

LAWRENCEBURGH.

SATURDAY, NOV. 23, 1829.

Preaching may be expected at the Methodist Church on Thursday evening next.

The heavy rains and badness of the roads have occasioned the failure of the Indianapolis, Greenville, and first western mails, due here the past week.

We have nothing definite from the east of war in the east. At our latest dates the Russian army was partially stayed in its rapid advance upon the Turkish capital, by proffers of negotiations for peace.

The legislature of this state, and the Congress of the United States, meet on Monday the 7th day of December next. The members of the legislature from this county, leave for Indianapolis in a few days; Judge Test, member to Congress from this district, departed some time since for Washington city. We shall shortly have the pleasure of laying before our readers the message of Andrew Jackson to the National Legislature.

Appointment by the Secretary of War.—Col. Abel C. Pepper, of Rising Sun, in this county, to be Sub Indian Agent at Fort Wayne, vice Capt. Thomas Porter, resigned. While we regret the stern necessity, (arising out of ill health) which induced Capt. Porter to resign a post for which he was pre-eminently qualified, we are pleased to be able to say that it has been assigned to a gentleman of undoubted abilities and integrity. Col. Pepper passed through this place a few days since on his way to Fort Wayne, to enter upon the duties of his appointment.

The Season. For some time past we have had all kinds of weather—rain, snow, frost, and genial sunshine, by turns. Much rain has fallen, and the small streams have been greatly swollen. The Ohio is sufficiently high at present, though it has fallen a little, to permit the ascent of steam boats over the falls; a circumstance unusual at this season of the year.

Backing out. In a late number of the Brookville paper, the editor informs his readers that he has "sold out," and that the materials of the office will be removed after the 10th of February to Lawrenceburgh. Mr. Jocelyn, the editor, has always been a warm and staunch friend of Messrs. Adams and Clay, and, during the late canvass, went the whole hog round for them. But it was all in vain that he tugged at the pump; the calm found him water logged, and necessity now forces him to "give up the ship." We shall see if his successor will manage the concern with greater effect. Comment is unnecessary—"Straws show which way the wind blows."

Alexander the Great observing the accuracy with which a peasant repeatedly threw a pea through the eye of a needle, ordered that a peck of peas should be given him as a reward of his skill. For a similar display, on the part of the editor of the Agriculturalist, we assign him two large potatoes and a radish, while we present the public with something worthy of consideration.

Wheat. A farmer, in this vicinity, raised the past season from 22 1/4 acres of land, the snug amount of seven hundred and thirty-four bushels of good wheat; worth, when manufactured, about \$600 or 650, as flour sells at present. It would take upwards of a great many large potatoes and radishes to bring this sum in cash.

Lawrenceburgh Market. Apples, green, bushel, 31 cts—Beef, lb. 2 1/2 to 3—Butter, lb. 15 to 18—Corn meal, bushel, 31—Chickens, doz. 75 to \$1—Eggs, do. 6—Flour, cwt. \$2 scarce—Oats, bushel, 12 to 15—Onions, do. 50 to 62—Potatoes, do. 25—Pork, 100, \$2 50 to \$3.

Public Lands. By the politeness of the postmaster here, we have been favored with a schedule of the lands to be offered at public sale in Cincinnati on the 7th, 8th, 9th, 10th, 11th, and 12th days of December next, agreeably to the order of the president of the United States. For the information of our citizens, we have, aided by Major Hunter, selected from the schedule the tracts lying in this county, showing the townships in which they are situate. It will be observed that few of those tracts are sold for forfeitures, but generally on relinquishment. The noise raised against the president of dealing hardly with purchasers of land must, therefore, cease, as not justified by the facts of the case.

The several tracts are expected to be set up, at \$1 25 per acre, in the order in which they are named in the foregoing schedule; and, the number to be offered each day will probably vary between 70 and 100, according to the actual sales which may be effected. It cannot, however, be stated with certainty on what particular day any given tract will be disposed of. The money bid by each purchaser, must be paid, without delay, to the Receiver, or the tract will be immediately resold to the highest bidder. It will be perceived that the Forfeitures which occurred on the 3d of July last, are not included among the lands about to be offered.

The large Italic capital R designates those tracts which were relinquished (in 1826 and 1827) under the act of 24th May, 1826; The small capital Roman R, those relinquished (in 1828 and 1829) under the Act of 21st March, 1828; The Roman small capital r denotes forfeitures of the 2d Class (under the Act of 3d March, 1827); The Italic large capital F, forfeitures of the 3d Class; and the small f, forfeitures under the old system, or Act of 16th May 1820, as occurring on the 20th November 1829.

Notice. The 5th volume or year of the Palladium ending on the 2d of January next, it is deemed proper to notify and request all subscribers who may wish to discontinue at that time, to signify the same to the editor, at or previous to the end of the year.—Those who do not, will be entered on the subscription book for 1830, and considered subscribers for that year.

We would take it as a particular favor to be early advised, by those at whose residence packets are usually deposited, of all cases of neglect on the part of subscribers to receive their papers as directed; as also of the inability of such as may be considered doubtful. The responsibility of deciding on the ability of a neighbor to pay for a paper, we are aware is delicate, and one which some feel a backwardness to incur. We hope, however, that this will not deter any one from doing us the kindness desired. The want of information on these points has caused us much loss, for it is impossible to tell unaided the wishes of subscribers residing at a distance, or their ability to pay. In many instances our paper has been forwarded 6, 9 and 12 months to persons either dead, run away, refusing to receive, or unable to pay, before it was known to us. That we may not be misunderstood in these remarks, we would observe in conclusion, as a meed of justice to the more humble in circumstances among our subscribers, that to them we are much indebted for the support we have received, because it has been generally seasonable and to the extent of their ability.

RIVER LIST.

Flat boats departed since our last.

No. 16 & 17. Jacob Dennis, owner. Cargo—60 head cattle; 75 head hogs; hay; &c. &c.
No. 18 & 19. John Spencer, owner. Cargo—64 head cattle; 43 head hogs; 1500 bushels corn; 2 bbls. beans; 22 bushels potatoes; &c. &c.

We like to hear our neighbor of the Agriculturalist bragging of his large radishes and potatoes, he does it with so much grace. Only listen how he bangs away with a 3 pounder at our sample of the "potato patch."

The Dearborn County Potato beaten!—The Potato which we expected, though not so large as anticipated, is, nevertheless, large enough to lead the Dearbornites. It weighs three pounds and leads the Dearborn Potato 3 ounces.

In addition to the above, we were informed by Mr. Jones, of this Township, that he had two Potatoes weighing seven pounds—one three and three quarters—the other three pounds and one quarter.

From the same.

Goodwin out-done—or a Radish fairly beaten!—Captain David Smith, of Brookville Township, this day (Nov. 4) deposited at Capt. Ogden's a Radish, measuring twenty-six inches in length and twenty-six in circumference, and weighing fifteen and one half pounds. If Dearborn beats Goodwin—this will not be so easily slidden over.

Potatoes. A potato weighing nearly four pounds, has been left with us by a farmer of this county, who informs us that he raised one hundred & fifteen bushels, this season, from one fifth of an acre; of which about ten bushels were nearly similar in size to the one left with us; the largest among them weighing three pounds fourteen ounces, and the smallest

three pounds. Heretofore it has been generally supposed that our climate was not favorable to the culture of Irish potatoes, but this opinion must have arisen from a general neglect of experiments upon the subject, since such crops as this we are speaking of, could hardly be produced where either soil or climate were unfriendly. W. Tiller.

The Boston Courier states that a living serpent was shewn at that office on Thursday by a respectable physician, which had been drawn a few days before from the body of a child in Newton, by its mother. It is about 6 inches long, of the bigness of a large goose quill, and the head larger than the largest pea, of the house adder species, back yellowish brown, belly bluish white.

DIED.—In Manchester township, on the 23d of October last, Mr. VERNON FAIRBANKS, aged 19 years.

Collector's Notice.

I Request all those delinquent in payment of their taxes for the year 1829, to pay the same on or before the 10th day of December next as the 14th of the same month is the time fixed by law for settlement at the state treasury. It is hoped that all in arrears will attend to this notice, as without their assistance it will be out of my power to meet the demands of the state.
