

PALLADIUM.

Lawrenceburgh, April 7.

In consequence of the appearance of the Chelera, in London, the authorities of the city of Boston, Mass., have issued an order of quarantine, affecting all vessels arriving from any of the British ports.

The following named persons were elected corporation officers, at the election held on Monday last:

President—A. St. C. Vance.

Council—Jabez Percival, John Saltmarsh, John Shook, Thomas Palmer and D. V. Culley.

WABASH AND ERIE CANAL. The acting commissioner has given notice that sealed proposals will be received at Fort Wayne, from the 20th of May to the 1st of June next, for constructing a portion of the middle division of the Wabash and Erie Canal. The terms, plans, estimates, &c. ascertained by application to the commissioners, at Fort Wayne.

Between the 16th and 23d ult. 11 Steam Boats touched at Vincennes on their way up the Wabash, laden with goods, salt, iron, and other supplies for merchants in the north western part of this State. The trade of the Wabash is already very considerable, and increasing beyond all calculation.

The resolution submitted by Mr. Clay, in the Senate, it will be seen by a sketch of a debate, given to-day, has been referred to the committee on manufactures, accompanied by various instructions. A bill will therefore be reported, and then we shall have the whole discussion over again, which was had on the resolution. The time spent in arguing the tariff question, in the abstract form presented by Mr. Clay, we incline to believe, is lost to any good purpose. Nothing tangible or certain has been produced by it, save a few long winded speeches, better adapted, in many particulars, to the electioneering stump, than to the examination of a grave and interesting question.

The town of New Albany, in this state, contains, according to a late enumeration, 2404 inhabitants. Increase since taking the census in 1830—324.

The books for subscriptions to the capital stock of the Lawrenceburgh Insurance Company, were opened in this place on Monday last, and closed on Wednesday night, when it was ascertained that near 1000 shares had been taken—600 more than is required by the charter to commence operations. The election for directors takes place on Monday the 23d inst.

The members of the Virginia legislature met in convention at the city of Richmond, on the 14th ult. General Jackson was unanimously nominated for re-election as president of the United States. Mr. Philip P. Barbour was put in nomination as a candidate for vice president, but, after considerable debate, the convention adjourned without making any nomination.

By an advertisement in another column, it will be seen that Col. Polke, Michigan road commissioner, will let for improvement, to the lowest bidder, on certain days and places stated, all that portion of said road lying between Logansport and the Ohio river, at Madison. We submit the question to some of the citizens of this county, whether they would not find it to their advantage to attend the sales and take contracts?

We have been favored with a copy of the "New Orleans Price Current," of the 17th ult. from which we make the following extract.

Beef, western, mess, bbl. \$9—prime \$7—carg \$3. Bacon, hams, lb. 7 1/2 to 8 cts.—hog round 5 1/2 to 6. Butter, Goshen, lb. 19 to 20—western 12 1/2. Beans, white, bbl. \$4 to 4 50. TO THE EDITOR.

Washington City, March 21st, 1832.

DEAR SIR: The bill from the Senate, supplemental to the several acts for the sale of the public lands, was this day, after undergoing several material amendments, ordered to be engrossed for a third reading. By the provisions of this bill, should it finally pass the House, and the Senate concur in the amendments made, which it is believed it will, the right of preemption is granted to actual settlers upon the public lands, and the liberty of entering in lots of forty acres, or quarter quarter sections,

where the applicant shall file affidavit that he makes the entry for himself and not in trust for another, and for actual cultivation or for the use of his farm. It is believed this bill will effect two very salutary purposes—it will greatly facilitate the settlement of the country, by bringing into immediate market a large portion of the public lands, which otherwise, in all probability, would lie unoccupied for years to come: for its provisions are exclusively confined to those who intend and make the purchase for actual settlement, or for the use of his (the applicant's) adjoining farm; and while it will thus effect an immediate sale of so large a portion of the public dominion, it prevents the non-resident speculator from purchasing choice lots with a view of profiting by its enhanced value, produced by the improvements of the surrounding lands, made by the labour of the actual settler. To the industrious poor man, who can raise \$50, it will afford an opportunity of procuring a small home of a freehold for himself, upon which he may raise and support his family; and which, although small, is as much to him as a section would be to the wealthy. By ordinary industry and economy, with that portion of the products of his labour saved, which is annually paid to his landlord in the way of rents, the settler will be enabled to increase his small estate, by the purchase of adjoining forty acre lots; besides, it will relieve him from the subservieny of a tenant, subject to the usurpation and dictatorial will of an avaricious landlord and speculator.

A bill has passed the house of representatives establishing new post routes, and vacating others considered to be useless; which is now before the Senate. By this bill, as it passed the House, a post route is established from Lawrenceburgh by Cambridge, York Ridge, German village, &c. to Rushville, also, from Rising Sun by Hartford, Bisbee's mill and Caesar creek to Versailles, to return by Moore's mill and Wilmington to Lawrenceburgh; also, from Florence, by Burlington, Ky. to Rising Sun. The committee raised to investigate the books, &c. of the U. States Bank, left here for Philadelphia this morning.

I am, very respectfully,

Your ob't servant,

JONATHAN MCARTY.

Since the above was prepared for press, the following has been received:—
