

FOREIGN BONDS WILL BE PAID

Financiers Say Anglo-French Issue Will Not Default.

NEW YORK, Feb. 25.—Half a billion dollars worth of Anglo-French bonds, maturing here in October, will be paid promptly in good American dollars, in the opinion of the financiers of this country, according to William Ewing, head of the bond department of J. P. Morgan & Co.

"There is nothing else for the British and French governments to do and there is no doubt in the minds of American financiers of their ability to do it," Ewing said in an interview today.

"With increasing British and French exports to this country, the trade balance will be gradually restored and the underlying cause of depreciated exchange will be removed."

Two of the factors which will tend to stabilize exchange, Ewing said, are the lifting of foreign industrial bonds in the open market here and the acceptance by American manufacturing concerns of industrial bonds instead of gold.

PRICE BUGABOO SLOWLY YIELDING

CHICAGO, Feb. 25.—Blame supply and demand if you like, but the country is due for price declines—anyway that's the opinion of Maj. A. A. Sprague, Chicago fair price commissioner. Another five or six months will be needed to drive the high price bugaboo to the tabernacle and then the land slide will come, Sprague believed today.

Lower prices are conditional upon supply and demand and seasons, according to Sprague. The effect of seasons is in the recent drop of 20 cents a pound for best butter and decline of 10 cents a dozen in fresh egg prices, the commissioner says.

Most prices are wavering, Sprague declared. Fluctuations are recorded daily, he said. Fresh pork loins today were 2 cents lower than the offerings last November; pork chops have topped 10 cents; tenderloins 10 cents, while round steak and lamb racks show advances.

Meat prices in five large cities outside Chicago show a general downward trend, with the largest sag recorded in Milton, which was 12 cents lower in New York than November prices.

Observations taken at 7 a. m., Feb. 25, 1920, by United States weather bureau.

WEATHER CONDITIONS.

Since Tuesday morning precipitation has occurred in most places in the eastern half of the country, and in the region north of the Missouri river, but the amounts were only light to moderate. Barometric pressure is relatively high over the northwest and the plains states, decreasing steadily northeastward to the Atlantic. It is colder over most of the country from the plains region eastward, and freezing weather extends as far south as the Gulf of Mexico. Over the northwest, however, the readings continue near the seasonal normal, but they are below normal from the St. Lawrence valley to the Gulf.

INCOME TAX FACTS YOU SHOULD KNOW

Aside from the salary which a clerk receives during the year, he must consider as taxable income the fees received for special services performed for individuals or organizations. Also, in case he is furnished with a rectory, or living quarters
