently incurred great peril while harrowing, in consequence of a yoke of oxen taking flight and running while he was fixing the key of the yoke. He supported himself sometimes on the yoke and afterwards being by the chain, about fifty rods. He then fell, and the harrow, loaded with a heavy log passed over him, cutting the skirts of a strong new blanket coat, completely off. He arose uninjured, and without even the slightest confusion upon his person.

Benjamin Oakley, a seaman, obtained a verdict of \$1000 in the Marine Court, New York, on Wednesday last, against Capt. Robert Lewis, of ship John Nobl., for violent treatment. Oakley was fired at, and twice wounded by the captain, sent on shore at Rio Janeiro & imprisoned for 50 days.

The two villains who robbed Mr. Terry, a drover, have been sentenced in Westchester county, N. Y. to the State prison for life.

**Singular.**—A short time since a gentleman of Providence, R. I. was out in the suburbs endeavoring to get a shot at a large eagle. Suddenly the eagle sprang upwards, and continued to wing his flight spirally to an immense height, nearly out of sight, when he fell to the earth, nearly on the spot from whence he had flown. On approaching the Eagle a small weasel was observed to run from the body, and on examination it was found the animal had got under the eagle's wing, and commenced feasting upon his blood, until the noble bird fell from exhaustion. The little marauder then made his escape.

Five persons employed in a White Lead Factory in London, have been attacked with apoplexy within the two last years, and three had died. A surgeon attributed it to neglect in cleansing themselves of the dust from the lead.

**Counterfeit Notes.**—Notes of the Hartford Bank for five dollars, have been put in circulation at Philadelphia, by a man "of pleasing address."

**REMYMENTAL.**

**MORGAN WELSH, TAILOR.** RESPECTFULLY informs the public that he has removed his shop to a new frame building on the west side of High street, adjoining the market house, where he will be ready at all times to execute work for customers and others.

Nov. 8, 1828.
