## DR. JUDKINS' Specific Ointment.

(Price Fifty Cents.)

THIS invaluable medicine is celebrated for curing the following diseases:

- 1st. *White Swellings* of every description.
- 2d. *Sore legs* and *Ulcers* of long standing.
- 3d. *Scirrhus or Granular Tumors*, particularly those hardened Tumors in woman's breasts which oftentimes terminate in ulcerated cancers.
- 4th. *Felons*, or what some people know by the name of *Catarrhs*, of every description.
- 5th. *Rheumatic pains* of the joints.
- 6th. *Sprains and Bruises* of every description or in whatever part situated.
- 7th. *Tetters* of all kinds. In this complaint, the patient in applying the ointment must keep the part out of the water.
- 8th. *Chilblains*, or parts affected by frost.

It is also one of the best remedies for burns and scalds. It eases the pain and draws the fire out in a short time. For women's inflamed breasts, and glandular swellings, it is superior to any medicine yet known to the medical faculty. It is much safer than mercurial applications, (as it does not contain the smallest atom of that mineral,) because it does not lay the patient liable to injury from exposure to cold.

This ointment has cured sores of many years standing. When it is impossible or imprudent to heal the sore, in consequence of the bones becoming carious or rotten, it will stop the progress of the caries, increase the quantity of the discharge, remove the offensive smell, and ease the pain.

It cures the worst felon or whitlows on an application of forty-eight hours.

Rheumatism which have stood as long as to become a systematic disorder, require medicine to be taken inwardly to remove them entirely. But in most cases by applying this ointment externally, as directed, it will give relief. And even old people whose pains have been of longer standing, it will ease the pain.

## CERTIFICATE.

SIR—From the benefit which a son of mine has received from your Specific Ointment, I am induced to send you a statement of his case, which you may dispose of for the benefit of others in a similar situation. He had a white swelling in his knee, which, from its long continuance and painfulness, had reduced him very low, and rendered him lame. The physician who attended him finally quit him, with very little benefit done. My son at this time was in a hopeless situation. I then sent and got one pot of your Ointment, and the benefit which he received from it, induced me to persevere in the application. I sent and procured a few pots more, which has finally cured him.

## DR. THOMAS WHITE'S Vegetable Tooth-Ache Drops.

THE only specific offered to the public from which a permanent and radical cure may be obtained of that disagreeable pain, the toothache, with all its evils, such as fracturing the jaw in extracting of the teeth, which often proves more painful than the toothache itself; and cold passing from the decayed teeth to the jaw, thence to the head producing a rheumatic affection, with many other unpleasant effects; such as a disagreeable breath, bad taste in the mouth &c. &c. all of which are produced from foul or decayed teeth. I am happy to have it in my power to offer to the world a remedy, that will not only remove the pain nine times out of ten, if properly applied, but preserve the teeth from further decay, and arrest the disease in such as are decaying and have not commenced aching, restoring them to health and usefulness.

## CERTIFICATE.

Mr. White: I have the pleasure to inform you, that agreeable to your request, I have been using your Tooth-ache Drops in my practice for some time past, and I must acknowledge that I find them far superior to anything I have ever yet known for that purpose. You are entirely safe in recommending them to cure nine times out of ten; for from the success that I have had, I believe your recommendation falls short of their merits.

I am well convinced that it will cure most cases of Tooth-ache when it is timely and properly applied. I am not able to say much at this time as to its preservative properties; but from what I have seen of your teeth that have long been cured and preserved from decaying, and from a few weeks experience I am decidedly of the opinion that it will have a very beneficial effect in preserving the teeth, and recommend it, hoping that it may prove a blessing to humanity, and advantageous to yourself.

## Notice.

TO BRICK MAKERS AND BUILDERS.

THE great demand for Sawyer's Patent Brick Machines, has induced the proprietor for the West, to make arrangements [in addition to his own facilities] with Mr. S. S. Dickinson, manufacturer of the celebrated Franklin Printing Press, to devote a part of his very extensive establishment to the erection of these brick machines, without, however, interfering with his means for furnishing, as usual, his variety of printing materials.

This method of making Brick has been practically proven to be the best yet known, either as regards economy and expedition in manufacturing, or quality of the article when made. Competition, the test of all such matters, is cordially and respectfully invited.

The Patent Right is considered well secured, even beyond the possibility of infringement; and some of the ablest Counsel in the Union having been employed in preparing the specifications of the same.

The subscriber will sell and give clear titles for Rights to use the Machine in any Western Town or County not yet sold. He will also furnish Castings, with the wrought Iron, separately or together, or contract for building Mat chimes in the West on favorable terms.

## THOMPSON'S

### TOOTH-ACHE DROPS.

THE subscriber has the pleasure of offering to the Public a fresh supply of his remedy for that tormenting disease the

TOOTH-ACHE, which he has discovered after a series of experiments pursued for nearly two years.—In the composition of this remedy he assures the public that there is not the smallest particle of any mineral substance, that it is entirely compounded from the vegetable kingdom, and that its tendency is, instead of corroding the nerve and substance of the tooth, to preserve both.—It acts as a sedative, and also as an antiseptic, without producing the slightest increase of pain, and on its application almost instantaneous relief is obtained.

Numerous certificates are in the possession of the subscriber, of cures performed by this remedy, but as some of them can be seen where the "drops" are for sale and others on application to the subscriber, it is deemed useless to insert them here as the publication would be more expensive than necessary.

A single vial will be sufficient if properly applied to cure from 60 to 100 cases, and as printed directions accompany each vial, any person can administer it even to himself.

For sale wholesale and retail by Dr. Phillip Mason in Connorsville, Allen & Co., Cincinnati, Nathan D. Gallion, Brookville, and by retail at most of the country stores.

A liberal discount made to those who purchase for retailing.
