

## NEW LEADERS TAKE CHARGE IN TURK CAPITAL

Sali Pasha Heads Government  
With Many of Old Cabinet  
Retained.

LONDON, March 9.—A new government, headed by Sali Pasha, has been formed in Constantinople, a dispatch today said. The new cabinet includes most of the members of the preceding government.

The exact situation in the Turkish capital today was not clear. Latest reports from official messages received here, indicated that Constantinople is under martial law and controlled by British soldiers. The Turks were reported stirring up Arabians, Mesopotamians and Shiites.

Position of French forces in Cilicia (Turkish Asia Minor) was described as serious. The French, it was said, are opposed by large bodies of Turkish nationalist troops of the forces of Mustafa Kemal, leader of the Turkish rebels.

### WAS PERMANENTLY OCCUPY CAPITAL.

French troops in Constantinople, it was indicated, may be permanent, the British taking the position that the safety of allied commerce demands full protection for the "gateway to the east."

With early news reports from Constantinople, official messages said, it was believed the allied force there is sufficient to prevent the disturbances assuming serious proportions. The Paris government is considerably displeased at the turn in Turkish events and feels that Great Britain, Italy and Greece have combined to force through a program to which they know France is opposed.

### QUESTION AGAIN BEFORE CONFEREES.

Meantime there were indications that the peace conferees here will again take up the Turkish question to decide a proper plan for settling the entire Turkish situation.

Premier Lloyd George's statement in the house of commons yesterday that the government had no intention of sending 15,000 Armenians to be massacred in Turkish Asia Minor was taken to mean that opinion is being prepared for extensive British action there. The French, Lloyd George said, are sending reinforcements to their troops in Cilicia, re-establishing their positions to protect Armenians.

The fleet which Great Britain is sending into Turkish waters contains some of the most powerful warships in the world. Advice from Tunis said that it included the super-dreadnaught Queen Elizabeth, the Humber and some dreadnaughts.

The Queen Elizabeth took part in the ill-starred efforts of the allies to force the Dardanelles during the war.

### TURKS NEED FIRM HAND, EXPERTS SAY

WASHINGTON, March 9.—The allies must take an aggressive stand in their relations with the Turks in the Constantinople area and make a considerable show of military strength if sporadic clashes between allied and Turkish forces are to be avoided, in the opinion of military experts here.

Extensive warfare between allies and Turks is considered improbable. The attitude of the Turks toward the European troops in Turkey has become increasingly hostile, according to advice here.

The strained situation originally was the result of the open hostility of the Turkish forces and the recent wholesale massacres of Armenians by the Turkish nationalists. It also is believed by officials here that the Turkish government is playing its old game of international intrigue.

The Turkish regular army is reported to be 45,000 men strong, mainly around Constantinople and in the interior of Anatolia. The nationalists are reported to have in the village of Aiden from 10,000 to 15,000 troops and about 5,000 in the interior of the Anatolia. Many also are reported to be deserting the regular army for the nationalist cause.

The British have nine regiments of infantry and ten batteries of artillery at Koniah and along the Black sea, according to information here. There are five divisions of Greek troops at Smyrna. The Italians have two regiments of infantry, two squadrons of cavalry and two batteries of artillery at Koniah and Aiden. The French have the largest force in Asia Minor with two regiments of infantry, six squadrons of cavalry and twelve batteries of artillery in Cilicia, Syria and Angora.

For convenience of out-of-town patrons visiting the automobile show, Monday railroad officials announced today that train No. 17, arriving at the Union station at 10:30 a. m., will stop at the west gate of the fair grounds for passengers from the north coming to the show and the train leaving the Union station at 5:30 p. m. will stop at the gate to take on passengers for points north.

### Central Labor Union Against Hour Saving

The Central Labor Union is on record today as being opposed to the adoption of the daylight saving system in Indianapolis.

A resolution opposing the adoption of the plan in Indianapolis by ordinance was passed at the labor body meeting last night.

The chief ground upon which the system was opposed by speakers was that laboring people would lose the value of the coolness of the morning hours during the summer months for sleeping.

J. T. Goode was elected to fill a vacancy on the board of directors left by Louis Schwartz, who resigned.

### Fear for Forty-One on Missing Tanker

NEW YORK, March 9.—The mystery of the disappearance of the American tanker Cubadist, which sailed from Havana, Feb. 26, grew today when naval radio stations or the Atlantic seaboard continued to report no word from the missing vessel.

The Cubadist, with a crew of forty-one, was bound for Baltimore. The last wireless from her reported her position as eleven miles south of Diamond Shoals Lightship.

The belief is expressed that the ship may have met disaster in the storm which swept the Atlantic coast Friday and Saturday.

### NEW HAMPSHIRE VOTES.

CONCORD, N. H., March 9.—New Hampshire electors were voting today in the first state presidential primary. Both republicans and democrats were to make known their choice of candidates.

Gen. Wood appeared to be the favorite of the republicans and Herbert Hoover of the democrats.

**MURINE** Night and Morning. Home Sore, Itchy Eyes. If they're Itchy, Smart or Burn, if Sore, Irritated, Inflamed or Red, your eyes need Murine. Granulated, use Murine often. Soothes, Refreshes. Safe for Infants or Adults. At All Druggists. Write for Free Eye Book. Hurry Eye Remedy Co., Chicago.

## GIVING FREELY TO AID 'LITTLE MARY'

Fund to Educate Her Grows,  
but—Is YOUR Name There?

**'LIFER' SENDS \$1**  
Howard Cerf, recently sentenced to serve a life term in prison for being an habitual criminal, holds no bitterness against the police for doing their duty. Cerf today sent \$1 to the fund for "Little Mary."

More than \$500 has been received by the committee of police officers in charge of the fund to "take care of Little Mary," it was announced today.

This fund will be used to educate Mary, the daughter of Sgt. Maurice Murphy, who was killed in the performance of his duty while trying to arrest "Hell Cat" Thomas, negro bandit.

Harry C. Stutz of the Stutz Motor company, and George A. Weldely of the Weldely Motor company, representing the automobile association, yesterday afternoon assured the members of the police committee that local automobile men would pay the \$1,500 mortgage on Sgt. Murphy's home.

The dying policeman's last wish will thus be met. The fund will be used to educate Mary, the daughter of Sgt. Maurice Murphy, who was killed in the performance of his duty while trying to arrest "Hell Cat" Thomas, negro bandit.

With early news reports from Constantinople, official messages said, it was believed the allied force there is sufficient to prevent the disturbances assuming serious proportions. The Paris government is considerably displeased at the turn in Turkish events and feels that Great Britain, Italy and Greece have combined to force through a program to which they know France is opposed.

### FIRST COLLECTIONS FROM POLICE FORCE.

Patrolman John Hett brought in \$146 collected from the patrolmen on duty between 11 p. m. and 7 a. m. Traffic Officer Dugan brought in \$50 donated by the traffic policemen and all of these men had not been seen, Dugan stated. The captains, sergeants, sergeants and detectives and the other shifts of the patrolmen are yet to be heard from.

Dr. Hannah Graham, who donated \$5, notified Chief Kinney she would give \$5 each year to "Little Mary" until Mary reached the age of 18 years.

The amount being raised among members of the police department will not be made public until tomorrow, and it will be made public as soon as the total is known by members of the committee.

### OIL MEN MEET IN CHICAGO.

CHICAGO, March 9.—Twenty thousand oil men were expected here today to attend the three-day national petroleum congress of the American Petroleum League. Representatives from practically all the mid-continent oil companies were to be present.

### Acid-Stomach Makes Bad Blood, Headaches and Nervousness

Many times you have seen an awfully bad, oozy-looking face that makes you think—"It's blood poison." You are wrong, for about nine times out of ten it is caused by an acid-stomach, which upsets the digestion. This makes the blood impure and it shows up in the face, with a red nose and pimply, blotchy, muddy, bad-looking complexion.

Remember, too, if the digestion is faulty, you cannot escape the penalty in the loss of mental and physical power. Try again if you eat more food than the body needs, it makes gas by fermentation.

This fermentation creates toxic poisons which, taken into the blood, irritate the nerves and affect the entire nervous system. This is the frequent cause of severe attacks of headache and other nervous disorders such as extreme nervousness, irritability, insomnia, mental depression, melancholia, dizziness and vertigo.

Thousands, yes, millions of men and women suffer daily from these troubles and never dream that Acid-Stomach is the cause of their wretched health. But for that matter any number of people have endless trouble with their teeth not knowing that a condition called acid-mouth is causing all the damage. If a tasteless acid is powerful enough to eat through the hard enamel of the teeth and cause them to decay, you can easily imagine that Acid-

Stomach works just as insidiously and surely to the damage of the entire organism. Therefore, in order to regain your health and strength you must get rid of the acid-stomach condition.

A new method of doing this has now been found. It is called EATONIC—in tablet form just like a bit of candy. It does the work easily, speedily and thoroughly. It makes the stomach clean, sweet, cool and comfortable.

EATONIC quickly banishes the immediate effects of Acid-Stomach—bloat, heartburn, belching, food-repeating, indigestion, etc. Improves the general health and is a wonderful aid to digestion.

Tens of thousands of people who have used EATONIC testify to its power to bring quick relief. Some of these people are so enthusiastic and tell of such remarkable relief as to be almost unbelievable.

EATONIC is guaranteed to please you. Your druggist will refund your money if you are not satisfied.

## MOTOR SHOW LURES THROG OF INDIANIAN Visitors From Many Cities Here to See Miles of Automobiles.

Miles of cars, big and little, magnificent and inexpensive, and all the marvels of automotive inventive genius are being displayed at the twentieth annual automobile show of the Indianapolis Automobile Trade association, in the Manufacturers' building at the state fair grounds today.

Visitors from all Indiana cities and many from far distant points arrived early, to get a first glimpse of the wonders offered for the 1920 automobile season. An army of motor cars was assembled in the parking space provided for motoring parties, despite the cold weather.

John B. Orman, manager of the show, predicted early today that this year's show would far outstrip those of the past in point of attendance and in business won by exhibitors. The steady increase in motor interest and the general prosperity of Indiana would justify such a prediction aside from optimistic indications furnished by the opening crowds.

More than 135 individual exhibitors occupy space in the show building. In one year the show has outgrown the quarters planned a year ago, and many exhibitors were able to get space only through courtesy of earlier claimants.

In many respects the Indianapolis event outlines the New York Motor Show, automobile men said. In the big cities visitors were left to entertain themselves by viewing exhibits.

Here is a musical program of unusual excellence, provided to lend charm to the atmosphere. Scenic effects contrived by Frank Zimmerman and executed by Charles W. Read and a staff of artists are strikingly beautiful as well as stupendous in size.

A scenic conception of Indiana as a "motorist's paradise," showing rugged hills, peaceful valleys, beautiful forests and fields of rich grain, occupies the entire 600 feet of window space. The panorama is subtly designed to give one effect in transparency by daylight and another at night by the interior lighting.

## Samuel L. Trabue New Democratic State Chairman

SAMUEL L. TRABUE.

A. C. Sallee, chairman of the democratic state central committee, announced today the appointment of Samuel L. Trabue of Rushville as secretary of the state committee. The position has been vacant since Jan. 1, when Mr. Sallee resigned to become state chairman to succeed Frederick VanNoy, who became United States district attorney.

Mr. Trabue is an attorney, having practiced law at Rushville for twenty years. He has had considerable experience in special organization work for the state committee in past campaigns and has thus gained a wide acquaintance throughout the state. Mr. Sallee said he considered him well qualified for the place.

Mr. Trabue is 41 years old. He is a graduate of Valparaiso university and a member of the Fayette and Rush county bars. He has been chairman of the Rush county democratic committee since 1912 and has been a member of the democratic state committee since 1918. Mr. Trabue enlisted in the army at the outbreak of the war and was stationed at Camp Taylor. He is a member of the American legion, the Masonic lodge, the Odd Fellows, the Elks and the Knights of Pythias.

Mr. Trabue is expected to assume his new duties this week.

### U. S. Favors Local Terminal Market

Uncle Sam looks with favor on the proposition of establishing a wholesale terminal market in Indianapolis.

W. M. Stover, of the bureau of markets, Washington, D. C., brought this assurance to Indianapolis today. He conferred with Stanley Wyckoff and others interested in the building of a wholesale terminal market.

The proposal to erect a great wholesale terminal market was brought forth by Mayor Jewett when he campaigned for office. It being one of his principal campaign promises, but no step has been taken toward building the market.

The truck market affords a wide latitude of selection. Capacities of carriers displayed varies from the five-ton breadhaught to 100-pound light delivery truck. Increasing interest of farmers in motorized equipment is demonstrated in this show as never before.

Sections of the state are inspecting truck and tractor exhibits with a completeness of understanding gained by months of reading and study on the subjects involved.

A Curtiss airplane, displayed by a Kokomo company, attracted many spectators today. Privately owned business and pleasure aircrafts will soon be on common sights, managers of the exhibit declared.

The accessories display this year covers more than half a mile of counter space and includes all motorized inventions and discoveries of the last year.

Janet Adler's orchestra and a party of strolling minstrels are providing a pleasing musical program in keeping with the spirit of the big show.

One of the exhibiting companies, whose name was omitted from the official list of exhibitors as announced by the trade association, is the Indiana Hart-Parr company, exhibiting Hart-Parr tractors.

A statement was issued today by the Associated Employers of Indianapolis praising the automobile show and urging upon other civic bodies of the city the importance of making the show a success.

WASHINGTON, March 9.—The president sent the following nomination to the senate this afternoon: Albert W. Newlin of New Orleans to be naval officer of customs for customs collection district No. 29, with headquarters at New Orleans.

### Canonize Joan of Arc.

ROME, March 9.—Decrease for canonization of Jeanne d'Arc, French heroine and martyr and Mary Alouque, French nun, were read at the papal consistory today.

To Cure A Cold in One Day. Take LAXATIVE FROM DOCTORS (tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVES' signature on each box. 50¢—Advertisement.

### Up Go Tire Prices A PREDICTION

In the past three years every prediction we have made regarding the lowering or raising of tire prices has proved right. We now predict an early rise in prices of all standard brand tires. The announcement of the big makers may even be in today's Times. It may come tomorrow or immediately after the Show—but it's coming and coming quick. That's our prediction. We get it from a reliable source that the advance will be from 10 to 15 per cent. over present prices.

No matter how the cat jumps we will not raise our prices

We anticipated this raise and have stocked heavily on standard and popular brands of tires and tubes. Our present prices are now lower than those generally prevailing and will, as long as possible, remain the same. We certainly won't raise during show week, no matter what pressure is brought to bear.

Right now we have
