

## LAWRENCEBURG.

SATURDAY, SEPT. 26, 1829.

The circuit court will commence its sitting in this place on Monday the 5th of October next.

No material change having taken place in the Cincinnati market, we omit the publication of the prices current to-day.

We have been requested to say that Andrew Morgan will be voted for as Trustee of the School section, vice D. Elder, esq. dec'd. Election 3d Oct. next, at the house of Jas. M'Leaster on the sec.

**The Indians.** Much apparent solicitude has been manifested by newspaper writers on behalf of the Indians residing within the limits of the states; and no little pains taken to represent the talk of the president to the Creek nation, encouraging them to remove to the west, as cruelly oppressive and unjust. To-day we give a letter from the secretary of war, expressive of the views of the president, in relation to the Indian tribes, which we think ought to satisfy every dispassionate mind of the humane disposition of the executive towards the red people.

**New Orleans.**—Our latest dates from New Orleans, represent the Mississippi as low and markets dull. No demand for produce except for home consumption; which, owing to the great mortality raging in the city, was greatly limited. The weather up to the 22d ult. had been wet, and the unpaved streets almost impassable. It is stated that a number of hearsees broke down in the mire conveying the dead to interment, and that on several occasions the coffins were taken out at every square. The deaths from about the 15th to the last of August, were from 50 to 80 per day. One case of yellow fever occurred in Natchez on the 25th ult.; the papers of that city, however, assure the public that there is no cause of alarm, as the deceased had just landed from below.

We learn that Arthur S. C. Vance, esq. of this place, has received a handsome little appointment from Mr. Lytle, Surveyor General of the Ohio land district, of seven townships surveying in the country north west of Fort Wayne. The performance of this duty will, it is supposed, engage Mr. Vance about 3 months. He is well qualified for the task, and in other respects very deserving of the appointment conferred on him. Let us have more of such reform.

**Editorial Change.** A. F. Morrison, esq. late editor of the *Republican Statesman*, Charlestown, Ind. has disposed of his interest in that establishment to Henry Collins. During the short period Mr. Morrison conducted the *Statesman*, we can in justice say he displayed a respectable editorial talent, and did much, very much, towards improving the condition of the press in Clark county. We wish him peace and happiness in his retirement.

**The Journal of Health.**—We have been politely favored with a copy of a new work under the above title, and from a cursory examination of its contents, feel free to recommend it to the patronage of the public. Medical gentlemen, and others disposed to encourage a work which has more the prevention than the cure of disease for its object, are invited to call and examine it.

The *Journal of Health* is issued from Philadelphia, semi-monthly, in Nos. of 16 pages, octavo, at the rate of \$1.25 per year in advance. When room permits we shall give the prospectus and terms an insertion.

**River Trade.**—The superabundance of the substantial of life, which attended the industry of our farmers the past season, has drawn the attention of traders to the river business at an early period this year. Notwithstanding the lowness of the river, two flat boats departed from our landing the past week, laden for the

lower market, and several more are fitting to start shortly.

Curiosity prompted us, on a former occasion, to keep a list of the boats and lading departing from Lawrenceburg; but the attempt was attended with so much difficulty, that we abandoned it at the end of one season. This season we intend to continue the list, and hope to be assisted in the undertaking by the owners and shippers of produce.

FOREIGN NEWS.

**From Colombia and Mexico.**—Captain Boisiere, of the brig Seraphim, which arrived at Baltimore on the 4th inst. in 16 days from Chagres, informs that on the 11th of August, a Government vessel arrived from Guayaquil at Panama, the Captain of which came down bearing despatches from Bolivar.—Nothing official had transpired; but the verbal report of the officers and others on board was, that Bolivar had just entered Guayaquil when they sailed—the Peruvian army having abandoned it some days previous, after destroying or carrying off every thing like ammunition or articles of war and were then at Piura.

There had been a revolution in Bolivia. Gen. Gamarra had sent the President of Bolivia, Gen. Lamar, on board a vessel sailing for Chili, with private orders to shoot him on the passage. Gen. Santa Cruz had been elected President of Bolivia, and had dissolved the Congress. It was the general opinion at Panama that there was much important information suppressed by the officers and others who arrived in the vessel at Panama. Capt. B. came in the capes with the sloop Spartan, whose Captain informed him that previous to having left Havana, part of the men of war and transports had returned from Tampico after landing and taking possession of that place—he further stated, that the Mexican troops had immediately joined the Spanish army, and the Spaniards had met no resistance in landing.

Letters have been received at Philadelphia from Vera Cruz via New Orleans, dated July 31. The embargo had been taken off, and all the vessels allowed to depart. Letters at Vera Cruz from Campeachy, dated July 25, say the invading fleet had not yet appeared, and the country was quiet.

**From Europe.**—A few items of foreign news have been received at New-York, by the Columbia, from London, which brought papers to July 31.

A Paris paper says, "It seems that the sum of 175,000,000 francs, which has been offered to the Spanish Government for the conquest of Mexico, would be produced by a loan, to be made by the ancient possessors of that country, who have been expelled from it."

Accounts from St. Petersburg are to July 15. News had been received there from Tunis of a new victory gained over large bodies of Turks on the 14th June, who had assembled in the desile of Potoz. The enemy lost their camp, a large quantity of ammunition and provisions, 400 prisoners, five standards, and all their artillery. The Turks whose force amounted to 15,000 men, lost 1200 in killed and wounded. The Russian loss was small. Count Paskevitch was still at Kars, but was preparing to attack the Seraskier himself, who, with an army of 50,000 men, was about forty miles from that fortress.

The contents of the continental Journals received this morning, says the London Courier of July 31, lead us to expect some very important accounts from the theatre of war in the east.

A French paper mentions a rumor from Constantinople that the Porte had already rejected the protocol of March 22d, relative to the affairs of Greece, but the rumor is not credited.

Arrests, trials, and confiscations continued in Portugal.

The public mind continues to be agitated by reports of changes about to take place in the British ministry,—all agreeing that the present Lord Chancellor must go out, and many asserting that Mr. Huskisson must come in.—The Courier states that all the rumors rela-

tive to the anticipated changes in the Cabinet are utterly false.

Paris letters of July 27, state the following as the new appointments in the French ministry:—M. Polignac, to be President of the Council; Mr. Hurnabau, Minister of Finances; Martignac, at the head of foreign Affairs; Debelleyme, Minister of the Interior. The other Ministers to remain as before.

A coroner's inquest had been held in England on the body of a prize fighter named Frederick Winkworth, and a verdict of manslaughter rendered against Wm. Davis as principal to the seconds of parties.

From the Mobile Register of August 21.

**Jack Waters.**—This notorious depredator who for several months past has been prowling about this vicinity, robbing houses, kitchens and poultry yards, and who has hitherto eluded the vigilance of the Patrol and Police, was on Wednesday morning last apprehended a short distance from his usual haunts. For more than 12 months this fellow has kept the City, and especially its suburbs, in a constant state of alarm, and on one occasion appeared in town in the day time armed, and bidding defiance to all who attempted to interrupt him.

It appears that he had got tired of his retreat in the swamps adjacent to the City, and for the last month or two adopted the maxim of quartering on the enemy. He accordingly provided himself with pleasant lodgings in the vacant dwelling of Mr. Hailett on Government street, whence he saluted as his necessities or convenience prompted. But his success lent him courage beyond his discretion, and he exposed himself to the observation of a slave belonging to the estate of the late Robert Blackwell, who, narrowly watching him, discovered his retreat on Tuesday night.—Early on Wednesday morning he gave notice to the Police, who surrounded the house, and on demanding a surrender found their antagonist armed for the contest, and full of fight. The brunt of the battle fell on Mr. Stafford of the City Police, who was badly cut in the head and hand, and on Mr. Ramon Soto.

When Jack found the battle waxing too hot he abandoned his citadel and took to the fields, where he was finally wounded by a pistol shot and taken prisoner. Much credit is due Mr. Stafford and Mr. Soto for the cool and determined bravery they manifested on the occasion, and some idea may be formed of the value which the citizens generally set up on the aid rendered by the negro, when we state that from a voluntary subscription immediately set on foot for that object, between four and five hundred dollars were promptly raised for the purchase of his freedom.

The Right Hon. and Rev. Earl Nelson, father of the great Admiral, was lately married in London, to the widow of Geo. Barlow, Esq. He is past 70 years of age, and seems determined to sanction, by conduct, the motto of his gallant son—"England expects every man to do his duty!"

An affray took place at the house of Mr. Seely, at Hector falls, on the 21st ult. A drunken fellow by the name of McDuffie struck another named Talk, while sitting in his chair; Talk rose immediately, knocked McDuffie down, and kicked him in his side, which caused immediate death. Talk has been committed for trial. [We have often been pestered with Talk, but never dreamed of bodily injury from it.]

**Longevity.** There are six brothers now living, of whom Judge Chipman, late of Richmond in this county, now of Sheldon in the county of Genesee, is one; the eldest of whom is 77, and the youngest, 64 years of age. The aggregate of their ages is 423, and the average, 70 years and a fraction over. These brothers were all born in the N. E. corner of the state of Connecticut, from whence they went to Vermont about the year 1775.—Four of them were lawyers and two of them physicians; and all of them have been remarkable for their industry and early rising.—*Ontario Repository.*

### TO JAMES WEAVER.

SIR: Doubtless you will recollect that on your return up the river in August last I immediately informed you that an execution had issued against you and myself for the amount of the judgment against us on the records of the Dearborn circuit court. I also informed you that had prevailed on Mr. Dunn, the attorney to stay proceedings until after you can home, as at that time you were absent and at the same time told him, M. Dunn, that as the amount being \$8500 I was willing to pay \$500, if he would release me from the claim. All which I informed you of, and tried to get you to adjust the balance, being \$35. You informed me that on the Saturday following we would go and see M. Dunn, and try if we could make any adjustment of the matter. According we had an interview with him, when again, in your presence, stated that the purpose of getting the matter adjusted I was willing to pay \$500—not if I considered myself bound to pay a dollar more than your honor—but you utterly refused to do any thing toward settling the debt, according to the statements of the creditor. These statements Mr. Dunn, the attorney, knew to be the fact. Since we had the meet with Mr. Dunn, I am informed that you have stated that I am bound to pay the whole amount of the debt, for the reason that you had placed money and property in my hands for that purpose. Whether or not it was the fact, then in that case I should be in conscience bound to pay the whole of the debt. An excellent excuse for a defaulter. I implore you and all the world to make appear that I ever did, either directly or indirectly, receive one cent from you be applied to the payment of this or another debt, wherein you and myself have been jointly concerned. I always have been, am now, & hope I always shall be willing to pay my honest contracts. I have repeatedly offered to pay one half the amount, provided I could be released from the payment of that part which you are so justly bound to pay. These statements are also well known to Mess. Dunn and Lane, the attorneys in the case. And I have also often told them that I would pay the whole amount were I able; but being unable was a plausible excuse for me. I again do you and all your colleagues to make appear to the satisfaction of one man, that I am, in any sense of the word, bound to pay one dollar more of that claim than you, or that I ever did receive one cent from you to be applied in that way you do so make it appear, I will make appear that I will pay every cent.
